

## KENT CO. SOLID FOR GOVERNMENT

Sheriff Legere, Councilor Robichaud and W. D. Carter the Winning Team.

BUCTOUCHE, Saturday. — Premier Robinson arrived here at noon from Cocagne to attend the Liberal nominating convention this afternoon and accompanied by the Hon. C. H. LaBillette, Commissioner of Public Works, will address a mass meeting at night. He remained over in Cocagne last night where a large and enthusiastic meeting was held in the public hall, favorable to the provincial government. Dr. A. H. Chandler was in the chair. The attendance was large and enthusiastic and augured well for this portion of the county. The principal speakers were, Premier Robinson, Hon. C. H. LaBillette, both of whom were received enthusiastically. Among the other speakers were Mr. John B. Goggin, ex-M. P. P., Sheriff Legere, Councilor Robichaud and W. D. Carter, these latter three being the liberal candidates for the county. Excellent addresses were also delivered by the Hon. James Barnes, Mr. R. A. Irving, Mr. Cutler and others. There was an address also by Mr. Pascal Hebert, who declared his intention to support the government. Mr. Hebert it will be remembered ran at the last general election as an opposition candidate. Kent Liberals were never more united and enthusiastic than at the present moment.

### A WOMAN'S ROOM.

A woman's room. Its daintiness Proclaims it hers. Each quaint recess Fragrant with flowers; each cosy seat Subtle with invitations, meet A man's requirements—more or less.

It soothes one like a faint caress, A lover's sympathy—confess— You have not even seen so sweet A woman's room.

Her books and pictures—all express Her varied moods. Ah, how I bless The day that brought her little feet More near—since to be quite complete It needs the rustle of her dress A woman's room.

Western Home monthly Grey, like black, is being used a good deal to give an effective finishing to a costume. Of course, it is not as useful as the latter color in this capacity, but undoubtedly it does look charming with some colors.

It is said that plain white gloves for evening wear are losing favor. Instead the people are wearing a delicate blue or a pale straw tint with admirable effect, although, of course, there are a number of people who express preference for the old fashion.

Evidently an attempt is being made to introduce the sloping shoulder of the early Victorian period, for it is an acknowledged fact that all the smartest coats just now are made with drooping shoulder lines, the Mandarin arm-hole and sleeve being high in favor. The effect is very graceful, though I do not imagine it is admired by the athletic woman.

A very pretty mink jacket was recently seen with a short waistcoat of biscuit colored cloth embroidered in brown and dull yellow. A flat band of the same outlined the neck, while the sleeves were finished off in the same manner. Pretty as mink is its beauty could not fail to be enhanced by this addition, the pale shade of the cloth used for the waistcoat, and the sheen of the embroidery blending admirably into the general sumptuous whole.

It is a relief to hear that in some fashionable circles, at any rate, hats are growing smaller, toques and turbans trimmed with erect plumes and velvet taking their place. Personally, however, I have always considered the turban shape to be a particularly trying one. However, it looks neat and trim enough on the right woman, and is certainly a pleasant contrast to the huge hats crowded with masses of feathers, of which we have seen so much lately.

Well, it's remarkable, but a fellow really never feels as confident that he has lost it as when he has the grip. Of course there is nothing new under the sun, but almost any druggist can give you something just as good.

## Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation. The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct Constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this ingenious and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Bloating, Gas, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

For something new, nice, economical and effective, try a box of

## I. C. R. Calendar Both Useful And Artistic.

People's Railway Annually Sends Thousands to Many Parts of the World.

Some very handsome and attractive wall calendars have in the past been issued by the Intercolonial Railway, but it is safe to say that all previous ones are eclipsed by the one just to hand for 1908, which is not only exceedingly artistic, but one which should be held in great value by those who desire a calendar for a calendar's sake as well as for its artistic excellence. This is a highly useful calendar, the date tabs being so plain as to be easily read and yet not conspicuous in an ornate design which might be called striking.

