NORTH TORONTO COUNCIL. Complaint Against Metropolitan Railway-No High School.

NORTH TORONTO, Aug. 19 .- The town council met to-night. Councillor Brown asked by what right the Metropolitan Railway Co. can extend and widen the Davisville switch. Councilfor Murphy stated that the new switch is 200 feet longer than the old one. Councillor Lawrence suggested that it would be a wise policy to engage the shrewdest lawyer that could be got to look into the affair, which was finally left in the hands of Mayor Fisher councillors Brown and Brownlee. Councillor Brown stated that the council was censured for the placing of the smallpox tent to where it is now. Councillor Lawresce explained that he rented the lot from the owner by promising him remission of taxes. The motion passed by the joint meeting of the town council and school board re the establishing of a high school in town at once, was discussed at some length, when it was finally decided not to start the high school this season for monetary reasons. Councillor Lawrence stated that the council should take definite action as to the undue waste of water, as the lawn sprinklers are going outside of he specified hours. Have you joined yet? Join to-morrow. The plan is one we take to increase business during August. That is all the extra profit we ask. It costs you no more to be a member of this club from first to last than it does to be a cash customer. You have all the convenience of a charge account at this store absolutely free.

We offer 500 houseowners the privilege of deferred payments spread over the balance of the year, for any housefurnishing goods bought in this store from now until the end of August. We limit the accounts to a total minimum of \$25.00-that is to say we expect members to take that quantity of goods at least before the 31st. That's the only limit and there is nothing more or less to the plan than this.
