POSSESS GOOD HEALTH BY LOOKING AFTER

A free motion of the bowels, once or twice a day, should be the rule of every-one, as half the ills of life are caused by allowing the bowels to get into constipated condition.

When the bowels are allowed to become constinated the stomach pets out work properly on account of holding back the bile, so that it does not pass through the bowels, but is allowed to get into the blood, thus causing a poising of the whole system.

If you would escape constipation, sick and bilious headaches, heartburn, floating specks before the eyes, coated tongue, foul breath; the nasty irritating, bleeding, itching and protruding piles, you should keep your liver stirred up by the use of Milburn's Laxa-Liver

Pills.

These pills, being purely vegetable, keep your liver working actively, helping it to resume its proper functions, and thereby removing the bile that is circulating in the blood and poisoning the whole system. Mrs. H. Barrows, Enfield, N. S. writes: "I was troubled with such head-
