FIRE INSURANCE MEN ARE NOT WORRIED BY THREAT

Local Agents Included in Ottawa Free tates for a new dynamo with which Press Proceedings Explain the Situation.

Underwriters' Association is no more regular 3 cent per mile fare should be

the business community at large than that fair rates of insurance should be at one of the turrets of the warship charged. If they were not the companies could not live. The idea seems to have gone abroad that the insurance companies are making a great deal of money. This is incorrect. One of the leading companies, which used to pay a dividend of 14 per cent., now pays only 6 per cent., while its stock sells at 90, instead of 230. Six per cent. is not enough for any insurance company simply because of the imase amount of hazard there is in the

Must Take All Risks. Fire insurance business is a sort of

high-priced gambling. Of course, there are some small companies with shrewd management, which make money by confining themselves to the very highest class of risks. They would not take a factory, or what might be termed an ordinary risk. But is it not neccessary for the safety of the business community that every factory or business should be insured? Who is going to pay the losses if it should be burned up. if the insurance companies do not? The creditors, no doubt. Is it not, therefore, in the best interests of the community that he insurance companies should be able to make a fair return on their investment, the same as everybody else?

RIVAL TO QUACKENBUSH.

Syracuse, N.Y., Aug. 18.—Albert E. Foster, sentenced at Pulaski to the On-ondaga County Penitentiary for petit larceny, jumped from a train near Central Square to-day and escaped. The train was moving at the rate of 30 miles an hour, and Foster was hand-cuffed. He lay beside the tracks for a few minutes, apparently unconscious. When the train had stopped and the deputy sheriff got back, however, Foster was gone. He was caught later with a broken shoulder blade.

CARBOLIC

I CAN CURE YOU.

Give me a man broken down from dissipation, hard work or worry, from any cause which has sapped his vitality. Let him follow my advice for three months and I will make him as vigorous in every res-

pect as any man of his age. I will not promise to make a Hercules of a man who was never intended by nature to be strong and sturdy. Even that man I can make better than he is; but the man who has been strong and has lost his strength I can make as good as he ever was. I can give back to any man what he has lost by abuse of the laws

A man who is nervous, whose brain and body are weak, who sleeps badly, awakes more tired than when he went to bed, who is easily discouraged, inclined to brood over imaginary troubles, who has lost ambition and energy to tackle hard problems, lacks the animal electricity which the Dr. McLaughlin Electrict Belt supplies.

The whole force of vitality in your body is dependent upon your animal electricity. When you lose that in any manner my Belt will
