LONDON FIRMS HAVE SUFFERED LOSSES IN SUBMARINE WARFARE

One Had \$7,000 Worth of Goods Sunk.

OTHERS ESCAPE LIGHTLY

Trade With Britain in Many Lines Has Been Decreased.

Submarine activities are responsible for heavy losses to London wholesale merchants. Either directly or indirectly every large for the control of the contro merchants. Either directly or indirectly every large firm has, at some time, suffered from the deep sea menace.

Of about a dozen merchants interviewed by The Advertiser, R. C. Struthers & Co. report the most frequent and valuable losses. The sinking of the Lake Michigan, the Medora and Carthaginian meant destruction of consignments to the value of approximately \$\frac{37}{100}\$ for this one firm alone. The last loss occurred about two months ago.

Robinson, Little & Co., and Mc-Mahen & Grainger have been more for-Robinson, Little & Co., and Mc-Mahen & Grainger have been more fortunate. The latter suffered early in the war when the Hesperian went down, but regular weekly shipments from England have come through safely since. The former have the same good luck to report, their last loss being involved with the Medora.

The management of the Middlesor.

Mills Were Losers.

The management of the Middlesex Mills states that through the sinking of consignments booked to the manufacturers from whom it buys, its work was held up to a large extent during the month of June and caused a great shortage of certain materials till goods could be replaced. Naturally, the output was onsiderably less for some time. In June 1997, we want to be a support of the control of t replaced. Naturally, the output was asiderably less for some time. In June done three ships were reported sunk which had on board materials for this ocal factory. In some cases ships with locuments went down and the goods documents went down and the goods came safely through.

Dickison, Nicholson & Co., John Marshall & Co., and Wright Sons & Co., all report that their losses have been nil, owing largely to the fact that they have imported little from Europe during the last few years. They have had to resort to heavier dealing in Canadian and American trade. The first-named firm recently received a shipment of velvet cently received a shipment of velvet

Grocers Escape. Wholesale grocers, according to advice from Masuret & Co. and Edward Adams & Co., have practically cut off their trade with Great Britain, owing to the difficulty of obtaining the goods they need. Increased trade locally and with the United States has been the result

All merchants state that instead of taking raw material to the factories of Freat Britain, ships are now carrying food and munitions. This fact, toether with enormously increased freight rates and war insurance, because of the submarine risk, accounts for a vast diminution in overseas trade for London merchants.

CHARGE OF ANZACS AND CANUCKS

LONDON, Aug. 28.—The Australians have reached the line

of Fresnes-Herbecourt, according to Field Marshal Haig's report from British headquarters tonight, but have met with much opposition in their efforts to reach the crossings of the Somme River GOMPERS TO AID at Brie and Peronne. The Canadians, after severe fighting, drove the enemy from

several strongly-defended localities and trench systems and captured the villages of Boiry-Notre-Dame and Pelves

CATIGNY SURROUNDED BY FRENCH WITH GERMANS FIGHTING HARD Arrival of Noted U. S. Leader With the French Army in France, Aug. 28.—Throughout the day the French troops pressed the enemy vigorously. They have reached the left bank of the somme from Cizancourt to east of Nesle, a distance of about five miles. Sev

eral hundred prisoners were taken today. From east of Nesle the fighting front follows the course of the Canal du Nord to Catigny, and then southward to Noyon. Catigny is surrounded on three sides, but houses transformed into blockhouses and bristling with machine guns are holding up the French for the moment. The enemy also is holding fast on the heights east of Catigny. There is very severe fighting at many places.

AMERICANS GAIN AT BAZOCHES BUT HUNS RETANE FISMETTE

American Army on the Vesie, Aug. 29.—American and German troops were engaged in spirited actions today in the regions of Bazoches and fisher. According to the latest report the fighting continues at both passing at Bazoches, while the Germans had recaptured Fismette, on the north bank of the Vesie opposite Fismes. The fighting has been marked by much stubbornness. Several days ago when the Americans advanced in the region of Bazoches, the Germans retired into a wooded stronghold, known as Haute Malson, just south of the Soissons-Rhelms road. Small detachments were left in the cellars in Bazoches to harass the Americans approaches from the west and maintained their advance during the night. Today the Americans made progress toward the town from the east and south, a descendent taking the eastern outskirts this morning. Since then they have made

tachment taking the eastern outskirts this morning. Since then they have made further progress.

Fismette had been held by the Americans since August 8, despite German efforts to dislodge them at various times. To gain this bridgehead the Americans crossed the Vesic in fierce fighting. For three days and nights after the enemy had been driven from the village the Americans were without food or relations. The Germans maintained their position on the high roads. The Americans erected temporary bridges across the river at night time.

IN FRAMING NEW POLICY FOR LABOR

In England Regarded As Important.

London, Aug. 29 .- The arrival in England of Samuel Gompers, president of the American Federation of Labor, is an event of considerable importance, the Morning Post says.

"The name of Gompers," it adds, "is one to conjure with in the United States.
