

You Want an Absolutely Sure Investment

The investment that we have to offer you has passed beyond the experimental stage.

It is a copper refinery, refining copper equal in purity to the very best product on the market.

And the supervision of this refinery is looked after by our principals, Mr. L. Sapery and Mr. H. Sapery, owners of the Syracuse Smelting Works.

Men who have spent years in experimenting and perfecting new methods for refining metals.

And ours is the only copper refinery in Canada.

But you can participate in the profits from this refinery by buying shares in the Montreal Copper Co., Ltd.

They sell for \$100 each and last year yielded over 17-2-3 per cent.

This proposition is open to investigation at any time.

If you are in the city, telephone Main 1813, and we will make an appointment to meet you.

Or, write for our booklet—it contains interesting facts about copper.

ASPHALT PLANT FOR CITY WILL COST ABOUT \$200,000

Works Committee Recommend to Council That Plant Be Purchased—City Hall Notes.

The city will buy an asphalt repair plant at a cost of \$200,000 if the recommendation of the works committee is endorsed by the council. Engineer Rust didn't like Ald. Dunn's statement that the inspectors had not done their duty. He said asphalt pavements had to be resurfaced every 10 or 12 years. Ald. O'Brien favored having an asphalt repair plant. The city had a chance to get one at half cost. Ald. Geary said it would cost about \$15,000, but the engineer favored going \$50,000 better, and getting a stationary plant.

The Catharine-street extension was up again in the works committee, and this time it was referred to the court of revision. Since-street will be temporarily repaired before the royal visit. Strachan-avenue will also be put in better shape. The whole cost \$300. Royce-avenue and Leslie-street are to be repaired at a cost of \$250 each.

There was another influential deputations of east-end business men impressed upon the committee the necessity of switching facilities into the district of Ashbridge's Bay. It was shown that an immense amount of business is being done. The estimated cost of the switch was \$48,000, which it was demonstrated could be made a profitable investment by charging a 2 rate per each car shunted over the line. The discussion ended in the chairman agreeing to communicate with the Grand Trunk Railway to see if the company would not undertake to building the switch.

Stratford Happenings.

Stratford, April 12.—(Special.)—Dr. Beattie Nesbitt was here to-day with an official of the Crown Bank of Toronto, and looked over the property of the Dominion Thread Mills, Limited, along with Contractor Young. Dr. Nesbitt said that work here would be proceeded with and he hoped that everything would soon be in running order.

Settlement was made in the case of the Avon Knitting Co. v. W. C. Orr of Gordon & Orr, Stratford, in the county court. The company claimed that the drygoods firm had been selling certain goods of inferior quality at 45 cents, represented as goods manufactured by them which sold for 50 cents.

The Stratford power delegation is well pleased with the result of the Toronto interview.

MILLION LOST BY GAMBLING.

Remarkable Career of Young Austrian.

A great sensation has been caused in Vienna by the announcement that the millionaire Baron Hermann Knigswarter, who has recently returned to his native land, has lost a million dollars in a mere matter of days.

Baron Hermann was, after the death, in 1891, of his father, the famous Baron Moritz Knigswarter, probably the richest young man in the monarchy, and the head of the greatest Jewish millionaire house of the Rothschilds.

He is only the second son, says the Vienna correspondent of the London Daily Express, but as his elder brother was cut off with a comparatively small fortune for having married an actress, he is the bulk of the property, consisting chiefly of estates in Bohemia, Moravia and Hungary, and estimated at about one and a quarter million sterling.

Baron Hermann began at once to lead an extravagant life, hoping by spending freely to make his way in the Austrian aristocratic society. He entertained magnificently, formed a picture gallery, and kept the largest racing stable in the monarchy.

His colors were to be seen at all the meetings, and he twice won the Austrian Derby. He betted heavily on his horses, and even lost immense sums in gambling in the casinos.

But the Austrian aristocracy is the most exacting in the world, and the wealth and power of the Rothschilds, who were his family, were not so far from him as he supposed. He was, in fact, a very poor man, and he was, in fact, a very poor man.

His marriage with Frau von Draskowitz, a woman of fortune, was a mistake, and he was, in fact, a very poor man.

To please his wife he abandoned the title of Baron, and became a Roman Catholic. He was, in fact, a very poor man.

He was, in fact, a very poor man, and he was, in fact, a very poor man.
