ITALIAN OFFICIAL.

ROME, Nov. 15.
The Italian official report is as follows: The enemy has intensified his action on the mountainous front from the Asiago zone to the Piave Valley. On Tuesday night he attacked Monte Slemol, Meletta, Davanti sector, and was resisted effectively. The action was continued successfully by us yesterday with the object of driving back with local counter attacks enemy parties which, having reached some advanced elements of our positions, attempted to remain there. Yesterday morning the enemy made an attack more to the north along the front of Meletta, Davanti, Monto Fiove and Mont Castigoberto, and was repulsed. He repeated his attempt during the night with larger forces and greater violence, but was again repulsed. Columns, which were advancing in fan-like formation, towards the front between Friboni and the confluence of the Brenta and Ciamon Rivers, were caught under the fire of our artillery and stopped. Large forces engaged our advanced lines between the Clesmon and Plavo Rivers. At Monte Roncone the enemy was repulsed. At Monte Tomotico our advanced posts withdrew, after offering effective resistance, to positions previously decided upon. In the direction of Quoro Pass the enemy attack was paralyzed on the plain. The struggle continues.

BRITISH-FRENCH TROOPS ON THE WAY TO ITALY.

WASHINGTON, Nov. 15.
General Payelle will command the French armies now being sent to Italy, according to an announcement made here to-day. General Foch, Chief of the French Staff, is only temporarily in command of the French forces. From Nice comes the report that train loads of French and British troops are rolling constantly through that place on their way from France into Italy, and are greeted with great popular enthusiasm.

BRITISH CAPTURES.

LONDON, Nov. 15.
In the Commons to-day during a speech, Henry William Forster, Financial Secretary of War, said that since July 1, 1916, the British had captured from the Turks 30,197 prisoners and 186 guns, and from the Germans on the west front 101,534 prisoners and 519 guns. The ap-

proximate square mileage of ground conquered or reconquered by the British in the same time, said Forster, was 128,000. The total number of prisoners captured on all fronts since the war began was 166,000, while the captured guns numbered 890.

PETROGRAD BURNING.

LONDON, Nov. 15.
According to press reports from Stockholm, travellers who arrived yesterday evening in Haparanda, Sweden, from Finland say rumors are current there that Petrograd is in flames.

NEARING PETROGRAD.

LONDON, Nov. 15.
According to a Petrograd despatch to the Exchange Telegraph Co. dated Wednesday, Nov. 14, Kerensky detachments are concentrated close to Petrograd.

POLLEN'S STATEMENT.

NEW YORK, Nov. 15.
Arthur Pollen, the famous British war expert, has made the following statement to the Associated Press on the submarine war and various political crises in Europe: "Anything unsatisfactory in the military and political situation in Europe is balanced by the extraordinary news that the German submarine campaign has broken down altogether. The submarine is defeated. This is the most momentous event since the United States declared war. It means we can all stay in and that America can really come in. Six months ago shipping was being destroyed, according to some authorities, at the rate of nine millions of tons a year. Had this loss continued, the Germans had a right to expect, not indeed a military victory, but a peace that would mean something less than defeat. This was Germany's only hope, and it was the Allies' only anxiety. In the first fortnight of November the rate of loss of British tonnage in ships was greater than 1,600 each, has fallen to about one million tons a year. The present shipbuilding capacity of Britain alone can make this loss good in less than eight months. At the rate America, Britain and Japan are striving to attain, we should replace this in less than eight weeks. That rate of loss for a week is actually less than the annual toll of wrecks in peace time. It is an amazing development. It is not to be expected that the losses can remain as low as this. They must fluctuate up and down, but they should never cause us serious uneasiness. Compared with this, Germany's recent successes against Russia and Italy, and the jolt these have given the Allied morale, which we see reflected in the discussions on Lloyd George's speech, are really trivial incidents; whether the Italians hold the Piave, the Brenta or the Adige, whether it takes Kerensky and the forces that are

making for ordered government in Russia, a week, two weeks or a month to pull together that distracted country, whether the Commons on Monday forgives the British Premier's blazing brutality or resents it, are all compared with the change in the situation at sea, quite unimportant."

HAIG'S REPORT.

