

ROSEDALE HOSPITAL TO HAVE IMPOSING ROWS OF BUILDINGS

Work is Begun in Changing St. Andrew's College for Use of Wounded Soldiers.

GREAT UNDERTAKING

Accommodation to Be Provided for Three Thousand People.

Plans of the great group of military hospital buildings to be erected on the St. Andrew's College property were available for inspection yesterday and show, as previously announced in The World, that 24 new buildings will be constructed. The \$2,000,000 hospital will be one which will compare favorably with any military hospital in the whole world, and so far as up-to-date and efficient arrangement of the various buildings is concerned will be second to none.

An idea of the immensity of the undertaking can be gained from the fact that the accommodation is to be provided for 2,312 soldier-patients and that the double row of hospital buildings will extend for 1,200 feet east and west.

St. Andrew's College itself will be converted into a hospital building of 300 beds. Carpenters and plumbers started work yesterday on the remodeling operations, which include the replacing of the wooden floors with cement ones. This structure is to be in readiness to admit invalided returned soldiers by the first week in September. A change in the plans was made by which the college for use as a park and also as not to mar the approach.

Two-Storey Buildings. The new hospital buildings, most of which will be two-storey, with stucco finish over wire lath, will form an imposing double row of structures. The row extending along the north side of the property will house the convalescent cases, and those along the south side the cases requiring active hospital treatment. The accommodation planned for convalescent cases is 1,200 beds, and for hospital treatment, 912 beds.

In addition to the 12 buildings containing hospital wards there will be eight other large-sized buildings: Nurses' home, medical officers' residence, hydrotherapy and surgery building, administration offices, orderlies' building, service and dining-hall building, recreation building and isolation hospital. Another important building will be the boiler-house, which will distribute heat to all the buildings of the hospital group, the system of heating being similar to that in operation for Toronto's university buildings.

The layout of the buildings is stated to be along the lines of the great military hospital built by the Ontario Government at Oshington, England. R. G. Wright is the acting chief architect for the St. Andrew's group of hospital buildings, and W. L. Symons, the architect for the military hospitals.

Two Hundred Beds Each. Thirteen buildings in all will be erected along the north side of St. Andrew's property. Each of the five Summerville avenue will be the big boilerhouse and a storehouse. South of them will be, starting from the east end, three convalescent ward buildings, and at the end of the row, a recreation hall. Each of the five convalescent wards will have 200 beds. The row will also contain five smaller buildings for use as diet-kitchens. In

HOISTING FRENCH FLAG AT CITY HALL.

To the strains of the French national anthem played by Sousa's Band, the tricolor of France was hoisted to the top of the city hall flagpole, at noon yesterday, in commemoration of the fall of the Bastille. An enthusiastic crowd witnessed the ceremony. Acting-Mayor O'Neill extended felicitations to the French people, and the French consul, M. Rochereau de la Sablière, responded briefly. M. J. Charbonneau, governor of Quebec, on behalf of the mayor of that city, expressed his pleasure at seeing the French flag so highly honored.

The northeast corner of the twenty-five acre property, there will be a vocational training building and a therapeutic hut. A large garage and a building to house the hospital orderlies are to be in the northwest section of the grounds. Each of the convalescent ward buildings will be two storeys high, and 300 feet long, by 50 feet wide. The row of buildings along the south side of the property will be still more impressive, as it will contain ten buildings, eight of which will be at least 150 feet in length. Near the centre of this group will be the structure for hydrotherapy and surgical work. To the east of it, three active treatment wards are to be erected, and to the west of it another active treatment ward, two neurological buildings, the administration building, the medical officers' residence, and the nurses' home.

Interpreted will be six more diet-kitchens. Each of these hospital buildings is planned to accommodate 152 patients. The isolation hospital will be constructed at the southeast corner of the grounds. Room for Three Thousand. Altho 2,312 is given as the total hospital accommodation, it must be remembered that the doctors, nurses, orderlies and workmen must also be counted in, and that as they will number many hundreds, the total population of the hospital group will be over three thousand.

