 the meriter time yesterday afternoon, instead of sticking to business, and finishing up the work that was before them. He told them he was not in the warden's chair for the purpos, the warden's chair for the purpos, the warden's chair for the purposition of wasting the time and money of the county in sitting when there was no necessity of doing so. There was no business to be taken up, and it look. The county reason for coming back was to draw another day's pay. The reason for the warden's wrathwas the manner in which the council, when in committee of the whole on finance, with Councillor Hills in the chair, went through the work that was before it. There were few accounts, and they could have ensity been settled in about five minutes, but one of the members moved that the committee rise with leave to sit again and all fell in line, and back they went into council without have insting finished the business.
Had the councilors finished yester on record as having done the work of the January meeting within four days, an admirable record.
At the opening of the council, the report of the auditors, Maitland Young & Son, of Toronto, was received and adopted, without comment.

past year's business which they con-cluded to-day. A great expansion in business has taken place at The Right House dur-ing the past year, notwithstanding the fact of the general financial depres-sion felt everywhere. Every effort has been made by The Right House management to place before the public the best obtain-able goods at lowest possible prices, and they have held many special pur-chase sales of wanted goods under-priced throughout the entire year-a feature only made possible by their ability to buy largely and their long and highly appreciated connections abroad and at home with leading manufacturers. These sales have grown greater and greater and business at The Right House has expanded accordingly. Read to-night's Right House adver-tisement. -H. M.
