## The Premier's Lot Not a Happy One.

The Premier's lot is not a happy one. The situations facing him are by no means enviable. In the first place he has the consciousness that he has lost the confidence of the majority of the electors of Newfoundland, and that he is the head of a Government which has been retained in power by the anomalies of the distribution of voters in constituencies which have enabled 51,000 votes to elect 21 Government men, while 61,000 votes have elected not a fifth more Opposition members, but actually nearly 29 per cent. less. Moreover, the tactics resorted to by many of those interested in the election of these Government men were of a most reprehensible character. Appeals to passion and prejudice were common, cries of a sectarian character were used freely, and the result has been that the Government of Sir Edward Morris is to-day supported by 21 men in the House of Assembly elected by a large minority of voters.

It is a most anomalous and extraordinary state of affairs for a Government to be in such a position and naturally enough the position of the Government is greatly weakened by the adverse vote of the electorate. That the tide is running strongly against the Government is clear from the fact that the Morris administration is up against an adverse majority of over ten thousand votes. The tide will continue to run adversely and will gain in strength from day to day, in consequence of the base conduct of many of the canvassers. These matters naturally enough have created consternation in the Morris Party, particularly as the Government has in its ranks two ministers defeated at the polls. The question is what is Morris going to do about it? Will he show the white feather and try to put either or both of them in the Legislative Council? That body has already been swollen in numbers unnecessarily, as we pointed out at the time the last three members were added. It would be a further outrage to increase the numbers. The question therefore arises, if he contemplates such a course, which would not only show weakness but would be taking a step contrary to the democratic feature of the practice of the last quarter of a century, can he do it without increasing the already swollen numbers of that body? In other words, can he induce one or two members of the

Legislative Council to retire? If he follows either course and puts the present Minister of Justice in the Legislative Council, he is flouting the opinion of a large number of the electors who have shown their lack of confidence in a Minister who was the subject of Memorials to the late Governor asking for his dismissal, and who has been put at the bottom of the poll in a great minority, although he was elected by them by an extraordinary large majority in 1909. Will Sir Edward Morris dare to do this? From this point of view also it is clear that Sir Edward Morris is hard up against it. Again, Sir Edward Morris has undertaken to carry the Fortunate Bay railway through the Burin peninsula and to make Grand Bank the terminus. He cannot do it without floating another loan. The underwriters of Colonial loans have called a stop on all Colonial loans, even those at 4 per cent. and 4½ per cent., because the investing public are not taking them up, and the underwriters have decided not to embarrass themselves with more loans for the present. How then can Sir Edward Morris float another loan, with a falling revenue, a deficit for 1913 in sight, and increases in the Civil list made by the Executive to regularise by vote of the Legislature?

It is evident from the recital of these conditions that, like the policeman's lot in Sullivan's opera, the lot of the Premier is not a happy one.

## Mr. King Does Well.

CATALINA, Nov. 4, 1913.  
Messrs. Franklin & Company,  
St. John's, Nfld.

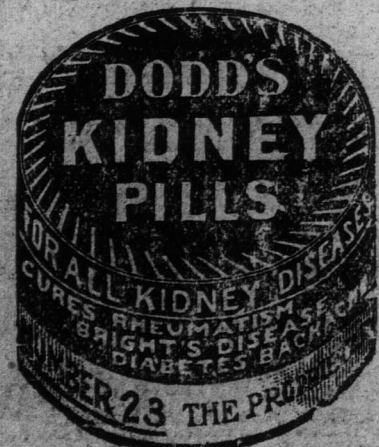

Dear Sirs,—Having used a 6 H. P. FRASER engine with kerosene adapter the past season, I feel compelled to write and let you know something of my feelings towards this engine. It has given me perfect satisfaction, never having one minute's trouble from the time I installed it in my boat. I have only used two gallons of gasoline for the season and could have done without any as the engine will start as well on kerosene as on gasoline. I heartily recommend the FRASER engine to all fishermen who are thinking of investing in a motor as the best engine on the market, it is simple to manipulate and strong enough to tow a boat load of fish and keep up with other engines without anything in tow, as I have proved this the past season. I secured 300 quintals of fish this summer, my cost for running was under \$20 for kerosene, without the engine 70 to 100 quintals would probably have been my voyage.

You have my permission to use this letter should you care to do so.  
Yours truly,  
THOMAS KING.

## Presentation

To Father O'Callaghan.

