DE. WISTAR'S BALSAM OF WELD CHERRY

Is a chemical extract of Wild Cherry and Tar. Every body knows that Wild Cherry possesses important modicinal properties; and Tar Water has always been administered in Consumption and Lung affections generally, by our eldest and safest physicians. Various remedies, it is true, have been offered and puffed into notoriety for the cure of diseases of the lungs, and some have been found to doubt very useful, but of all that have yet been discovered, it is admitted by physicians, and all who have witnessed its effects, that none have noved as accomplains at bis. witnossed its effects, that none have proved as successful as this. For Asthma, Shortness of Breath, and similar affections, it may be pronounced a positive cure— It has cured Asthma in many cases of ten and twenty years standing, after physicians had de-clared the case beyond the reach of medicine.

This Balaam is made from materials which nature has placed

in all northern latitudes, as an antidote for diseases caused by

cold climates
" Nature is but the name of an affect

Let us not peglect her plainest dictates.

The genuine is signed 1. BUTTS. Por Sale by LYMAN & KNEESHAW, Druggists, King Street Agents for Toronto.

JOHN SALT, Ratter. September 24th, 1850.

THE BRITISH PERIODICALS AND THE FARMER'S GUIDE.

EONARD SCOTT & Co., No. 54, Gold Street New York, continues to publish the four leading British Quarterly Reviews and Black wood's Magazine; in addition to which they have recently commenced the publication of a valuable Agricultural work, called the "Farmer's Guide to Scientific and Practical

Agriculture," By HENRY STEPHENS, F.R.S., of Edinbergh, author of the "Book of the Farm," &c., &c.; assisted by John P. Norton, M.A., New Haven, Professor of Scientific Agriculture, in Yale College, &c., &c.

This highly valuable work will comprise two large royal octavo volumes, containing over 1,400 pages, with 18 or 20 splendid steel engravings, and more than 600 engravings on wood, in the highest style of the art, illustrating almost every implement of husbandry now in use by the best farmers, the best methods of ploughing, planting, having, harvesting, &c., &c., the various domestic animals in their highest perfection; in short, the pictorial feature of the book is unique, and will render it of incalculable value to the student of agriculture.

The work is being published in Semi-monthly Nambers, of 64 pages each, exclusive of the Steel engravings, and is sold at 25 Cents each, or \$5 for the entire work in numbers, of which there will be at least twenty-two.

The British Periodicals Re-published are as follows

The London Quarterly Review, (Conservative). The Edinburgh Review, (Whig). The North British Review, (Free-Church). The Westminister Review, (Liberal), and

Blackwood's Edinburgh Magazine, (Tory). Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other Journals of their class. Blackwood, still under the masterly guidance of Christopher North, maintains its ancient celebrity, and is, at this time, unusually attractive, from the serial works of Bulwer and other literary notables, written for that Magazine, and first appearing in its columns both in Great Britain and in the United States. Such works as "The Cantons" and "My New Novel" (both by Bulwer), "My Peninsular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers from the pages of Blackwood, after it has been issued by M. Scott & Ca., so that subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these fascinating tales.

TERMS: For any one of the four Reviews \$3.00 do. 5.00 For any two For any three do. 7.00 For all four of the Reviews, For Blackwood's Magazine, For Blackwood and the four Reviews, 10.09 For Farmer's Guide (complete in 22 Nos.). 5.00

(Payments to be made in all cases in Advance.). Money, current in the States where issued, will be received at par.

Remittances and communications should be always, post-paid or franked, to the Publishers.