Much satisfaction is being expressed by those planning for the St. Andrew's group of military hospitals over the fact of it being within the limits of greater Toronto, and therefore capable of acquiring use of the Toronto water-works, sewage, electric and gas services, by simply making connections, and they hope with the street cars. The buildings will not be of such a permanent type of construction as a residence hospital, but yet will be substantial enough to be used for upwards of 20 years. The architects have not forgotten for a beautiful promenade, well over a thousand feet in length, running diagonally from west to east thru the centre of the grounds.

CANNOT CROSS IN UNIFORM. A new military order states that, if on leave, officers or men will under no circumstances be permitted to go to the United States in uniform. When in uniform they will be under the regulations as citizens generally, it being necessary for them to obtain emigration permits.

WAR VETERANS

HINT DISCRIMINATION IN COAL BUSINESS

G. V. Gustaf, secretary of the West Toronto branch of the G.W.V.A., stated yesterday afternoon that the coal situation was looking serious in the vicinity of West Toronto. He knew of many cases where there was not a ton of coal in the house, nor a hundredweight. He himself had tried to get in an order for a ton of coal only a few days ago. He had noticed a neighbor getting in seven loads of coal, and inquiring the name of the firm which was delivering it, went to the offices and ordered a ton.

The manager at the office stated that no orders were being taken until the old ones had been filled. Asked why a neighbor should be receiving as much as seven tons when he could not get even a ton himself, the manager stated that that neighbor had been taken during the winter months.

Another case was brought to light yesterday. A woman who does not desire publicity stated that she asked the manager at the office where she worked if she could get three tons of coal. Her husband was at the front. The manager immediately got connected with one of the big firms in the city, and three days later the three tons were delivered in a truck. This was an example of what could be accomplished if need arose. But, the firms refused in other instances to take any new orders for coal.

VETERANS' FINANCE MEN.

The finance committee of the provincial executive of the G.W.V.A. for Ontario will hold a meeting today at the provincial offices in the Kent building. The committee comprises Major J. R. Bell of Toronto, Dr. William D. Sharpe of Brampton, W. G. Carter of London, G. J. Wilson of Oshawa and Captain Jenkins of Brantford.

OFFERS HALL FOR CONCERT.

Sergeant-Major G. V. Gustaf, secretary of the West Toronto branch of the G.W.V.A., stated yesterday afternoon that Donald MacGregor, the well-known soloist, had offered the use of a hall at the Templar building for a concert which the branch intends to hold on Tuesday, July 30, on behalf of Mrs. Tarrington and her family. Mr. MacGregor will be among the soloists of that evening. Other well known musicians and singers will help to make this concert a success. It had been intended to accept the offer of the Labor Temple for this purpose, but it was felt that the Devereux Hall was nearer the West Toronto members.

VETERAN HAS RECOVERED.

Major Charles Ackerman was badly injured Three Years Ago.

Major Charles Ackerman, a veteran of the battle of St. Julien and among the original officers of the Royal 2nd Canadian Battalion, was in Toronto yesterday. He is a native of Peterborough from which point he enlisted in August, 1914. Yesterday he looked the picture of health, and those who recall the occasion when he was badly smashed up by a shell at the battle of Givenchy, while on his way, with Corp-Signaler Macnab, to the front firing line, then held by No. 2 Company, were glad to note that he had apparently fully recovered from the effects of the shock and injuries he received. Corp. Macnab had been instantly killed, and Lieut. Ackerman, then platoon officer of the 14th platoon of the 2nd Battalion, was so seriously injured that little hope was entertained that he would recover. This was in the middle of June, 1915, and a few weeks later he was sent to Canada, where he eventually commanded the 25th Battalion at Peterborough. A brother of Lieut. Ackerman, who gained his commission on the field in 1915, was killed in one of the major operations of that year.

IMPROVED DAY TRAIN SERVICE, TORONTO, LONDON & LORUIT, CANADIAN PACIFIC RAILWAY.

Train No. 629, re-established daily except Sunday, leaves Toronto 7:45 a.m., arrives London 11:45 a.m., making intermediate stops; connection for St. Mary's.