It is a twelve sheet calendar a separate sheet for each month, the months commencing in February of this year and ending in January 1909. The design shows a good deal of originality, and for the workmanship the lithographer is much to be commended. The moosehead is there of course. It would not be an I. C. R. calendar or I. C. R. anything else without the moosehead. So the antlered monarch appears in the upper left hand corner encircled by a shield of blue on which appear the words "The Fast Line" "The People's Railway" in letters of white. The moosehead is in a background of yellow, and a golden gleam, playing upon forehead and antlers rather brightens the effect. Surrounding the lower

half of the circle and spreading across the face of the calendar is a wreath of maple leaves in green and autumnal tints. The leaves form the frame of a half tone view, a different one appearing on each monthly sheet, being well selected photos representing some of the best scenes along the line. Diagonally across the face of the calendar in large white letters on a background of scarlet, is the word "Intercolonial" and in black letters just over the date tab are the words "People's Railway of Canada," and in Prince Edward Island Railway of Canada. Running vertically on each side of the date tab in red and black lettering are fitting references to Canada's famous routes, the Maritime Express and the Ocean Limited. The date tabs are printed in plain black letters of a size that ensures their being easily read, and the Sundays and holidays are in red. The calendars are sent out for mailing in cardboard cartons with printed labels which announce that they are sent with the compliments of the "Intercolonial Railway and Prince Edward Island Railway of Canada," and in this connection the word "Canada" appears conspicuously. Thousands of them are sent annually to many parts of the world, and so wide a reputation have the calendars earned that the applications for them yearly grow larger.

## STEEL FOUNDRY FOR MONCTON.

MONCTON, Friday. — Rhodes & Currie, the big Amherst manufacturing concern are thinking of establishing in Moncton a big permanent industry to take the form of a steel foundry for the manufacture of railway appliances, and steel castings generally. The proposal is considered by the council tonight that they might arrange to do all their passenger and electric car work here. An industry of this kind is now allied with their concern at Amherst. The proposal is held out in connection with the old I. C. R. shops, tenders for occupancy which have already been asked for by the government. The company say that if sufficient inducement is offered they will be inclined to endeavor to rent the shops.

## ZAM-BUK CURES PILES.

No Return of Trouble.

This distressing complaint is successfully dealt with by the Zam-Buk treatment. The agony of Piles is as excruciating as the disease itself is weakening, and every sufferer should lose no time in giving Zam-Buk a thorough trial. Zam-Buk subdues the pain, allays the inflammation and enables rest and comfort to come to the worn-out sufferer. I have used Zam-Buk for some months I was a constant sufferer from bleeding piles. I had used a great many ointments but got no relief until I had tried Zam-Buk. It cured me and I have had no return of the trouble. Since my cure, I have advised others suffering with a similar complaint to use Zam-Buk, and in each instance have heard satisfactory reports. Zam-Buk also cures cuts, burns, Scalds, ulcers, ringworm, itch, barber's rash, blood poison, bad leg, salt rheum, abrasions, abscesses and all skin injuries and diseases. Of all stores and druggists 50 cents a box from Zam-Buk Co., Toronto, post-paid for price. 3 boxes for \$1.25.

### GOOD APPOINTMENTS.

Hon. Mr. Graham, Minister of The Amherst Telegram, tory organ, says:—Hon. Mr. Graham, Minister of Railways is to be congratulated on the recent promotions on the I. C. R. The policy of selecting outside men for important and lucrative positions thereby barring the avenue of promotion from the regular employees of the railway is discouraging to men and demoralizing to the service. Mr. Graham has done well in two instances at least, in making promotion from men bred and trained in the railway service and we would be glad to chronicle more. The elevation of Mr. D. A. Story, district freight manager at Halifax to the head of the general Freight Department at Moncton, in place of Mr. Wallace, retired, is one of the good ones to be commended. Mr. Story is an industrious investigator and possessing a keen analytical mind exhibits a surprising readiness in reducing complex freight problems to clear cut principles. He is taking his place as one of the foremost transportation men in Canada. The second instance is Mr. Weldon, who spent his life in the service, but has recently been in requisition by the Board of Trade, Halifax,—owing to the slowness of promotion on I. C. R. Mr. Weldon is a bright, clever, tactful man, well calculated to represent the railway in its dealings with the business public.—Amherst Telegram (Conservative.)

