Famous for Fine Carpets

KAY'S

## New Arrivals in Fine Axminsters

We have passed into stock another large shipment of Carpets just received from the celebrated makers, James Temp eton & Co. of Glasgow. Included in the consignment is a line of Axminsters in our famous heavy "Albert" and "Victorian" qualities. Rich. carpets of a deep pile that sinks under one's tread only to rise again without a mark to show the pressure-a sure indication of the highest quality.

In looking them over you will not fail to note how different these carpets are from the kinds to be seen in other stores. Note, for example, this Albert Axminster, in soft illuminating green, with a simple grille design of a darker shade, and this new art pattern on a background of the same lovely green, the eff-ct of which is heightened by touches of Spanish brown here and there in the design.

Observe, too, these Victorian Axminsters in Rose du Barry, light blue and light green-exquisite creations in the Louis XIV style destined for some dainty boudoir or drawing room.

We invite your critical inspection of these and the host of other new designs which constitute our fall im-

Although quotations are materially higher at the factories we have made no advance on the low prices we asked for these qualities last year.

"Regulars" retain the name "Inter-State Commerce Law League."

The anti elected N. W. McLeod of St. Louis, president of its association, and selected an executive board of vice-presidents from the different states represented. The purposes of the Federal Rate Regulation Association, as outlined by President McLeod, are similar to those of the Inter-State Commerce Law League. Mr. McLeod as authorized was empowered to select a board of twelve delegates at large to formulate bylaws and rules of the association.

The "regular" convention to-day adopted resolutions endorsing President Roosevelt's plan for federal regulation of freight rates by enlarging the powers of the Inter-State Commerce Commission.
