## Artistic Kool

is the one that completely harmonizes with the design and finishing of the house. For this reason there is a steadily

increasing demand for Brantford Asphalt Slates for the modern style of homes.

Brantford Asphalt Slates have a surface of crushed slate embedded into our asphalt coating, the base of the roofing being felt saturated with asphalt. They are cut the size of shingles, and their beautiful soft colors of reddish brown and dark green give a roof a most artistic appearance. The colors are the natural shades of the slate as it comes out of the quarries. Brantford Asphalt Slates are, therefore, unfadeable -never require painting.

# Brantford **Asphalt Slates**

are accurate in size and pliable, which makes them very easily handled and quickly laid, saving time and labor, and therefore costing less to lay.

Brantford Asphalt Slates make an artistic, durable and economical roof. Booklet describing them mailed on request.