## SIR WILFRED CAUSES SURPRISE.

MONTREAL, Thursday. — Sir Wilfrid Laurier's speech in the Canadian House of Commons as reported here creates much astonishment in political and diplomatic circles. When a responsible statesman like Sir Wilfrid talks in parliament of the fleets of Japan and England riding the waves together against a common enemy the inevitable question is asked "what is the common enemy and what extraordinary combination of influences could bring Sir Wilfrid's dreaded contingency within the terms of the Japanese treaty?"

### CATTLE MUST STAY OUT

Earl of Carrington Says He Will Not Consent to Removal of Exclusion Law.

LONDON, Wednesday.—The Earl of Carrington, president of the Board of Agriculture, speaking last night at Lincoln, referred to the agitation of the protectionists against supplying American and other imported beef to the army. He strongly dissented from the claims of the protectionists, and declared that the feeding of the army on home bred meat would mean an annual increase of \$750,000 in the army budget. The Earl of Carrington also said that he never would consent to any alteration in the law excluding Canadian cattle from the country. The cattle interests in this country, he declared, were so phenomenally large that it would be a crime to run the risk of again infecting British herds with disease.

### MARRIES HIS NIECE.

ARCOLA, Sask., Man is Charged With Perjury.

ARCOLA, Sask., Wednesday.—A young French Canadian of Wauchope, has been summoned on a charge of perjury, the offense, it is alleged, having been committed in securing a license by means of which he was wedded to his own niece. Both parties of the marriage are 17 years of age. It was reported that the wedding was an affair of honor, the young man having wronged his niece. It is further reported that the Wauchope priest would not marry the pair without a special dispensation from the archbishop. They then went to Manor, where a license was secured and the ceremony performed.

The magistrate sent the young man up for trial which will come off at Arcola in May. Much interest is manifested in the outcome, which will demonstrate if under any circumstances a man may marry his own niece.

### DIES AT 108.

James Stewart of Norton, who had arrived at the venerable age of 108 last August, passed peacefully away on Sunday evening, the 26th of January. On Tuesday his mortal remains were gently laid beside those of his wife in the old Catholic cemetery. The Rev. Father Byrne of the Sacred Heart church conducted the funeral service at the grave and spoke a few appropriate words. Mr. Stewart was born in Tyrone, Ireland, and landed in St. John about seventy years ago. Of nine children but one survives, John, at whose home the father died. At the last federal election Mr. Stewart was said to be the oldest man that voted in Canada. As a testimony of his sincere faith and wonderful vitality only a few months ago he drove eight miles to the Catholic church here to receive communion.—St. John Sun.

## \$100,000,000 COMING TO CANADA.

This Sum Will Be Brought Into The Country For Industrial Purposes.

MONTREAL, Saturday.—An enquiry at the banks and leading financial institutions elicited the information that no less than \$100,000,000 of new money will have found its way into the Dominion by the end of the present year, all being the direct result of the country's rapid yet thoroughly legitimate development. This enormous amount, which will be spent in the several provinces of the Confederation during the year 1908, is, of course, outside the proceeds of grain, lumber, pulp and other commodities of export.

Going into the matter in detail, it is estimated that the Canadian Pacific will quite probably bring in from \$20,000,000 to \$25,000,000 as a result of the new stock issue and the sale of other debentures. Then there is the Grand Trunk Pacific, whose expenditure cannot but be very large during 1908. In fact, the statement was made on Saturday after a very careful calculation that well on to \$20,000,000 would be brought into Canada to the credit of that company during the present year. It is also believed that the Canadian Northern will be a very large spender during the coming summer, and the statement is made that the \$2,500,000 obtained a few weeks ago by Mr. William MacKenzie, either in London or Paris, will be increased to around \$10,000,000 before the completion of the C. N. R.'s enterprises for the present year. It is likewise known that the Government of the Dominion will be a very large borrower at different periods during 1908, and those who are considered to be au courant with the financial situation in Canada declare that, considering the very heavy payments that will have to be made on the account of the Transcontinental Railway, the amount to be obtained abroad by the Finance Minister of the Dominion will not be very much under \$20,000,000. Then it is quite probable that the splendid advancement and healthy development of the towns and cities of Canada, including the requirements of Montreal, Winnipeg, and several growing western communities will necessitate from \$3,000,000 to \$10,000,000 being borrowed for their use. The street railways of the chief Canadian centres will also require a good deal of money, and, in fact, a large amount is already authorized in Montreal and elsewhere, so the calculation is made that from \$2,000,000 to \$3,000,000 will be wanted at least on this particular account.