LONDON, Nov. 15.
Field Marshal Haig's report from Flanders to-day reads: Yesterday afternoon hostile reconnoitering parties endeavored to approach our lines in the neighbourhood of Polderhoek Wood, north of the Menin Road, but was driven off with the loss of prisoners and killed. On the night of Nov. 13-14 Belgian troops entered German lines north of Dixmude and blew up a number of the enemy's concrete shelters. A hostile raid attempted last night north of Bixchoote was repulsed by artillery and machine gun fire.

PRISONERS TAKEN.

PARIS, Nov. 15.
French reconnoitering parties in the region of Albert took prisoners, says to-day's official statement. The night was calm except in the region of the Cantieres, Verdun front, where a heavy bombardment is being carried on. On Tuesday four German airplanes were brought down by our pilots and four others fell disabled within the enemy lines. Our aviators made a number of effectual raids dropping many projectiles on various enemy depots and cantonments in the region of Mulhausen. German aviators carried out a violent bombardment on Tuesday night in the region of Calais. It is reported there were a number of victims among the civilian population.

UNCONCERNED ABOUT AMERICA.

COPENHAGEN, Nov. 15.
Capt. Baron Von Richtefen, Germany's leading aviator, expressed himself as unconcerned over the reported preparations to place twenty thousand American aviators on the Western front; he believes it will be impossible to get together that many trained pilots. Lieut. General Von Ardenne, of the Berliner Tagblatt, who reports a conversation with Von Richtefen at the Flanders front, adds that the German air service, which evidently has been forewarned by the newspaper discussion of American plans, is steadily increasing the number of aviators and machines.

JAPAN.

NEW YORK, Nov. 15.
An answer to the charges that Japan is lukewarm to the Allied cause because its armies are not fighting on European battlefields, which he said appear occasionally in the American press, was made before the Rotary Club here to-night by Dr. T. Lyonaga,

"Uniformity is a big word, Bud."

LAKE OF THE WOODS MILLING COMPANY, LIMITED, MONTREAL.

Director of the East and West News Bureau. He declared Japan is understood in Europe, and is carrying out fully its part as originally agreed upon, and that it had not been seen fit by the Allies to suggest any change in the plan.

FRENCH OFFICIAL.

PARIS, Nov. 15.
The War Office announcement to-night reads: There is nothing to report except rather violent artillery action north of Brave-on-Laonnois and on the right bank of the Meuse, Eastern Theatre. There was moderate artillery activity along the whole front. Patrol encounters occurred in the region of the lakes.

NEW GOVERNMENT FOR FRANCE.

PARIS, Nov. 15.
Geo. Clemenceau, one of France's most eminent public men, and former Premier, will form a new French

Government. It was Clemenceau, for many years one of the most forceful figures in French public life, who instituted the campaign against German propaganda in France, and it was largely on that issue that the Pauley Cabinet fell. The "Figer" as he is nicknamed, is known as an exponent of the big stick, and it has been prophesied that if he should be appointed Premier he would stamp out socialism, radically and rapidly. The chief obstacle to his employment was felt to be the implacable hostility of the united socialists who have never forgiven his drastic methods when he was Premier. Clemenceau is 76 years old. He is sometimes referred to as more of a destructive than constructive statesman and is reputed to have upset nearly a score of cabinets. He has held no ministerial posts in recent years, devoting himself largely to his newspaper, "L'Homme En-

chane," which has been suspended several times because of his biting criticism of the Government.

NORTHCLEFFE DECLINES.

LONDON, Nov. 15.
Lord Northcliffe has declined the offer of the Administration of the new Air Ministry made to him by the Premier. In a long letter to the Premier, Lord Northcliffe explains that his refusal of the portfolio is due to dissatisfaction with some of the methods of Lloyd George's administration, especially with regard to relations with the United States. Lord Northcliffe says his desire, therefore, is to maintain an independent attitude.

THE RUSSIAN PROBLEM.

COPENHAGEN, Nov. 15.
A Helsingfors despatch to the Politiken says, the military committee last night received the following by

telephone: "When the revolutionary troops reconquered Gatchina, Kerensky with three thousand to five thousand men retired to the south. An order was given to cut off this retreat, and part of the northern army was despatched to attack him in the rear. The people seem to have lost confidence in Lenine and Trotsky, and it is intended to form a social revolutionary coalition government with representatives of all parties except the well-to-do. The first task of the new government will be to make peace with the enemy."
