The meaning of Responsible Government in this Province. A few words of advice to the People. I sincerely believe that Responsible Government, as called for in this Province, means nothing more than that those who can command a majority in Parliament shall turn out the ex-isting Administration and get into their places. It was for this reason, and not for the sake of the people, that it was assessed to the the state of things in genes in Canada West called so lastily for it, they did nothing genes in Canada West called so lastily for it, they did nothing there is such a reasonable prospect of extensive intercourse on the regiones in Canada West called so lastily for it, they did nothing and of becoming Ministers ourselves." A good Government is a good government, call is "Responsible" or what you will. The peo-ple are, however, flattered by the theory that such a powerful being as a Government should be responsible to them; but the responsibility is merely ideal, for members of parliament do just what they please and are in feet regressentatives of their acconsequence of such, the enormous rate of profit required by the

AMERICAN OPINIONS ON THE POLITICS OF CANADA.
