[G. N. W. Dispatch.]

Ottawa, Nov. 22.-A meeting of the members of the Ottawa Rowing Club was held last evening for the purpose of discussing arrangements for the British trip of the champion eightpared crew, which is to compete next summer for the Grand Challenge Cup. No dates were chosen, but it is like y that the crew will sail for England about May 20, thus having about four weeks' practice in the old country. Coach Ten Eyck recommended this, maintaining that it will take at least that space of time to get the oarsmen acclimatized. The crew will commence indoor exercises about Jan. 1. They will probably work out at the Ot-tawa Amateur Athletic Club, using the

The surprise of the annual meeting last week was the failure of the American Association to even put in a request for the reclassification which would raise the American Association and the Eastern League into a class by themselves, to be rated as "AA." This had been given out as one of the points which would surely bring up a heated fight during the course of the gathering. The threatened move did not materialize, however, for the simple reason that the American Associa-tion magnates regarded the request as hopeless and preferred to wait.

Wait Till Next Year. east is explained by the fact that next baskethall will be nut up fall the national agreement under which the minor league clubs operate expires. It was intimated vesterday by the American Association head that the respective club owners would consider a long time in 1911 before entering another compact under the present arrangement.

No definite line of attack has been mapped out yet, but indications point toward but one thing—a combination of the Eastern League and the American Asso-ciation in a demand for a raise in the classification lists.