Train No. 632, re-established daily except Sunday, leaves London 4:30 p.m., arrives Toronto 9:00 p.m., making intermediate stops; connection for St. Mary's.

For full particulars and additional service, see current folders.

AUTOMOBILE BUILDERS ANXIOUS ABOUT STEEL

The directors of the Automobile Manufacturers of Canada met in Toronto yesterday afternoon, to discuss what action should be taken to request the government to secure for the industry a sufficient supply of steel. It was felt that some means should be devised to protect the very important automobile manufacturing business in this country, and fear was expressed that the decision reached by the United States government to reduce the supply of steel to certain industries, including that of the automobile, might have a very serious result on automobile construction in this country.

It was given on the part of the government, and the government is obtaining material, especially steel, and also to the fact the Ford company wished to take a careful inventory of its true position at the present time.

Unless some action is taken by the government, it is feared other plants will also have to suspend operations. The government is being urged to take a very serious request to give the matter most careful consideration and quick attention.

BLACK PRECEPTORY BACKS UP MINISTERS

At the regular monthly meeting of the Temple Royal Black Preceptory held in the County Orange Hall, Toronto, Tuesday, July 9, the following resolution was unanimously adopted: Moved by Sir William A. Hanna, seconded by Sir W. A. Smith and resolved "That this Royal Black Preceptory No. 292, meeting at Toronto, with 480 members in good standing, and 112 members on service, joins the various ministerial associations in demanding a full, thorough and impartial enquiry into the circumstances attending the raid on the Jesuit Novitiate at Guelph on June 7, 1918; cherishing, as we do the motto 'Equal rights for all and special privileges for none,' we feel that we owe a debt of gratitude to the Protestant ministers at Guelph for the firm and resolute stand they have taken, and desire to express our determination to give them all the moral and material support in our power to press upon the government of the day the absolute necessity of an official enquiry at which the ministerial association of militia, and the prime minister, Sir B. L. Borden, and that copies be sent to the daily press and The Sentinel.

By-Elections in Northeast Toronto and East York Soon

Only five weeks remain before the two by-elections in Northeast Toronto and East York take place. The campaign will start shortly, when meetings will be held in the city and counties, at which a number of speakers will address the electors in favor of the two new ministers and their advisers. The work of the enumerators is nearly completed, and the lists will at once be placed in the printers' hands. The court of revision to the lists will be held in the city and counties, at which a number of speakers will address the electors in favor of the two new ministers and their advisers. The work of the enumerators is nearly completed, and the lists will at once be placed in the printers' hands. The court of revision to the lists will be held in the city and counties, at which a number of speakers will address the electors in favor of the two new ministers and their advisers.

IMPORTANT AUCTION SALE.

A highly important auction sale of valuable household furniture, including an elegant Nordheimer player-piano, handsome carved black walnut parlor chairs and sofas, black walnut buffet, etc., will be held by Charles M. Henderson & Co., on Thursday, July 18, at the large residence, No. 17 Walmer road, under instructions from the executors of the estate of J. B. Strath. Sale at 11 o'clock.

CARDS INDICATE MANY KNOW HOW TO FARM

John M. Godfrey, superintendent of registration, reports that the work of recopying registration cards for the Ontario resources committee in his district has been completed. Only the male cards, those were copied where there was an affirmative answer to any of the subquestions of question 12, which are as follows: Were you brought up on a farm? Have you worked on a farm? Are you a retired farmer? Can you handle horses? Can you drive tractors? Can you use farm implements? Are you willing to work on a farm?

The number of registrants in Mr. Godfrey's district who answered "Yes" to any of these questions was 84,865. The following are the returns by constituencies:

Central Toronto	9,000
East Toronto	26,157
South Toronto	16,272
North Toronto	2,900
West Toronto	2,700
Parkdale	8,654
East York	2,764
South York	4,582
West York	5,200
North York	780
Peel	1,000
Muskoka	1,306
North Ontario	420
South Ontario	2,316
Durham	1,062
East Peterboro	408
West Peterboro	2,300
Victoria and Haliburton	686
Northumberland	1,281

No registrants' cards were recopied if they were already engaged in farm work.

