

HARZARD'S GAZETTE, AUGUST 5.
THE NEVER-HAD-A-HOME.

BY MARY E. COLE, Boston.

Illustrated.

J. Howard Payne, author of "Home Sweet Home," never had a home; he was a wanderer, and died in a foreign land.

On thy bier, Oh! lonely wanderer,
Thine robes wake a strain of home,
And its echo ever lingers,
In the hearts of those who know.Oh! methinks thy soul was mingled
When thou breathed charms of light,
For a home where love was twining,
Beneath the walls its roses bright.There didst thou courageously
Nestle 'mid the forest trees,
O'er it climbs sweet flowers loily,
Rocked by summer's gentle breeze.As the wind's low voice came stealing,
From the cottage's flowery dell,
And across thy harp was swooping,
On its strings a tear-drop fell.And that mournful tone was falling,
For a home that ne'er was thine;
While thy lonely heart was sighing,
"Oh! sweet home, that thou wert mine."When other hearts its scenes are leaving,
Widely on the earth to rove;
"Each successive step is weeping
Links within the coil of love."For affection's chain's extending,
Ever as thou onward roamed;
But no chain of love was bending,
With thy heart from happy home."Home, sweet home," what pathos lingers,
Round that soul-inspiring strain:
Wanderer, ne'er shall earth's dominions,
Wander notes like these again.

VARIETIES.

SINGULAR INVENTION.—A very singular floating apparatus, painted red, with a small scarlet flag flying, was picked up by three Dutch fishermen on the coast of Holland, at Lemmonsdorp, between Rottum and Skermoenkoog, having the following inscription upon it, written in French and German:—"This present ocean float was thrown into the sea on the 14th of May 1854, from the mail steamer Countess of Lonsdale, Captain Little, off the heights of Borkum, in lat. 53° 50' N., long. 6° 15' E. of Greenwich, to determine whether or no, and whereabouts it would be picked up. Persons into whose hands it may fall are requested to transmit it with the least possible delay to the English Consul at the nearest port. The Consul will undertake to forward it to the address of the inventor in London." It was picked up, as above, on the 3d of June, having thus been three weeks at the mercy of the waves. It was perfectly uninjured, and, on searching the hold, it was found to contain a half hundred weight of ballast, and a great number of English newspapers, which were as dry as when first put in. This is a very satisfactory test of the merit and great utility of the invention, which is designed to save treasures, ship's papers, mail bags, &c. and life from shipwreck. The float remains at Groningen, in charge of the English Consul at that port, which is now in London.

Dr. ARNOLD wrote poems on principle, but he never published them. Tom Moore tells of a gentleman who, when he was short of money, always threatened his family with the publication of his poems. The immediate result was, as much cash as he wanted.

An Asiatic chief, being asked his opinion as to wine, remarked that he thought it was a juice extracted from a woman's tongue and a lion's heart, for after he had drunk enough of it, he could talk for ever and fight the devil.

The following pertinent question, says an exchange, was recently addressed to a lawyer of our acquaintance at a fair in a neighboring village: "If distance lend enchantment to the view, and view refuses to return it, can distance recover any legal progress?"

How to GET THE REAL FLAVOR of COFFEE.—In Knighton's "Forest Life in Ceylon," we find the following hints on the preparation of Coffee, derived from long experience: "The subtle aroma which resides in the essential oil of the coffee berry, is gradually dissipated after roasting, and of course still more after being ground. In order to enjoy the full flavor it is necessary, the berry should be taken from the roasting pan to the mill, and those to the coffee-pot; and again, after having been made, should be mixed when almost at a boiling heat, with the hot milk. It is most be very bad coffee, indeed, which, if these precautions be taken, will not afford an agreeable and exhilarating drink.

Why does an aching tooth impose silence on the sufferer? Because it makes him hold his jaw.

The man who scraped acquaintance got kicked for it in return.

Next Morning Headaches are the shooting pains and penalties for infringing the laws of nature.

A NATURAL INQUIRER.—A correspondent wishes to know whether it was for the purpose of thrashing Old Nick more soundly that each of our generals took a staff with him.

A COMBINATION FOR COLD.—What instrument of war does the earth resemble?—A revolver.

The Russian nobles, by all accounts, are tremendous swells, while the people are merely scurfs.

A "LIGHT" MEAL.—A Russian soldier dining on a tallow candle.

A FAIR COLOURED YOUNG LADY.—One who has just come from the rogue pot.

NOTAMANDORS
Notice to Travellers.

IT has become an established fact that accidents will happen notwithstanding the care and attention which may be paid to the safety and convenience of travellers. Explosives will not please, bridges will be left open, and the cars will be closed, causing difficulties for the sailor and difficulties for carmen, especially to " " hours, " " and " " take lead," so these calamities will occur, which result in severe contusions, broken limbs, sprains, fracture, &c. &c. in a manner to render a person incapable of movement.

The Mexican Mustang Limiment. Upon such occasions, is invaluable! The wonderful effects of its soothing and healing properties have induced many, who have tried it, to always carry a bottle of it with them, when they are travelling.

Frequent tests have proved it to be efficacious in curing Rheumatism, Piles, Scrofulous disease, Cancer, Ulcers, Old Sores, Neuralgia, Toothache, Earache, &c. Also Spasms, Ring-dones, Scratches, Cracked Heels, Chafes, Galls, &c. on Horses and other animals. It is external in its application, and we GUARANTEE it to cure FRAKTUREN in every case for which it is used.

Many Physicians use it because they can depend upon it.

Farmers and Livestock Keepers.

Say they will have it, and will be satisfied without it, after giving it a fair trial. Therefore we say to travellers upon the roads and by-ways we are offering this Limiment: It has been thoroughly introduced throughout the United States, British Possessions, and West Indies, that it is almost impossible to stop off the cars at any Station without holding the gay banner of the Mustangs."

The prices are as follows:—25 cents, 50 cents, and \$1 per bottle; the 50 cent being three times as large as the 25 cent size, and the \$1 one nearly three times as large as the 50 cent one, so that the larger bottles will go further.

The Sick cured on the R. R. R. Theory.

THREE GREAT REMEDIES.

The attention of the public is particularly directed to the three quick and powerful remedies discovered by RADWAY & CO. So quick, so powerful, and so safe, as no physician can possibly be in the habit of taking, upon the strength of his own knowledge, that he can easily dispense with the services of a physician.

One of RADWAY'S REGULATORS is superior,

in point of medical strength and efficacy, to six of the most popular and best approved Cathartic Pills.

All Purgative or Cathartic Pills are made from the crude materials of their composition;

the active principles are combined together, and the pills are made up of this composition, so that out of six

and seven parts, there is no swelling, all really medicinal virtues of the same would not make more than two pills. Every chemist well knows

that out of the crude materials of drugs, roots, herbs, bark, plants, &c., there is only a yield of one tenth of medical virtue.

We seriously doubt that most deaths are caused by overeating, or overdrinking, or overmedicines than from disease. No mere medicine should be given to a patient than what is necessary to produce the desired effect, and to overload the system with useless drags is not only weakening the active of virtue, but is inflicting serious labour upon the already shattered constitution.

They invigorate, they renovate, they regulate, they relieve the suffering, pain-stricken invalid from the most torturing pains in a few minutes.

They restore the sick and diseased body to health and longevity.

To the low-spirited and nervous they impart joyfulness, and a happy flow of spirits.

To the aged and infirm, whose constitutions are worn out by decrepitude and limbs palsied and enfeebled, they impart the elasticity and buoyancy of manhood in the worst cases in less than twenty-four hours.
