This association at a general meeting called to consider the matter has recorded its approval of legislation to establish a court specially qualified to guard the interests of the public, against railway freight discriminations in favor of privileged places and persons. While the proprietors of a railway claimed to be justified in absorbing rival roads and in making special rates of freight for specially favored places and persons when they choose to do so, we consider that the commercial and agricultural interests of the country should not be ignored, and that neither wholesale railway amalgamation nor freight discriminations are in accord with these interests. A MARK OF APPRECIATION.
On motion of Mr. Spratt, the following resolution was passed:—"That this meeting desires to place on record their appreciation of Mr. Galbraith's annual review on the trade of Toronto for 1881, and which is not only valuable as a record of the past, but will also be of great service in attracting attention to the resources of this city and vicinity. We also appreciate his generosity in distributing it to our members so freely, and for which we desire to convey to him our sincere thanks."

VOTES OF THANKS.

A vote of thanks was passed to the retiring officers, and suitably acknowledged.
Mr. Geo. A. Chapman returned thanks for his election to the presidency. He spoke of the immense Northwest wheat trade which would shortly be developed, and urged upon the members the importance of Toronto securing a portion of it. He also referred to the proposed railway commission, and said that it would be the duty of the exchange to assist Mr. McCarthy in perfecting the measure for the formation of that commission.