As we mentioned yesterday many of the parishioners and friends of Father O'Callaghan met at the railway station yesterday morning to see him and bid him God speed in his new field of spiritual labour as Parish Priest of St. Bride's. Among his friends were many of those who appreciated his labours in the city in the cause of Temperance. We learn that the appreciation of his labours was shown in a most tangible way and that he was the recipient of several purses of gold from his parishioners and that one of them was a purse of \$250.00 from the Holy Name Society of his Cathedral Parish.

## Police Court.

Two drunks were discharged.  
A miner of Bell Island, drunk and disorderly, had to sign bonds.  
A laborer of Water Street West, drunk and disorderly in his own house, was discharged.

A man summoned for a breach of section 16 of the Nuisance Act was instructed to settle the matter complained of.

Several civil cases were disposed of.

WILLIAM S. GILBERT born 1836.

Dramatist and lyric writer so widely known in connection with the operas

"The Mikado," "Patience," "H.M.S. Pinafore," etc., which were written

by him and set to music by Sir Arthur Sullivan. His fearless satire,

inexhaustible wit, courageous candour, and whimsical rhymes captivated the whole English-speaking world.

Let your wit rather serve you for a

lucifer to defend yourself, by a hand-

some reply, than the sword to wound

others, though with never so face-

tious a reproach, remembering that a

word cuts deeper than a sharper

weapon, and the wound it makes is

longer curing.

# THE IDEAL Bed Spring!

Is known everywhere as the most luxurious article to sleep on ever produced. It has stood the test for more than 20 years and is more popular to-day than ever. The Ideal No. 10 is constructed of 120 double Coil Spiral Springs, made of the best quality of wire. The Springs are knotted at both ends and interlocked lengthwise, forming an unbroken surface for the mattress and occupant.

Each Spring is firmly attached to a flexible steel frame in the centre, which provides lateral support and eliminates all tendency to lateral motion, and at the same time compels perpendicular action of the Spring. There are eight angle iron bars crossing underneath the Spring, which are attached on each side to hangers that rest on the side rails of an iron bedstead. The outside row of Spiral Springs are directly over the side rail of the bedstead, forming a spring edge to the extreme outside edge of the bed. With this method of construction 9 inch Springs can be used, thereby increasing the flexibility and comfort of the bed and adding greatly to its durability and making it the Greatest Spring made.

A large shipment just in to select from. Prices from \$6.50 up. Allow us to demonstrate its wonderful qualities.

## NICKEL THEATRE!

"THE CROOKED PATH," in 2 Reels.

The title of this picture practically explains itself. It is a beautifully told story, the leading characters being portrayed and enacted by such well known "silent" players as Miss Ormai Hawley, and Messrs. Halliday and August. See the mental struggle to keep on the straight path. See the agents being used as messengers. See the escape from prison. 2 REELS.

THE MANICURIST AND THE MUTT—A particularly humorous story, showing how a bright young girl makes "wise men" foolish.

JOHNIE GOES DUCK SHOOTING—Does he? He does! But you must see him. It is too funny to explain.

THE UNDERSTUDY—How a young country girl being anxious to go upon the stage. Eventually having an opportunity to show her ability through the result of an accident to the Leading Lady, and how she "made good." A story to the life, splendidly acted.

Balance of entertainment consists of Peculiar Songs by Arthur Priestman Cameron. Ballads by Al. D. Fleming, and Incidental Music by Professor McCarthy.

## Too Late.

A certain legal luminary, though a good administrator of the law in other respects, was noted for the way he got mixed in his charges to the jury. On one occasion a case was tried before him, the points of which may be briefly stated thus:—

Smith brought a suit against Jones upon a promissory note given for a horse. Jones defence was failure of consideration, he averring that at the time of the purchase the horse had the glands, of which he died, and that Smith knew it. Smith replied that the horse did not have the glands, but the distemper, and that Jones knew it when he bought him.

The judge thus charged the jury:—

"Gentlemen of the Jury: Pay atten-

tion to the charge of the Court. You have already made one mistrial of this case because you did not pay attention and I do not want you to do it again. I intend to make it so clear to you this time that you cannot possibly make any mistake. This suit is upon a note given for a promissory horse. I hope you understand that. Now, if you find that at the time of the sale Smith had the glands and Jones had the distemper and Smith knew it, then Smith cannot possibly recover. But, gentlemen, I will state it a third time, so that you cannot possibly make a mistake. If at the time of the sale Smith had the glands, and Jones the distemper, and the horse knew it, then neither Smith, Jones, nor the horse can recover."

The jury disagreed.