COUNTY POLICE COURT.

Fines for Infractions of Speed Laws and Other Offenses.

In county police court yesterday, W. H. Owens, a blacksmith, was charged with driving a motor car while under the influence of liquor. Owens had received a black eye, but could give no information as to how it was obtained. He was fined \$200 and costs.

David Atkinson, 32 Wellesley street, was let out till next Monday on \$1000 bail. He is charged with stealing auto tires and motor car accessories.

F. B. Curry, 3478 Yonge street, paid \$7.25 and J. Magee of Islington, paid \$9.25 for exceeding the speed limit.

ALL ACTIVE DUTY MEN GO TO C.E.F.

New Order-in-Council So Classes All Soldiers Serving in Canada.

All soldiers on active duty in Canada are to be classed as Canadian expeditionary force troops. Word that Ottawa had by order-in-council made this change was received at Toronto military headquarters yesterday afternoon. The order states that officers and men on pay in Canada during the present war, who belong to the permanent active militia or who are attached to the headquarters staff, or to the staff of a military district, shall be officers and men of the Canadian expeditionary force, and shall be continuously subject to military law. They shall, while their services continue to be required in the C.E.F., hold therein temporarily, as from the date of their last appointment or promotion, the ranks which they now have or may from time to time be granted therein. In most instances the regulations for the pay, allowances and pensions of the C.E.F. shall be applicable and shall govern any claims for pensions not heretofore disposed of.

"Any officer of the C.E.F.," explains the new order, "may, with his consent, be seconded, who is a man of such force may, with his consent, be transferred to the Royal Rifles Force and any officer or man of the latter force may, if his services are no longer required therein, be transferred to the C.E.F. with his consent, if he is not within any class called out under the M.S.A. 1917, or without his consent if he is within any such class."

Instructions in full have not been received from Ottawa as to the absorbing by the C.E.F. of the non-permanent active militia, but yesterday's communication stated that these instructions "will shortly be issued with regard to each class of the C.E.F. It would appear that one of the chief points in the additional instructions will be provision for men of the non-permanent active militia on active duty being specially attested on becoming C.E.F. members."

FRICION REDUCING MOTOR OIL

"Makes a good car better"

For Transmission & Differential Gears

ON the frictionless operation of the transmission and differential gears—correct lubrication, perfect meshing and freedom from wear—depends the delivery of full power from engine to axle. Correct motor lubrication is alone of equal importance.

For every lubrication purpose from engine to axle there is a Polarine Oil or Grease of correct body and lubricating quality that insures the generation and delivery of maximum power with minimum wear.

POLARINE TRANSMISSION OIL

Will follow, cost, cushion and thoroughly lubricate transmission and differential gears and allow them to engage and operate easily.

It is a heavy, dark, fluid oil for transmission and differential lubrication, especially for ball and roller bearing types, as well as for worm gears and timing gears, when separate from the crank case. 1 and 4 gal. cases, also barrels and half barrels.

POLARINE TRANSMISSION LUBRICANT "BB"

Is a light colored, soft, spongy grease, carefully manufactured, free from all particles of insoluble and non-lubricating matter, suitable for the lubrication of transmissions and differentials where a fibrous grease is required. 5-10-25 and 50 lb. tins, half barrels and barrels.

POLARINE CUP GREASE

Is a smooth, light colored, medium bodied grease, free from all particles of insoluble and non-lubricating matter, suitable for packing wheels, steering gear housing, transmission, differentials, universal joints and grease cups in automobiles. 1-5-10-25 and 50 lb. tins, barrels and half barrels.

Polarine and Polarine Heavy, for cylinder lubrication are supplied in sealed cases of ½, 1 and 4 gallons: also in 12½ gal. steel kegs, barrels and half barrels.

Buy Polarine Oils and Greases where you buy Premier Gasoline—at the Sign of the "Red Ball."

Write to us at Room 704 Imperial Oil Bldg., Toronto, for interesting booklet on Polarine for Automobile Lubrication
