WEDNESDAY, JULY 3, 1912.

THE POWER PHASE.

The Automobile tire industry, which Berlin can obtain if its property owners so will, would become a large user of Niagara Power. It has been mentioned that it would use electricity as a motive power from the outset and take 1000 H. P. from the city's plant.
As in the purchase of every other commodity, the more bought the lower the price.
Berlin is now purchasing approximately 1000 H. P. of current. It has customers in sight whose joint takings would bring the quantity taken up to two thousand horse-power. It is known that when Berlin purchases 2000 H. P. from the Hydro Electric Commission, the price of power here will be reduced by \$3 per H. P.
This reduction would effect a saving of \$3000 a year on the present cost of power and would benefit every family in Berlin, since the city uses a large quantity for street lighting, for house, shop and store lighting and for power.
It is clear that if Berlin can double the quantity of power it now purchases from the Hydro Electric Commission that the saving would be a large one. A saving of \$3000 a year would more than repay the annual debt and interest costs named in the Tire industry by-law, which are but \$2006. per year.

BY THE WAY.

Sir James Whitney would be able to press the cityhood celebration button nicely.

A REMARKABLE MAN.

Toronto News.—A man of extraordinary capacity was Mr. Samuel Nordheimer. He had a genius for business, a keen interest in the fine arts, and social talents of high order. Born in Germany, he came to Canada when he was still a boy, and studied to achieve success. He and his brother were known in musical circles both here and in Montreal half a century ago. Eminent in the world, even as he approached his nineteenth year, with tolerant cynicism.

Mr. Nordheimer, though loyal to the country of his adoption, never forgot his German origin. He had a hand in the formation of all the German societies existing in this country. He loved the Fatherland and the language of Schiller with a passion comparable only to that of the Celt. He was a great artist. He preferred the great business man. For some time he was German Consul in Toronto and he wore—not without pride—the Kaiser's decorations.

As a companion, Mr. Nordheimer was admirable. He was really a talented talker, witty, clever in repartee and a fountain of reminiscence. He will be missed in the drawing room in the club, in the Deutschverein, and in the business world.

THE POWER QUESTION.

Guelph Herald.—There is ample food for thought arising from the statement that Mackenzie and Mann have absorbed less than fourteen electrical generating, transmission and consumption companies in Western Ontario within a short time. When this is taken into consideration those who are now in the Hydro power zone may well be startled at this publicity. It is known that the commission enterprise was a successful conclusion at all, for had the competition been beforehand any row of the shackles would have been a much more difficult.

Hydro-Electric policy of the government, this big controls the output of power and of the power plant at Western Ontario so much of it is sent to the Stratford plant. It is confined their circuit as a whole, London and St. Catharines have been to be

The Talkative Wife

By RUTH CAMERON

She is growing daily more common, I think. Indeed, I somehow can't imagine her existing at all in grandmother's and "Aunt Tabitha's" day, and must believe her entirely a growth of the last two generations.
Perhaps I'm wrong, but that is certainly my feelings about her. And she—as you are probably quite ready to know by this time—is the young married woman who talks about her ultra-private matrimonial affairs; who tells her sister, or her best friend, or her cousin or even her next door neighbor, things about her most intimate family life which should have been kept absolutely sacred.
That a young married woman should confide everything to her mother has always seemed doubtful tactics to me.
That she should open her whole heart to any less trustworthy and intimate than this friend who is bound to her by a tie, second only to that which makes "two one flesh," seems to me the very height of folly. And yet how many women nowadays do make just this mistake. And not only coarse and uneducated women, either.
I recall especially now the case of a young professor's wife at college who made an intimate friend of one of the students and confided many things to her that one would have thought she would at least have known enough to keep for married ears. The intimate friend "leaked" and soon half the college was in possession of the young professor's wife's silly confidences.

She had been a woman whom we had been inclined to admire very much at first, but I assure you that after this incident she suffered a decided loss of prestige.

While I am on this subject there is a very similar folly which I should like to say a word against, and that is the decidedly indelicate way in which two intimate married couples will sometimes talk and act in each other's presence.

For four young married folks to find pleasure in each other's company is a very good thing. It often comfortably relieves the too continuous strain of tete-a-teteing.

But for any couple to become so intimate with another as to throw down the barriers and talk and act as they would if alone is decidedly bad.

It does not blot out the wrong that both husband and wife are party to it, nor make their conduct any less immodest and indelicate. It is natural that the young married woman, carried away as she is with her new viewpoint on life, should be in an expansive and communicative mood.

But if she wants to be sure of having nothing to regret in after life, let her keep constantly in mind the saying of the old Greek philosopher—"I have often regretted my speech; never my silence."

served by a big Mackenzie and Mann loop such as the Hydro-Electric. These and other places would have had to sweat under limited local supply, generated by steam, as Guelph did for years, with no chance for expansion of the electrical demand. Now any demand can be satisfied, at rates too, that Mackenzie & Mann would not have given us, were they alone in the field. To-day, however, they have to take note of Hydro-Electric rates and to pursue a broad policy regulated by the existence of the public enterprise born of Hon. Adam Beck's public spirit.

Hydro electricity came in the nick of time for the convenience and profit of the people of Ontario, and if it once in a great while fails to work because of a break in the service Hydro electricity is in that respect no worse off than its competitor. It is superior, in fact, as demonstrated Saturday when the existence of a double line proved a great convenience in the supply of power for Guelph.

