

tions that the English vocal organs are not accustomed to, the writer hopes that many of the white people will be glad to avail themselves of the advantage and facility thus afforded to them for becoming acquainted in some measure, and with very little trouble, with that truly *admirable* language of those Aborigines called *Abenakis*, which, from the original word *Wôbanaki*, means : peasant or inhabitant from the East.

May this little volume, which will learn the white man how the Abenakis vocal organs express God's attributes, the names of the various objects of the creation : beasts, birds, fishes, trees, fruits, etc., etc., and how extended are the modifications of the Abenakis verb, be welcomed by the white as well as by the red man, and its errors and defects overlooked with indulgence.

SOZAP LOLÔ, *alias*,

JOS. LAURENT.
