l'oronto Mower New and Valuable Invention

Noiseless, Strong, and Durable

This peouliar Machine is unlike any other ever made, and is a new departure in the construction and mode of operating Mowing Machine.

The and mode of operating Mowing Machine.

The draft is light; in operation it is making of work most extraordinary. The operator has the most PERPECT CONTROL of the machine when at work the knife will run at any angle, and in any position in which it can be placed. The machine will work with equal facility over stone, stumps, among trees, on heavy hill-sides, through guilles, over ridges, in swampy nearsh and over log; in the short-stone, stumps, among trees, on heavy hill-sides, through guilles, over ridges, in swampy nearsh and over log; in the short-stone, stumps, among trees, on heavy hill-sides, through guilles, over ridges, in swampy nearsh and over log; in the short-stone, stumps, among trees, on heavy hill-sides, through guilles, over ridges, in swampy nearsh and over log; in the short-stone, stumps, among trees, on heavy hill-sides, through guilles, over ridges, in swampy nearsh and over log; in the short-stone, stumps, among trees, on heavy hill-sides, through guilles, over ridges, in swampy nearsh and over log; in the short-stone, stumps, among trees, on heavy hill-sides, through guilles, over ridges, in swampy nearsh and over log; in the short-stone, stumps, among trees, on heavy hill-sides, through guilles, over ridges, in swampy nearsh and over log; in the short-stone, stumps, among trees, on heavy hill-sides, through guilles, over ridges, in swampy nearsh and over log; in the short-stone, stumps, among trees, on heavy hill-sides, through guilles, over ridges, in swampy nearsh and over log; in the short-stand down grass; whether-laying to or from the machine can be instantly adjusted while in operation to cut low, to take up lodged and yers in death of such of

order in a moment's time, and without the operator leaving his seat or stopping the team. The wheels are wide apart, to stride the swath, and leave the grass unmolested. The steady, uniform, and powerful movement of the knife is the crowning feature of success. There are but two small cogwheels in the machine, and they are about the size of a dinner-plate. There is no pitman and no gearing in the drive-wheels. the size of a dinner-plate. There is no pit-man and no gearing in the drive-wheels. The gearing is enclosed by one small disk or rim, perfectly protecting it from dirt. One of the great features of this machine is discarding the old style of quick running gearing, and consequently dipensing with the frame, heretofore employed to carry, the gearing.

TEA-MEETING!! See These Machines can be examined at J. Buckler's Bridgetown, or J. N. North's, Middleton, the agent for Annapolis County. 6i t15
