Boston, Mass. The Science of Life, or Self-preservation, is a treasure more valuable than gold. Read it now, every WEAK and NERVOUS man, and learn to be STRONG.—Medical Review. (Copyrighted.)

It may have been owing to the book or in con-sequence of the fire, but the plain fact is that I went to sleep--for how long I do not know, but I was awakened by a pretty smart tug at my hair, and raised my scorched face from the fen-der-stool to meet Nat's black eyes, twinkling with mischief

'Oh, you lazy rascal!' she cried. 'Eh?' I returned vaguely, my faculties a little con used still, either by my nap or its rather vio-lent termination. 'Was I isleep?'

'Oh, dear, no- only thinking with your eyes

worse.' 'And I don't feel so,' she replied, sinking down into the chair and stretching out her hands to the blaze. 'I haven't even the least bit of a headache, and yet n adame would insist upon my keeping upstairs. Wasn't it ridiculous. 'What would have happened if you had been really hurt. I wonder?' 'Goodness knows!' she exclaimed. laughing. 'There has been such a fuss! There were ma-dame and Mrs. Batteroin and Virtue and Valia holding a kind of consultation round me, each ho

holding a kind of consultation round me, each suggesting a different remedy to bring me round when all in the world that I wanted was my breakfast. They would let me have only a little tea and toast, and I'm as hungry as ever I can be,' she concluded, dismalty. I shall have to make a raid on the pantry presently.' 'You'll be caught if you do,' I said, laughing. 'The mother and mademoiselle betook them-selves kitchenward directly after breakfort. The selves kitchenward dire
