SAVE THE CHILDREN
Mothers who keep a box of Baby's
Own Tablets in the house may feel
that the lives of their little ones are
reasonably safe during the hot weath-
er. Stomach troubles, cholera infantum
and diarrhoea carry off thousands
of little ones every summer in most
cases because the mother does not
have a safe medicine at hand to give
promptly. Baby's Own Tablets re-
lieve these troubles, or if given occa-
sionally to the well child they will
prevent their coming on. The Tablets
are guaranteed by a government anal-
yst to be absolutely harmless even to
the newborn babe. They are
especially good in summer because
they regulate the bowels and keep
the stomach sweet and pure. They
are sold by medicine dealers or by
mail at 25 cents a box from The
Dr. Williams' Medicine Co., Brook-
ville, Ont.

**LLOYD GEORGE ASKS AID FOR
LAMBTON FAMILY**

Needy Veteran "Few Miles West of
London" Is Finally Located
at Petrolia

Wife Had Written Direct to Lloyd
George With Her Appeal
For Aid

Reading like the old stories of
citizens who went to the king or some
favorite champion of rights of others
comes a story from the neighbor-
hood of Petrolia. It tells a tale that
went half way round the world to
bring about results.

In the English mail from Salvation
Army headquarters received in Lon-
don on Saturday, addressed to Brig.
McAmmond, was a letter stating that
Lloyd George had asked that the Sal-
vation Army officers there call upon
a woman who had been deserted by
her husband and was in destitute
circumstances. She lived "a few miles
west of London." Her husband was a
war veteran.

Brigadier McAmmond at once
sought the woman. He found her
near Petrolia. She had written to
Lloyd George because she believed
that he was interested in the rights
of returned soldiers' wives. Lloyd
George had promptly turned the let-
ter over to the Salvation Army.

A change had come over the house-
hold while the woman's letter was on
its travels. The husband, who had
been away looking for work had re-
turned to his family. He is now em-
ployed.

Brig. McAmmond said that while
the family were not doing well at
present, they were not suffering.

**Customers and Cash
Register Profits**

It takes a steady flow of
customers to your store to
keep the cash register ting-
ling with profit-making regu-
larity.

ADVERTISING in the
Guide-Advocate would help
to keep old customers inter-
ested in your store and bring
new ones. It spreads the
news about your store and
its merchandise far and wide
to the women of this com-
munity. Advertising is the
most efficient, economical
business-building force at
your command.

Why not investigate the
possibilities?

**YOUNG COPULE LOST IN WOODS
OVER NIGHT UP IN
"THE TUB"**

Many local fishermen, hunters and
motor tourists will ever remember
their first trip up to Tobermory, the
little village at the extreme end of
Bruce peninsula and the account of
the following mishap, taken from the
Walkerton Telescope, will probably
recall many similar experiences of
their own.

The fishing tugs up at Tobermory
have found a new use for their steam
whistles. Twice the past week they
have had to blow all their steam out
trying to help tenderfoot tourists who
were lost in the woods near the Tub.

A Walkerton lady who is staying
at The Tub writes under Monday's
date that "a party of people are lost
in the woods tonight somewhere be-
tween here and the Big Tub. They
have blown the boat whistles till all
the steam is used up to let them hear
the noise, but still they have not
come."

She also describes an interesting
adventure which a youth and young
lady had a couple of days previous-
ly. It appears that two families from
Toronto who are camping down the
road a bit, went for a tramp and pic-
nic over to the Big Tub. Coming home
the two young folks got behind the
rest and did not reach camp with
the others. The afternoon gradually
slipped away and they did not return
so as the daylight grew less, the
others of the families decided to
raise an alarm and came to the vil-
lage for the purpose. The tugs
which were in the harbor, the Alice
G. and the Red Fox blew their
whistles until the steam was all gone
so that the lost ones might hear and
find their direction. Then, as dark
came on, three search parties start-
ed to scour the woods over the area
where they supposed these two might
be. All night long they hunted and
their calls to one another could be
heard in the village, the weirdest
sound I think I ever heard. Morning
came and no success had been met
with. We all felt very much depress-
ed and sympathized with the two
young things. It is very easy to be
lost in these woods if you go only a
few yards from the trail, and do not
mark your direction by the sun or
stars. There are rattlesnakes, too,
though they are not nearly so plen-
tiful as we sometimes hear, and just
a day or so ago a man who is here
from Texas camping saw a bear as
he was driving along the road in his
car, and backed up and took a snap-
shot of it. But it seems these two met
with neither bear or rattlesnake.
About nine o'clock this morning they
were found in the woods about three-
quarters of a mile from Virginia
Skelton's (Mrs. Belose). They had
wandered about until it grew so dark
they could not see. Then they had
risked their one match (the young
fellow does not smoke) and lighted
a fire over on Baptist's Bay on Lake
Huron side. Then as soon as daylight
came they started walking again and
had finished the long night tuss.

Drawn into the car by the wind,
Monday, a bee caused the death of
the three-months-old baby of Mrs.
Ethel Chapman of Chilliack, B.C.,
Mrs. Chapman was motoring to Belle-
ville with George Stevens, of Peter-
boro, and was nursing the baby. The
bee stung her breast and the baby
lost consciousness, took convulsions
and despite efforts to save its life
with hypodermic and pulmotor, died
within an hour. Dr. Cronk of Belle-
ville, attributes the cause of death to
the shock of the bee sting transmit-
ed from mother to child.

Seize American Nets
Forty nets belonging to American
fishermen were seized Monday some
miles off the Canadian shore near
Port Dover. This is one of the big-
gest seizures yet, and is part of an
extensive campaign being conducted
by the department of game and fish-
eries against illegal fishing in Cana-
dian waters. During the past two
months 164 nets have been seized in
Lakes Huron, Superior, Ontario and
Erie. The seizures represent days of
careful watching by Canadian of-
ficials. Every effort is made by the
department to keep the American
boats at work laying the nets, but as
yet none have been caught in the act.
