

SEVERAL accidents with infuriated bulls have occurred this season. Mr. Con Heighton, of Cape John, was badly gored and trampled upon by a bull on the 15th August, and is reported by the *Eastern Chronicle* as being in a critical condition. —At Lochaber, on the 16th, Mr. Peter Stewart, coming out of his stable, was met by a neighbour's bull, and so mangled that he died on the 19th. —We hope exhibitors at Kentville will bear in mind the 25th regulation: "Exhibitors must supply themselves with proper fastenings for safely securing the animals in their stalls. All bulls (not under a year old) must have nose rings. It appears, however, that bulls horns are not the only instruments of death on the farm, an old gentleman was stung on the temple by a bee the other day, and, notwithstanding the speedy application of the proper remedies, died in a quarter of an hour. —Whilst recording these misadventures, we may apologise to our readers for the occupation of some of our space last month, by an obituary notice having no agricultural connection that we know of, the type of which our compositor had transferred by mistake to this JOURNAL from some other publication printed in the same office.

A BAG of very fine oats have been shown to the New Glasgow Editor, sown on 27th April, and reaped on the 11th August, by Mr. Daniel Cameron, Hardwood Hill, Pictou Co.

WE grieve to hear of a sudden and sad bereavement in the family circle at Oakfield, such as only mothers and fathers can fully realize.
