British Cabinet Ministers Who Bought American Marconi Stock Are Being Saved From Suf fering by Unscrupulous Rancor of Opponents' Criticism.

Special Cable to The World. LONDON, April 11 .-- (Copyright.)-The true story of how Attorney-General Isaacs came to take 10,000 shares of the American Marconi Co.'s stocks has not been told.

He took them as an act of friendshir o his brother Godfrey, the managing director of the Marconi Company, who had 100,000 shares on his hands and was having great difficulty in placing them. Having assured himself that the American company had no interest in the contract with the British Government, Sir Rufus went to the bro-

His and Lloyd George's political opponents are now pressing the enquiry with such unrelenting malice-altho all the circumstances have been thoroly investigated with the aid of their bank pass-books, their brokers' books and every document bearing on the transaction-that the falsely accused minlsters are becoming objects of general public sympathy.

The proceedings of the committee afford a repellant object lesson in unfairness and spitefulness carried to heir utmost limit.

Mean Insinuations. No insinuation has been too mean, no innuendo too unjustified to be used again and again in the face of repeated disproof. Undoubtedly it is felt that these ministers acted with umperdonable indiscretion in touching anything in the name of Marconi, and if their Unionist accusers had acted with decent moderation the government and the Liberal party would suf-

their opponents. with his brother Cecil, th eeditor of The Eye-Witness, who is awaiting trial for criminal libel, in attacking Lloyd George and the government generally If Atterney-General Isaacs, fails to get a verdict against Cecil Chesterton it will place him in an element for many years. Was a native of Ireland and came to Chesterton it will place him in an element for the United States. It is calculated the balloon may be able to reach Florida or Cuba in an eighty-day journey. INSINUATION GIVE CONTROLLERS NO MONEY WHO REFUSE RESPONSIBILITY

City Council Will Be Asked at Next Meeting to Discontinue Forthwith the Salaries of the Members of the Board of Control Who Refuse to Carry Out Instructions.

"I will move in next meeting of the city council that those controllers who refuse to carry out the instructions of the council shall have their salarles discontinued forthwith," said Ald. Spence yesterday.

"The council has instructed the board of control to become better informed upon the work of the several departments, each member of the board specializing on one branch of departmental business. At present the organization of the board of control prevents the required information about departments being given the council.

"Three of the controllers have refused most positively to carry out the instructions of the council to specialize on departmental work. They will not provide the council with the required information, and they will not let their colleagues carry out the instructions of the council. The council has the power to withdraw their salaries of \$2500 each ,and it is very likely that the obstreperous controllers will find themselves deprived of salaries unless they attend to the duties for which they are

MORE WORK, MORE PAY. "Now that the board of control has approved a resolution of the council that the chairmen of committees give council the required information upon departmental work, it naturally follows that the chairmen should be paid for the extra work they would do, and that the balky controllers be not paid for the work they should do and refuse to do."

Ald. Dunn said that he is now putting in nearly all of his time at the city hall in looking after the works committee business.

Ald. Weston said that he will not do any more work for the city unless he is paid for it. "I put in a great deal of my time at civic work now," he said, "and if I do the work of any controller I will demand that the salary of that controller be not paid." .

"I am sparing all the time to city affairs that my business will allow," said Ald. Anderson. "Controllers who will not attend to the business they are paid to look after will find themselves without their salaries, if my voice and vote counts for anything in the council."

POPE RECEIVES PILGRIM BISHOPS PATHETIC INCIDENT IN SICK ROOM

ROME, April 11.—(Can. Press.)—Despite the injunctions of his physicians and the remonstrances of his attendants, Pope Plus this afternoon received in audience three bishops who had headed a pilgrimage to Rome to visit him, and bestowed upon them the papal blessing.

Tonight he fell into a deep sleep immediately after his physicians had made their customary call.

The meeting between the pontiff and three aged bishops was pathetic. As they entered the sick room they threw themselves at the feet of the Pope, who was sitting in his arm chair. The Pope smiled, and, lifting his hands above their heads, bestowed his blessing. The bishops, who had been warned to make the audience as short as possible, left the papal bedroom with their eyes brimming with tears. bedroom with their eyes brimming with tears.

Company Agrees to Bring Out Four Thousand Settlers in Ten Years, Build Schools, Roads, Bridges, Pulp and Lumber Mills—Crown Will Enforce Rigid Conditions in Return For Charter and Cheap Land.

In an extensive colonization scheme provided for in a bill introduced in the legislature yesterday by Hon. W. H. Hearst, minister of lands, forests and mines, the Lake Huron and Northern Ontario Railway Co. agrees to construct a colonization road 325 miles long in the next four years in New Ontario and bring out about 4000 settlers within the next ten years. The railway company in return for its charter must also put up schools in charter must also put up schools in the settled districts, build the neces-sary highways and bridges and expend within three years an amount not less than \$3,500,000 on plants to manufaccompany is now known as the Bruce Mines and Algoma Railway, but hence-forth will be known as the Lake Huron and Northern Ontario Railway. In explaining the bill Mr. Hearst stated that the line would run from the present terminus at Rock Lake Station to a junction with the National Transcontinental Railway, midway between Hearst and Cochrane, and that 17 miles was already built.

As a reward for the colonization work to be done by the railway the bill proposes to authorize the company to purchase from the crown, land not

9. The company shall improve the lands and offer them for sale at a price to be fixed by the minister.

10. The Timiskaming and Northern Ontario Railway and any other rail-way owned by the province shall have running rights over the railway, sub-ject to the terms of the Ontario Railway and Municipal Board.

11. The company shall take precaution against bush fires due to the

12. In order to have settlement work commence and manufacturing plants constructed without delay, the minister may, if he deems it advisable, issue
