MYSTERIOUS SHOTS  
CUT OFF FINGER

Watchman on Sewer Work  
Near Leaside, Describes  
Adventure.

## THREE SHOTS FIRED

Three Men Were Seen Stealing  
Cement From Construction Shanty.

Michael Jacobs, a night watchman employed by Wilkins and Wallace contractors, who are erecting a factory about one mile east of Leaside Junction, had the top of one of his fingers shot off about 6.30 o'clock last night by a shot fired by a strange man, according to the story he told the police at the North Toronto station.

The man, he said, he saw in company with two others coming from a toolshed each carrying a bag, apparently full.

According to his story he called to the men to stop but they did not pay attention to him. When he commenced to follow them one of the men turned and discharged three shots at him from a revolver. Jacobs said he had to run to save his life. The three men then easily made their escape, and at a late hour last night he still at liberty.

After being hit with the bullet Jacobs proceeded to the office of Dr. W. L. Bond, North Yonge street, where his injury was attended to. He then reported it to the city police. The case was brought to the notice of County Constable Stewart, who immediately proceeded to the scene.

Back on Duty.

When questioned by a World reporter last night, Mike Jacobs had resumed his patrol, assisted by his father and brother, and was tending to the sewer, midway between Bayview avenue and Leaside Junction. He said: "It was my duty to see to the sewers which are being laid in Leaside. I started out on my patrol last night at 6.15, and soon got to the boiler at Leaside Junction. As I passed a shanty where cement is stored I was surprised to see three men come out, each carrying something on his back. The men refused to stop when I called, and after I had called out three times three shots were fired, the last one shooting off the end of my left forefinger; they then ran in the direction of Yonge street, and I made my way to the North Toronto police station, where the sergeant phoned for County Constable Stewart, who, after hearing my story, said that he would be useless to try and get them. As it happened I was not carrying my lantern or likely enough I should not be alive now."

Dent is Missing.

The watchman said he had ascertained that a tent, a cot and some cement were missing from the shanty. A coal stove was stolen from the same place last Monday night, and Jacobs is suspicious of a number of foreigners who work at Leaside.

Skating Rink Needed.

The matter of a skating rink for the children of the district was brought forward by Mr. Jefferies, who suggested that the new Earlscourt Park would be an ideal place for a rink. Objection was raised on the ground that there would be a rink on the Earlscourt School and Oakwood Collegiate grounds, but this was overruled, the meeting deciding that the site had been secured for a park. An open rink should be placed there. The secretary was instructed to write the parks commissioner to that effect.

Regarding the number of thefts in the neighborhood, the secretary was asked to communicate with the chief of police and urge the necessity for better police protection.

ORANGE HOME GUARD ORGANIZATION MEETING

About seventy Orangemen from the six Orange lodges of West Toronto district were present at the meeting in the Annette Street Public Library auditorium last night, for the purpose of organizing an Orange Home Guard company, and these will place in the nucleus of the first company. It is expected that many more will join later, and it may be possible to have two companies of over 100 men each in West Toronto.

Absolutely Quitting Retail Trade  
Semi-ready Store Selling Out

Every garment to be sold at substantial, actual reductions—below cost in many cases—at manufacturers' cost in others—with the earnest purpose of quickly vacating the Yonge Street Store. Plain prices and labels in pocket—no price boosting—understand, please—Semi-ready Tailoring will always be sold in Toronto—but it will be by some wise merchant who can give his personal attention to the retail business. Not for long would the best tailoring in Canada go unsought by a good merchant in a city of half a million people. But—The Semi-ready Company will not conduct a retail business direct as has been done in this city for two years. Their 500 wholesale customers in Canada naturally object. On Friday and Saturday I am going to make a determined effort to clear all broken lines—left overs in the best sellers.

## 67 Worsteds Suits Worth up to \$25 for \$8

The problem is to get rid of patterns that are not winter shades and patterns; yet we have to make a clean-whistle sale—no place to put this stock.

One whole rack in the wardrobe shows fine English worsteds suitings, mostly in spring and fall shades, none worth less than \$18, mostly \$20 and \$25 suits, in pure wool worsteds.

WESTON FIRE BRIGADE  
HELD ANNUAL CONCERT

The efforts of the committee responsible for last night's concert of the Weston Volunteer Fire Brigade in the Westminster School Hall, met with a most gratifying response on the part of the public. The audience filled the hall to its utmost capacity, the proceeds amounting to \$150. This will be devoted to fitting up the old library room in the town hall as a club room for the members of the brigade when the books have been moved to the new Carnegie Library Building now being furnished.

Reeve Dr. E. F. Irwin, who occupied the chair, gave a resume of the history of the brigade since its formation in the early part of March, and eulogized the work which it had accomplished.

Those contributing to the program were Miss Lanny of Malton, soprano; Miss Rothery, elocutionist; A. T. Mather, tenor; C. Lorne Fraser, baritone, and Owen A. Smith, pianist. Miss Forsyth acted as accompanist.

Weston I.O.F. met last night in Oddfellows' Hall, Church street, with Chief Ranger Chas. F. Wacey presiding. Two new members were initiated, and preparations were begun for the Christmas entertainment.