As for miscellaneous expenditure throughout the Dominion, for which large sums of money have to be borrowed, it is always more difficult to calculate than when it refers to well-known enterprises, but it is generally believed that the sum of \$12,000,000 is a conservative estimate of the amount of money to be brought in on miscellaneous account. The sum total of all this will give the splendid figure of \$100,000,000, and the most satisfactory feature of the calculation is in the fact that almost every dollar of this money will go into development and will bring about an earning power of considerable magnitude from the very start or nearly so.

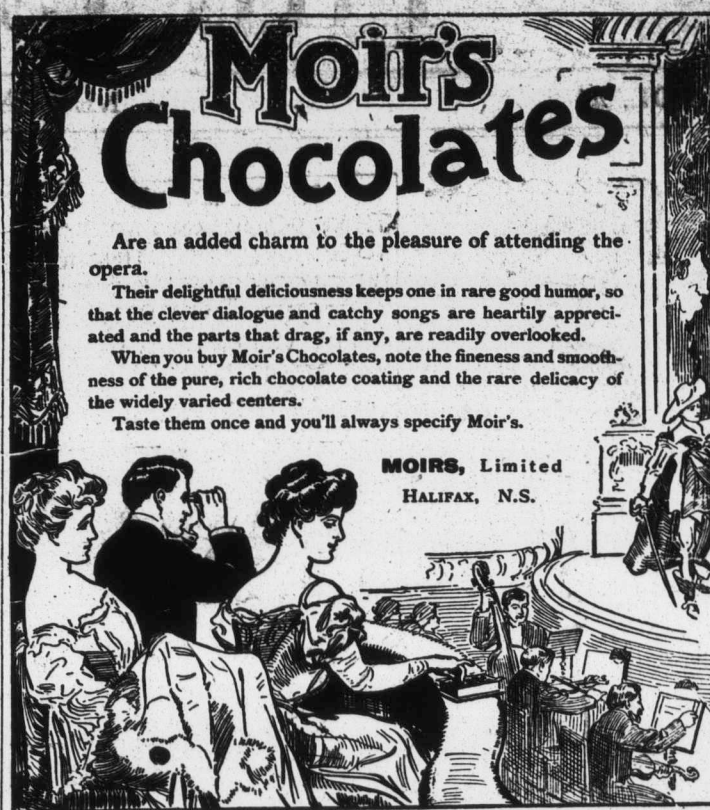

The expenditure at least of all these millions brought in by the different railways means so much producing power added to the already fine capacity of Western Canada, and when the operation adds so materially to the value of everything in sight it will be seen at once how comparatively small the interest account, even on \$100,000,000, will appear at the end of the year's expenditure. Canadian bankers consider, therefore, that there is no reason why the Dominion should be very much influenced by any depression that may lay hold on the United States in the near or distant future. There are absolutely no more free lands in that country, with the result that the immigration to the Republic remains to a very great extent around their large cities, accounting for the army of unemployed now described in the newspapers. In Canada the thousands of newcomers are spread over the west, and whether engaged in the wheat fields of Manitoba, Alberta and Saskatchewan, or in the mines or forests of British Columbia, they become immediate producers, and consequently, contribute to the rapidly growing wealth of the country. In a word, the financial men of the country do not think Canada is going to crumble, even if she does secure a round hundred millions annually to aid her in the development of her unrivalled resources.

## Like to Try Psychine

"Please send me a bottle of Psychine. I have a child afflicted with tuberculosis, and have been advised to try your medicine by our family doctor, as he says he cannot do anything more for my child."

MRS. H. STEPHENS.  
Arthur, Ont., July 14, 1907.  
Psychine cures when doctors fail. Many are sorry they did not try Psychine first. Throat, lung and stomach troubles yield to its curative power. At all druggists, 50c and \$1.00, or Dr. T. A. Slocum, Limited, Toronto.
