MA, AFTER FIVE YEARS' SUFFERING.

OF MANY YEARS' DURATION.

MISCELLANEOUS.

ILLUSIONS OF THE BRAIN. ILLUSIONS OF THE BRAIN. Dr. Gooch relates the case of a lady who, in consequence of an alarm of fire, believed that she was the Virgin Mary, and that her head was constantly encirc-led by a brilliant halo. Dr. Uwins gives an account of an intellectual young gen-tleman who, from some morbid associa-tion with the idea of an elephant, was struck by a horrific spasm whenever the word was named, or even written before word was named, or even written before bim; and to such a pitch was this infatua-tion carried, that elephant *paper*, if he were sensible it were such, produced the same effect. A similar case is told of a gentleman who, on narrowly escaping from the earthquake at Lisbon fell into a state of delirium whenever the word earthquake was pronounced in his hear-ing. The Rev. John Mason of Water Strateford, evinced in every-thing sound judgment, except that he belived he was Elins, who foretold the advent of Christ, who was to commence the millennium at Strateford: A lady, twenty-three years of age, afflicted with hysterical madness, used to remain constantly at the windows of her apartment during the summer. When she saw a beautiful cloud in the

in for

sky, she screamed out, "Garverin, Garverin, come and take me !" and repeated the same invitation until the clouds disappeard. She mistook the clouds for balloons sent up by Garverin. The Rev. Simon Brown died with the conviction that his rational soul was annihilated by a special fiat of the Divine will; and a patient in the Friends' "Retreat," at York, thought he had no soul, heart, or lungs. There was a tradesman who thought he was a seven shilling piece, and advertised himself thus :-- " If my wife presents me for payment, don't change me."

Bishop Warburton tells us of a man who thought himself a "goose pie;" and Dr. Ferriday of Manchester, had a patient who thought he had "swallowed the devil." In Paris there lived a man who thought he had, with others, been guillotined, and when Napoleon was emperor their heads were all restored, but in the scramble he got the wrong one! Marcus Donatus tells us of one "Vicentinus, who believed himself too large to pass one of his doorways. To dispel this illusion, it was resolved by his physician that he should be dragged through th aperture by force. This erroneous "dictate was obeyed; but, as he was forc-ed along, Vicentinus screamed out in agony that his limbs were fractured, and the flesh torn from his bones. In this dreadful delusion, with terrific imprecations against his murderers, he died."

EVADING THE LICENSE LIQUOR LAW -Peter Buckley, of Delaware City, Delaware, has been convicted on four counts, and fined one huudred and four dollars, for selling liquor without license. It appears he attempted to evade the law, by selling a cracker or segar for a fip, and asking the purchaser to take a drink. He proved the sale of a cracker in one instance , and a segar in another, and contended that he had the right to give away his fiquor to his customers. But it was proven that the purchasers went to the house to get the liquor, and that the cracker or segar would not have offered sufficient inducement to call them there had the liquor not been anticipated. The court held that it was an attempt to

MA, ATTER PIVE YEARS' SUPPERSING. The following testimonial has been sent to Professor Holloway, by a gestiemen named Middleton, of Scotland Road, Liverpool. Sin, Your File have been the means, under Pro-vidence, of restoring me to sound health, after five years of aeviere affliction. During the whole of that period, I have suffered the most dreadful attacks of Ashima, frequently of several weeks. Attacks of health, a violent cough, and continuel spitting of phage intermixed with blood. This so shock my constitution that I was unfitted for any of the active duties of life. I was attended by some of the most eminant medical men of this town, but they failed to give me the slightest relief. As a flat reamedy, I tried your File, and in about three months tiley affected a perfect cure of the disease, totally eradicated the digestive organs.

Copy of a Letter from Mr. Gamis, Chemist, Peo-eil, to Professor Holloway. Dear Sir, —In this district year Pills command a more extensive sale than any other proprietary medi-cine before the public. As a proof of their efficacy in Liver and Billous complaints, I may mention the fol-lowing case: A lady of this town, with whom I am personally acquainted for years, was a severe sufferer from disease of the Liver and digestive organs; her medical attendant assured her that he could do no-thing to relieve her sufferings, and it was not likely one could service many months. This announce-inent insterally caused great sharm smong her friends and relations, and they induced her to make a trial of your Pills, which so improved her general health that she was induced to continue them antil she received a perfect ure. This is twelve months ago, and she has not experisenced any symptoms of relapse, and often declares that your Pills have been the means of aving her life. I remain, Dear Sir, yours truly, (Signed) J. GAMIS. Nov. 23, 1852. Nov. 23, 1852.

Copy of a Letter from Mr. W. Moon, of the Square, Winchester. To Professor HoLLOWAY, Sir,—I beg to inform yon that for years I was a enfirer from Chronic Rheumaism, and was often laid up for weeks together by its severe and painful attacks. I tried everything that was recommended, and was attended by one of the most emisent sur-geons in this town, but obtained no relief whatever; and fearing that my beath would be entirely broken up, I was induced to go into our County Hospital, where I had the best medical treatment the Institu-tion afforded, all of which proved of no avail, and I came out no better than I went in. I was then ad-vised to try your Pills, and by parsevering with them was perfectly cured, and enabled to resume my occu-pation, and although a considerable period has elaps-ed, I have felt no Tsturn whatever of the complaint. I am, Sir, your obliged Servant, (Signed) W. MOON. Oct. 8th, 1852.

PLEASURE OF CONTENTMENT .--- I have a rich neighbour that is always so busy that he has no leisure to laugh ; the whole business of his life is to get money, and more money, that he may still get more andmore money. He is still drudging on, saying what Solomon says, "The dilligent hand maketh rich." And it is true indeed; but he considers not that it is not in the power of riches to make a man happy? for it was wisely said by a man year of of great observation, "that there be as a many miseries beyond riches as on this side of them." And yet Heaven deliver A as from pinching poverty, and grant that, baying a competency, we may be content and thankful. Let us not repine, or so much as think the gifts of God unequally dealt if we see another abound with riches, when, as God knows, the cares riches, when, as God knows, the cares that are keys that keep those riches, hang often so heavily at the rich man's girdle, that they clog him with weary days and restless nights, even when others alsop quietly. We see but the outside of the rich man's happiness; few consider him to be like the silkworm, that, when she seems to play, is at the same time spinning her own bowels, and consuming herself. And this many rich man do, loading themselves with corrod-...... consuming herself. And the many rich men do, loading themselves with corrod-ing cares to keep what they have already got. TAUE 1 III THE DUC. THERE has long existed a public demand for as effective purgative pill which could be relied on as use and perfectly and in its operation. This has been propared to meet that demand, and an exten-tive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not carry to make the best of all pills - one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectively shown but the pable decision. It has been sufficient to the public decision. It has been unfortunate for the patient hitherty that almost every purgative medicine is actimenious, and irritating to the low-eds. This is not. Many of them produce so much gripping pain and revulsion in the system as to more than contrabedance the good to be, derived from them.
