Cornelius Woelkin of Brooklyn again ush-Already Europe dreads the flood of Yan- ered in the day's work. Auditoriums Eukee manufacturers that is beginning to pour deavor and Williston were then used for down upon it, and with America operating two big railies in the morning, which were its own ships the situation will be much devoted to a discussion of the twentieth

to realize the Kaiser's trade dreams, and wishes to occupy the world's great natural steamship routes before the United States has a chance to do so.

Herr Ballin proposes to make San Francisco the terminus of the Hamburg-Annerican boats. The present terminus is Hong Kong. The extension means that cargoes can be accepted at Hamburg and intermediate points via Suez for tike west coast of America. The ultimate success of the project depends on the Garman's ability to effect strong transcontinental connections in the United States, which will give them an unbroken service around the world.

NEW FACTORY FOR SWANSEA.

Big Concern to Be Started Near Toronto at an Early Date.

Swansea, July 10.—This suburb is shortly to have a new manufacturing concern. The property upon which it is to be built is the site of the old Ontario roller mills, comprising 10 acres opposite the factory of the Swansea Forging Company. The company, which is a chartered one, is named "The Ditzel Metal Company," with a directorate consisting of P. H. Burtell, president of the Merchants' Dyeing and Finishing Co.; R. M. Bertram, vice-president of the Merchants' Dyeing and Finishing Co.; R. M. Bertram, vice-president of the Merchants' Dyeing and Finishing Co.; R. M. Bertram, vice-president of the Bertram Engine Works; W. K. George, managing director of the Standard Silver Co.; L. V. Dusseau, secretary-treative of the Gondron Manufacturing Co.

KISSED THE PRETTY NURSE.

W. A. Mitchell of Todhunter & Mitchell, and L. J. Cosgrave, president of the Cosgrave Brewing Co. It is proposed to erect a brick structure 200 feet by 60 feet, with iron roof, and when completed between 50 and 60 hands will be employed. It is computed that the company will manufacture 1000 tons of refined metal annually.

The business of the Dizel Metal Co. Is new to Canada. At present \$200,000 annually goes out of the country in the purchase of rolled copper, brass, silver, etc. This company proposes to make all rolled metals known to the trade, and will also make Ditzel silver, which is a comparatively new metal that can be put to many uses.

The plant for the machinery have been disciplined by the Medical Board, and his dismissal recommended to the Board of Managers, the charge against him being that he kissed one of the young and pretty nurses connected with the institution. The supervisor of nurses of the hospital is a Canadian, Miss Pritchard, and Dr. Reuss would never have walked

chronicled, both in medical and lay jour nals, of cases of sudden recovery GRAND TRUNK YARDMAN KILLED

Rare Emeralds.

One of the prettiest combinations that we show in Ladies' Rings is the EMERALD and DIAMONDS.

Just now we have some exceptionally fine ones_the EMERALDS are from some very rare parcels recently selected in Europe, and are of that soft velvety appearance so much coveted by connoisseurs.

As usual with our rings the DIAMONDS are of excellent color and entirely free from flaws.

Not only are these rings attractive, but the prices, too, are equally inviting.

Ryrie Bros., Corner Yonge and Adelaide Streets

A unique profession has been started in the city. It may be called that of the business doctor. He is a man who goes to business houses and is allowed to examine the working of the machine. He fluds out, for example, how the letters are opened and distributed, how orders are executed, how many people are employed, what is the exact nature of the work they do, what are the wages they are receiving, and so on.

CHAS. S. JOHNSON,

Prop. The New Gruener Hotel,

Buffalo, N.Y.

WRITE AND ENGAGE ROOMS

from Mrs. Hugh Devereux,

what are the wages they are received, and so on.

In the case of a large concern he may need a week to get full possession of the facts, and he charges at least \$50 a day for his work. When he has completed his investigations he draws up a report and adds to it a number of practical suggestions. His object is to prevent waste, and Insurance Co., who has just returned from Europe, has been making a study of French elections will the clify on Tuesday, and was living at the residence of his uncle, Albert Lock High School at Kincardine last term, while closed recently, and in while institution of working at J. A. Austin's drug store, he had passed his matriculation examinations. He came here with the intention of working at J. A. Austin's drug store, last the constant tendency will be taken to Tiverton, and at while the intention of working at J. A. Austin's drug store, he had also been untiring in the remove will take place to horrow.

RADIAL RAILWAYS.

** ner his own letters, so that when he came down to business he might deal with them immediately. This recommendation was adopted, and is found to work very well, and to save, as it was intended, a great deal of precious time.

He also advised the rearrangement of the divise of the assistants.

Big Vaudeville Show

commendations on these points were adopted, and the result is that the firm is now getting its work done at a lower cost than heretofore. Waste has been considerably checked, and efficiency has been proportionately increased.

The business doctor earnestly advocates good payment to really efficient people, and would have the test of efficiency stringently applied year after year. He condemns strongly the practice of automatical ing salarlae.

BILLIARD - TABLES

We are the only manufacturers on this continent who make English Tables in accordance with specifications and templates issued by the Billiard Association of Great Britain and Ireland, fitted with invisible steel cushion rails, mounted with the latest improved extra low and quick cushions.
