

What can be done with the Sharp's Rake.

Miss Florence Lowes, eleven years of age, daughter of James Lowes, Esq., Peel Township, County of Wellington, did all the raking on 150 acres with one of our Sharp's Rakes last season. This is an unanswerable argument to show the ease with which Sharp's Rake can be operated. Daughters like Miss Lowes and a Sharp's Rake are invaluable accessories to the farm.

The Massey Manufacturing Company are the only makers of Harvesting Machinery in Canada who manufacture their own Knives and Sections and Teeth for Horse Rakes.

An American cheese bore away the prize of a silver medal at the late great cattle and dairy show at Birmingham, England. The prize cheese was one of the largest ever made, weighing three-fourths of a ton. It came from Iowa.

Jerome Este, of Colbrook, says: The Sharp's Rake I bought from you works like a charm. I am well satisfied with it.

SHARP'S HORSE RAKE!

IS MADE ONLY BY

The Massey Manufacturing Co.,

Has twice the sale of any Rake
in Canada.

SOLD UPON THE TERMS

"NO EQUAL, OR NO SALE."

BURLINGTON, ONT., Sept. 22nd, 1882.

The Massey Manufacturing Co., Toronto:

GENTLEMEN,—Please find enclosed a post office money order, in payment for my note in your favour, due 1st Oct. next. I am well pleased with the Horse Rake, it is the best I have seen in this neighbourhood, and can recommend it as such, please forward to me my note on return of mail.

And oblige, yours truly,

JOHN HEMINGWAY.

The First Sulky Horse Rake made in Canada was turned out by The Massey Manufacturing Company.

A Word From Quebec.

ARTHBASKAVILLE, July 28th, 1882.

Messrs. Massey & Co., Toronto:

GENTLEMEN,—I enclose money order to cover my note, falling due August 1st, which please return. I am perfectly satisfied with your Rake.

I remain gentlemen,

Your obedient servant,

CHARLES POWELL.

4,200 Being Made for 1883.

18,000 Made and Sold since 1874.

SHARP'S HORSE RAKE.

MINDEN, HALIBURTON CO., Feb., 1883.

To The Massey Manufacturing Co.:

GENTLEMEN,—The Sharp's Rake I purchased some two years ago from your agent R. C. Garrett, has given great satisfaction. Though my land is both stumpy and stony, the Rake does good work, and I have not broken any part of it yet, I can safely recommend it to the public in this new country.

R. G. HAIGHT.

No Single Reaper has a sale equal to that of the Massey Harvester, and no Horse Rake equal to that of Sharp's Rake.

County Beauce, Quebec, Writes us.

St. Francois, Co. Beauce, Que.

Massey Manufacturing Co.:

GENTLEMEN,—I am well pleased with the Sharp's Rake I purchased from you. It does the work in an excellent manner. The teeth are of fine quality.

Yours truly,

FORTUNAT POULEN.

It is a mistake to suppose sheep can go a great while without water. They drink little at a time, it is true, but on that account they require it the oftener.

Remember, we were the first manufacturers of Sulky Rakes in Canada. We are the largest manufacturers of Sulky Rakes in Canada, and have made the most, and we manufacture the best—**THE ONLY GENUINE SHARP'S SELF-DUMPING RAKE**, as originally introduced and improved by us. Our facilities are unequalled by any Canadian factory for making the Rake in a perfect manner as well as in large numbers. We manufacture every portion of the Rake, including the **spokes and rims** for the wheels, and the **Rake Teeth**. We are much pleased to say that we have again secured the **best American steel** from one of the largest and best steel mills in the United States, and that the **Rake Teeth made by us have proved to be the best we ever had**. In all things—excellence of workmanship, quality of materials and improvements—we are **determined to excel**, and our farmer friends in purchasing a **genuine Sharp's Rake** from us may depend upon getting value for their money.

THE other day, as two friends were talking together in the street, a donkey began to bray and wheeze and cough in a most distressing manner. "What a cold that donkey has!" said one of the men. "And by the way, that puts me in mind—how is your cough?"

Ask this Young Lady How Easy It Dumps.

Mr. Jas. Lowes, 13th Concession of Peel, County of Wellington, bought from us last season, a Reaper, Mower and Rake, which gave him great satisfaction. His little daughter, eleven years old, did all the raking on 150 acres with the Sharp's Rake.

Almost without exception, for the last fifteen years, we have not been able to supply the demand for our productions.

YARKER, December 31st, 1882.

The Massey Manufacturing Co'y.

We have tested your Rake that we bought last season, and we can safely recommend it as a first-class article.

JAMES MARTIN & SON.

A lawyer once asked a Quaker if he could tell the difference between "also" and "likewise." "Oh, yes," said the Quaker; "Erskine is a great lawyer; his talents are admitted by almost every one." You are a lawyer, also, but not *likewise*.
