WHOLESALE FRUIT AND VEGETABLES

Food Controller Limits Them

AMOUNT IS LIMITED

All By-Products of Grain Elevators Reserved for the Farmers.

Ottawa, Jan. 20,-In order to prevent etail dealers taking advantage of the scarcity of bran and shorts to exact excessive profits over the prices fixed by the food controller, the latter has ordered

cessive profits over the prices fixed by the food controller, the latter has ordered that the retail price of bran and shorts, where cash is paid, must not exceed by more than ten cents per bag the cost f.o.b. track at the dealer's station. In cases where purchasers take delivery direct from the car, the profit has been limited to a maximum of five cents per bag. An extra charge may be made where credit is given, and the bran and shorts delivered from the dealer's store, but this amount must be only a reasonable charge, representing the consideration of such services.

When the milier sells at the mill in less than carload lots he is not permitted to add more than five cents per bag of 100 pounds to the price at which he is permitted to sell under the food controller's order of Dec. 17, 1917. When the purchaser brings bags to the mill to be filled, the miller must not add more than \$2 per ton to the price at which he is permitted to sell under the order of Dec. 17. In effect, the miller must not charge more than the fixed Fort William bulk prices, plus or minus freight to or from Fort William, and in addition \$2 per ton as retail charges. For example, suppose that at a point in eastern Canada, the freight from Fort William is \$4.20 per ton. In this case the selling price for the bran per ton, when the purchaser supplies the bags, would be \$24.50, plus \$4.20, plus \$2, a total of \$30.70. The order applies to all millers and dealers in Canada.

While this action has been taken in order to render available to the farm all supplies of bran and shorts at the lowest possible cost, the amount obtainable is very limited and farmers must depend mainly upon other fæding stuffs. Prices for live stock are such that, despite the high cost of coarse grains, it is profitable to feed them to food animals.

Several loads were offered for sale but the prices asked were almost pro-hibitive. A load of dried tamarac cost \$9, while \$10 was asked for a load of log maple poles. Another man had a load of cut white maple containing about a half-cord, for which he asked

Oranges.—The orange situation has not improved any, and while there are cars of both navels and Floridas expected to arrive any day, as they are long past due—still we may expect to continue to pay high prices, as the crops in both California and Florida were exceptionally light—and they have not the oranges to ship to us.

light—and they have not the oranges to ship to us.

Apples.—The trade in apples has picked up wonderfully during the past week, and it should continue to do so, as they are now one of the cheapest and best fruits you can buy—just because we have oeen used to buying them at so much lower prices is no reason why we should cease to buy them because circumstances have advanced the prices, as even at the advanced prices they are cheaper and more wholesome than most of the other fruits now offered.

This is in striking contrast with last Monday's total receipts and indicates a complete resumption of ordinary freight receipts, practically ali tines being now pretty well open. It shows, too, that the railways are now prepared to lift all live stock offering for shipment.

That the Alberta farmers are reaping the full benefit of the big prices obtaining on the Toronto and Montreal markets for select hogs is shown by the fact that \$18.10 was paid for good butcher store on the Edmonton hive stock market on Tuesday last. They were bought for the William Davies Co. of Toronto and were raused by farmers to the south of the Lesser Slave Lakes, where coarse feed is abundant and fairly low in price. They were sold thru the United Grain Growers' Association at the Edmonton stock yards and the farmers, after seiling their hogs, were looking about with a view of taking back a bunch of stockers and feeders, having plenty of feed and grain left at their farms on the Swan River.

There was a heavy attendance at both markets Saturday, but as the supply in most cases consisted of two weeks' produce—owing to the storm of last week preventing so many coming in—it proved too heavy for the demand, and, therefore, there was a material slump in prices, especially towards the close of the market.

Tallow—City rendered, solids, in barrelores, especially towards the close of the market.

Butter.—Butter was extremely slow. In fact in many cases people could not obtain enough money to pay them for the cost and trouble of making it—and if prices continue to decline the way they have been doing—they will stop making it. There were still a few who sold their supply at 52c and 50c per lb., but the bulk had to drop to 45c, and there was a large quantity sold at 42c per lb.—some going at 40c and even 38c per lb.

Chicage, Jan 19.—Clearing up of the railroad blockade tended today to ease the corn market. Prices closed heavy, January \$1.27% and May \$1.24%, with the finish as a whole unchanged to ½c down, compared with 24 hours before. Oats declined %c to %c net. In the provisions market the outcome varied from a setback of 10c to 37½c advanct. Faced by prospects of liberal receipts here Monday and Tuesday the corn market showed a downward stant almost uniformly thruout the session. Notwithstanding that severe winter temperatures still curbed the activities of the railroads, indications of substantial progress in the removal of traffic congestion were too plain to be ignored. Selling, however, was at no time aggressive, aitho bearigh sentiment was somewhat augmented by peace talk, especially in the last hour.

Oats sagged with corn. Hope of sales to go abroad led to a temporary buige, which was more than counteracted when no business developed.

Heavier receipts of hogs weakened provisions, but sharp reduction of the weekly total of hog packing led afterward to rallies. The late upturns were partly due to the fact that shipments for the week were shown to have been greatly curtailed by traffic difficulties.

SIR BEAUCHAMP DUFF DIES QUITE SUDDENLY

Former Commander of British Forces in India Found Dead at London Club.

London, Jan. 20.—General Sir Beau-champ Duff, commander in chief of the British forces in India from 1912 to 1916, was found dead in his bed in a west end club this morning.

General Duff, who had had a long and distinguished army career, win-ning honors in active campaigning and filling numerous responsible executive positions, including that of assistant military secretary for Indian affairs at the war office, and the posts of adjutant-general and chief of staff in India before becoming commander in chief there, was in his 63rd year. In August, 1916, he was succeeded in the Indian command by General Monro, and was summoned to Great Britain to testify before the commission investigating the Mesopotamian expedition, which resulted in the loss of Kut-el-Amara and General Townshend's force to the Turks.
The report of this commission, presented in June last, mentioned many army officers and civilian officials as sharing responsibility for the result of the expedition, the list being headed by Baron Hardinge, the former viceroy of India, and General Duff, **WILL BE HEAVIER** the commander in chief at the time.
