**WELLS, RICHARDSON & CO'S  
IMPROVED  
BUTTER COLOR  
A NEW DISCOVERY.**

For several years we have furnished the Dairy men of America with an excellent artificial color for butter, so meritorious that it met with great success everywhere receiving the highest and only prizes at both International Dairy Fairs.

But by patient and scientific chemical research we have improved in several points, and now offer this new color as the best in the world. **It Will Not Color the Butter Milk. It Will Not Turn Rancid. It is the Strongest, Brightest and Cheapest Color Made.**

And, while prepared in oil, is so compounded that it is impossible for it to become rancid. BEWARE of all imitations and of all other oil colors, for they are liable to become rancid and spoil the butter.

If you desire to get the "Improved" write us to know where and how to get it without extra expense.