C. R. Woodhouse and A. S. King reported to the Hamilton police that their launch ran into a rowboat, in which were a man and woman, who were upset and could not afterwards be found.

GROSS GARAGE Advertising Talks

Without doubt we maintain one of the best equipped Garage between Toronto and Winnipeg. It's complete in the sense that when in trouble the motorist can get help and accessories. In a greater sense this Garage is a Public Utility. We store cars: we look after them; repoint and revarnish them; supply spare parts: keep gasoline; tires, tubes, and through our night and day service we not only guarantee the motorist immediate service, but we are building up a reputation for fair charged and courteous treatment of our patrons. Come, look us over.

was used, when sunshine blessed, for the presents.

The ceremony was performed by Mr. Weber, the Baptist minister, after which the guests sat down to the sumptuous wedding banquet. Here, too, all things had been provided for the comfort of the guests, and hospitality and good cheer abounded around the board. The bride's grand mothers, aged 80 and 83 years, were both present for the occasion.

Gifts beautiful and costly, indicative of the high esteem and regard with which the young couple are held, were exhibited in the tent.
Mr. Pequegnat, who is a popular member of the Mutual Life of Canada Staff, was presented by the president, officers, and fellow members of the staff with a beautiful bullet, in design, with a side table to match. Following the presentation, congratulatory words were spoken by those present of a congratulatory nature, all expressive of warm regard, and esteem.

A unique honeymoon has been planned, and will be spent on the banks of the Grand River under a tent. The young couple will spend several months camping, after which they will take up their residence on Louisa street, where the groom is erecting a fine residence.

JUNE BUILDING TOTAL \$89,925

19 Permits Issued in June --W. G. & R. Building To Cost \$50,000

Building Inspector Cook submitted his report to the Council last evening on the number of permits issued and the amount of building for the month of June. It showed that the building permits numbered 19, amounting to the magnificent sum of \$85,925. This is largely in excess of the amount of building for the previous month and the corresponding month of last year.

The building permits are for residences with the exception of one which was issued to the W. G. & R. for the erection of its new factory building on Benton street. The factory will be erected at a cost of \$50,000. It will be a four story building, 200 feet by 61.

Euler Won In Second Round This Morning

(Special to the News Record)
Guelph, July 3.—In this morning's bowling for the Schofield Trophy, Mr. W. D. Euler's rink defeated Goodchild's (Guelph) rink in the second round by a 19 to 17 score. The rink went an extra end. Euler's rink now meets E. Scamman of Waterloo in the third round. The winners will enter the semi-finals.
Costello's rink in this afternoon playing Buckingham of Guelph and Hagen is playing Ramsay of Grand Valley, in the second round.
The Berlin rink's are doing well in the Royal City tourney. Euler's rink is composed of Messrs. Lockhart, Boehmer and Cleghorn. The Hagen rink consists of Ald. Hagen, Messrs. Burns Merrett and Cochran, and with Costello are Ed. Wettlaufer, W. H. Williams and S. Schreier.

WILSON IS NOMINATED

He Secures Large Vote on the 46th Ballot.

After a Long Struggle Between Missouri and New Jersey Governor the Latter Is Given the Place of Standard-Bearer For the Democrats by an All But Unanimous Poll—Clark Assails Bryan.

Convention Hall, Baltimore, July 3.—The final break to Governor Woodrow Wilson as the nominee for President of the United States came in the Democratic national convention yesterday afternoon at the beginning of the 46th ballot.

Wilson received 632 votes on the 46th, with only 735 necessary to nominate. Senator Bankhead of Alabama quickly withdrew Underwood, Senator Stone of Missouri, in behalf of Champ Clark, released all Clark delegates, at the same time saying Missouri would vote for him to the end. Mayor Fitzgerald of Boston withdrew Governor Foss from consideration.

By this time it was apparent Wilson would win on the 46th ballot, and the convention was in an uproar, declaring the call for a long while.

Over in the Nebraska delegation, Bryan sat with a broad grin on his face. Delegates surrounded him, grasped his hand, and patted him on the back. Charles F. Murphy was on his feet in the aisle in front of his delegation. Several men spoke to him, but he contented himself with giving a characteristic nod and grunt. Senator Reed of Missouri interposed an objection to New York's request for unanimous consent to make Wilson's nomination by acclamation. The roll call went on.

As Charles F. Murphy arose to vote the New York delegates, a calm spread over the entire convention, so that the result might have been heard in the furthest corner, and Murphy whispered. When the New York votes for Woodrow Wilson, there was a yell that fairly rattled the rafters.

The 46th ballot, stood: Clark 84, Wilson 290, Hatmon 12, absent 2.

THURSDAY'S Special Sales Big Sale of Ladies' Dresses, Waists and Skirts

50 LADIES WHITE DRESSES

Will go on sale here to-morrow, Thursday, at special sale prices. These consist of white embroidered dresses, white voile and marquisette dresses as follows:—

SAFE AT REGINA.

Since the arrival of the news of the terrible disaster which has overtaken the city of Regina, Sask., entailing a great loss of life and injuries, Berlin people have been anxious about friends and relatives out there. Among the Berlin people in Regina is Mr. Charles Hoelscher who left for that city recently. His brother, Mr. J. M. Hoelscher, of Courtland avenue, has received a telegram from him, stating that he is safe.
