COBALT---The Toronto Market for Mining Shares is Demoralized---COBALT

Port Hope | an Ret More people would drink the ale they need to build them up if they knew of ale as good and as honest as this Port Hope Pale Ale, —brewed in the oldtime way, made of pure things, kept pure and thoroughly ripened. Drink a bottle of Port Hope Pale Ale with your dinner—don't chill your dinner—don't chill the ale too much—and you'llget a new zest for your food — and new power to digest it. Pert Hope Pale Ale is just as good as good ale can be, —made of Canada malt, Kent hops and Highland Spring water, —makes blood, builds the body.

Government house declines to believe that His Excellency Earl Grey was mixed up in the runaway accident Saturday evening. They knew nothing of the occurrence until it was reported in the papers yes terday. Verral, the livery man, also says it was not the governor-general, while P. C. Umbach is possitive that it was. He was off duty three days guarding Earl Grey at "Glen Stewart" and says, further, that the notable in Saturday's occurrence practically admitted his identity.

NIPISSING MINES

Continued From Page 1.

would not buy Nipissing stock even if Austu Aeuom sij Sujiqnop jo ams sem ij times. It would not take the chance of a false interpretation being put on its

The impression gains, however, that an organized attempt to bear the market has been undertaken. The government, however, is not going to lend itself to any stock-jobbing arrangement by the discussion of the rumors and gossip about any company before the public.

"Every case will be dealt with on is merits," is the principle the government has laid down, and Premier Whitney frequently enunciated. This does not imply that any cases have to be dealt with, but if any persons have any bona-fide enquiry or question, it will be taken up and dealt with when submitted.

Premier Whitney's Statement. Premier Whitney said to The World

"We gave out a statement to-day with regard to the Nipissing Mine and we have nothing more to say on that

"Any suggestion or question in regard to mining claims will be dealt with as brought forward, but it is impossible for us to make any statement about matters not brought to our at-

"When anything is brought to our attention we will have something to say about it, but we cannot notice the say about it, but we cannot notice the irresponsible gossip of the street."

The question of the stability of the title of Ontario mines has been raised by Americans unfamiliar with our law, and to the man on the street who will not take the pains to secure accurate information at the proper source a telief in such rumors may prove very costly. There appears to be no doubt whatever that the report about an insecure title to the Nipissing property was made out of whole cloth with an object best known to the manufacturer. Other expedients, it is definitely stated, will be resorted to if necessary to reduce the price—which is quite different from the value—of shares in the market.

"You will see Nipissing at \$10," said

Family trade supplied on receipt of telephone order to: T. W. Cowley, Main 1980, 192 Queen-street East; K. Davis, North 89, 601 Yonge-street; W. J. Donley, North 1641, 205 Parliament-street; T. K. Haffer, Main 2195, 216 Wilton-avenue; W. K. Hill, Main 452, 250 Queen-street West; E. Field, North 714, 207 Wellesley-street.

BACK TO COAL MINES.

Boys' Strike Ended After Public Had Suffered Ten Days.

NS Dec. 3.—(Special.)—

NS Dec. 3.—(Special.)—

To Induence Tenders.

There is a strong impression abroat There is a strong impression abroat a strong impressio

be raised to fulfil the conditions. Americans have always plenty of mone; at command, and the deduction is that the valuable Cobalt Lake will pass out of Canadian ownership.

Canadian ownership.

Canadians are only interested in very rich mines, and are not willing to invest their money in the development of low-grade ore mines. There is low-grade ore enough in Ontario to enable an output outrivaling the Rand in gold in twenty years for now provided capital be encouraged. The question of security of title and the possible handicap of royalties it is urged arises here again to obstruct the entrance of sufficient capital to develop this phase of mining industry which requires very large outlay, expensive machinery, and satisfaction with reasonable profits. In this command, and the deduction is that the value of the mine is based is absolutely large. Ottawa. Dec 3 (Speedel) Picture of the mine is passible to the salaries and one interviewed yesterday admitted that Senator Ulrey yesterday admitted that Senato pensive machinery, and satisfaction

the opposition on such a question.

American speculators, however, are making use of these rumors to work the stock market. It is only a short time since a New York firm came to Toronto and declared they were going to attack a certain title and entered an application for a fiat. This was extensively telegraphed about the country, but that was all. Nothing more was done. It is practically impossible to save the public from its tendency to stampede, but wise men will buy and sell on knowledge, an interest of new time.

The new silver tract in the Tema-gami forest reserve, north of Lady Evelyn Lake, is well reported on, and the cobalt, who is in the city on a brief business trip, was asked this morning what they think of Right of Way up there. "It is looked upon in Cobalt as a good proposition," he replied, "but is not nearly so favorably viewed there as in Ottawa. We are not paying any \$12 a share for it."

NOT SETTLED YET.

Montreal, Dec. 3.—(Special.)—New development work is going on as usual, gotiations which have been going on a susual, and something very like suspicion. An experienced mining man from Cobalt, who is in the city on a brief business trip, was asked this morning what the cobalt veins are compared with the best.

Peterson Lake has been lowered 15 feet, with the result of clearing fifty and the cobalt veins are compared with the best.

Peterson Lake has been lowered 15 feet, with the result of clearing fifty and the cobalt veins are compared with the best.
