Ald. W. D. Robbins referred to the expenditures incurred thru the war. He maintained that the council and board of control had done everything possible to stimulate recruiting, and in his opinion the big expenditures for ammunition, hospital fees, soldiers'

sanctioned by the ratepayers. The question of a fire commissioner when referred to by the alderman evoked many sarcastic remarks, but he mission be appointed did not appeal finally answered the hecklers satisfactorily. Mr. Robbins believed that the \$300,000 annual expenditure on apparatus for the department should be spent by a competent man.

He Was Economical. Ald. R. M. Yeomans said he had promised economy last year, and with the exception of the expenditure for military affairs he had tried his htmost to follow a retrenchment policy. He was in favor of Canadian-made goods and a firm believer in Sir Adam Beck's

radial bylaw. "I am not afraid of my actions regarding the fire commissionership," he said. "It was very hard for me not to vote for Smith as I have known Replying to a question he said: have not been a rubber stamp for anyone. I have always voted accord-

Albert Wagstaffe enumerated the points on which he asked for election. He favored promotion in de-partments, the radial bylaw and a fire commission. He did not believe that ald be made a dumping ground and the sewage disposal plan should be scrapped.

Walter Brown announced himself as the labor candidate, but pointed out running in opposition to Alderman Robbins. He was of the opinion that Acting Chief Smith could look after the fire department.

Disgraceful Conduct.
"In the face of the war, the conducting of the city council during the past year has been disgraceful." This was said by T. G. Mathison, who also remarked that they had heard more in the hall than heard in the council chamber all the year. He referred to the incinerator as a con-founded nuisance. Mr. Mathison also spoke on behalf of George Daniels who

was indisposed.

Trustee Dr. G. R. Steele of the board of education said that during his time of office the number of pupils attending the public schools had increased to 74,070. He maintained that everything was being done to further patr otism among pupils and pointed out that 55 employes of the department had enlisted for overseas service. James H. McBride Opposes Bylaw.

Alderman McBride was the last of the candidates to get the floor. Up to that time, all the speakers had had trouble thru the presence of intoxicated persons in the audience who did their best to create an uproar. McBride began with an explanation of why he was opposed to the hydro radial bylaw and then launched into a series of attacks on James Simpson's candidature for the board of control, intimating that the former controller's

"We want hydro radials, but not in an agreement like this."

Check on Expenditures.

Russell Nesbitt said he believed it was time a greater check on board of educa-tion expenditures was made. He said that if elected he would vote for a man on the fire brigade to be its head, as he favored promotion. He pledged him-self in support of the hydro radial by-law because the commission had the con-fidence of the promise. It means a checkself in support of the hydrodiad the con-law because the commission had the con-fidence of the people. It meant a cheap transportation to Toronto and every-thing Sir Adam Beck had directed had

a success.

A. W. Miles' New Points. A. W. Miles' new porting the hydro-radial bylaw, asked "Where would the city be were it not for Sir Adam Beck, in the matter of electric light?" His next the matter of electric light?" His next point was that better access to the Island was a possibility. He would favor more cluster lights in the parks and wide streets and would support Acting Chile Smith as chief of the fire department. The judicial enquiry served as a reorganization and more interest should be taken in these things by ward four representatives.

He touched upon a new point when he claimed the medical health department should take more interest in tuberculosis cases and try to improve conditions.

Says He's a Socialist.

Isaac Bainbridge addressed his remarks chiefly to the working class. "I am a Socialist," he said, "but I claim a little business ability." He advocated the city building its own public schools, thus saving the profit made by private contractors who have been "skinning the community." "It's not a square deal munity." "It's not a square contractors sitting on the boa that contractors sitting on the board of education should have a share in the contracts," he said A living wage standard should be es-tablished. Mr. Bainbridge declared, and the working man should vote to see that

there was such a thing.

Contracts Fairly Let. Contracts Fairly Let.

Trustee Miles Vokes said he was glad so much interest was being taken in educational matters. In reply to the statements minde by Mr. Bairbridge, he said he did not know of a contract or who was benefiting by contracts. He had had the tender boxes closed until the hour of opening a committee meeting. In that of opening a committee meeting. In that way a safe plan had been inaugurated. He did not believe it would be in the interests of the city to conduct a stone plant.
