

# In All the World

Canada is the land of good furs—the northern wilds supply half the superb pelts used in high-class garments in the entire civilized world.

Furs are naturally cheaper in Canada than elsewhere, and being the home the quality is always superior.

We are Canada's greatest furriers. Our large showrooms contain to-day every new Parisian style in all the best of Canadian and foreign skins.

Mink, Seal, Persian Lamb, Ermine, Alaska Sable, Hudson Bay Sable, Russian Sable, Bear, Fox, Etc.

## PIES AND ALL ABOUT THEM

Continued From Page 1.

stance, all pies are divided into two classes, the milk pie and the fruit pie. The former class includes pumpkin, custard, squash, and the fruit pie, raisin, blueberry, strawberry, currant, etc., according to the season. When pumpkins are not ready for the market the pie maker has recourse to the canned variety. Eggs, milk, spices, flour and lard are other ingredients of a milk pie. A custard pie costs, The World learned, 10 cents for what goes into it, not counting the labor and the fuel consumed. A real raisin pie costs more, but it seems there are two kinds of raisin pies. The other kind is composed of a sprinkling of raisins boiled, and added to a generous portion of custard, which makes a glutinous mass. Cinnamon in place of lard makes the pie still cheaper.

Some of the restaurateurs interviewed also pointed out the distinction between the lemon pie served at the best cafes and the skimpy article put up by the hundreds and sold by wholesale to the cheap restaurants at 10 cents. The 10 cent lemon pie is minus the meringue covering. The meringue is a fluffy substance produced by beating the whites of eggs.

When blueberries or cherries or raspberries are in season pies made with a filling of these fruits are not so expensive as raisin or lemon pies. Of course a great deal depends on the quantity of fresh fruit used. A quart of blueberries or raspberries will go much farther than the same quantity of cherries, but generally speaking a quart of blueberries at 10 cents wholesale will be equivalent to three pies. The pie most used to make a profit is the pie of cherries, which is made up nearly a quart of berries to the pie, but the patron of the lunch counter hardly expects a generous portion. A quart of cherries, when being stoned, will fill two pies. This allows, then, 3 cents for the fruit, to which must be added the lard or custard and the other ingredients. A man (on a square cut pie, or a pie cut square) would be able to discern the diminutiveness of a piece of pie. The peace of the world would hang on a square pie being cut into proper sections.

The pie business is a serious matter, Mr. Editor. The pie will soon be so microscopic that Jack Horner won't be able to get his thumb into it. Keep up the good work.

An Outraged Citizen.

**APPROCIATION.**  
I heard a piker grouchin' yesterday 'Cause they was shy on beauty in this town. I guess they never watched the sun go down Strikin' some high white buildin' on its way. Just like a realer spotlight in a play, An' leavin' all the rest a deep, dark brown. With big black shadows hangin' all around. Just servin' notice Night had come to stay. That rummy owns a bang-up auto car. His house is like a mansion in the skies, An' he was puffin' at a big cigar. You'd think a guy like him could use his eyes. An' kind of frame things up the way they are. He shouldn't need a kid to put him wise, From Sour Sonnets of a surehead, by James P. Haverson.

**WORTH A TRIAL.**  
Cyrus Brady, the author and clergyman, told at a dinner story about charity.

"A millionaire," said Dr. Brady, "lay dying. He had lived a life of which, as he now looked back on it, he felt none too proud. To the minister at his bedside he muttered weakly: 'If I leave a thousand or so to the church will my salvation be assured?'"

"The minister answered cautiously: 'I wouldn't like to be positive, but it's well worth tryin'.'"—Pick Me Up.

Mary Doyle of Mount Forest was arrested yesterday for shoplifting in one of the big stores.

**BOARDING HOUSES AND QUARTER-SECTION PIE.**

Editor World: You don't know how much trouble you have caused in my place since your article came out this morning about pies. I supply meals to 46 meaters, including 10 who lodge

**SIR ROBERT BURNETT'S D.G.I.N.**

## York County and Suburbs

World subscribers in the City of West Toronto are requested to register complaints of carelessness or late delivery at The World Branch Office, 22 Dundas-street East, West Toronto, or The World Office, 83 Yonge-street, Toronto. Intending advertisers may also transact business at the West Toronto Office.

## WEST TORONTO PINS FAITH TO HYDRO-ELECTRIC

Council Turns Down Private-Owned Power—York Township Council Hold Session.

WEST TORONTO, July 20.—Several residents of this city who want cement sidewalks in front of their homes have been making complaints about the apathy of the council in getting the work under way. As a matter of fact, however, there is a matter not presented the necessary petition to the council. To carry on the work the necessary formalities are completed the board of works will commence the desired improvements without delay.

The unexpected has happened, and building operations on the new fire hall will commence, at least, in fact, the shed guarding the entrance to the police station has already been removed. The hook and ladder house will be moved down to the city's lot on North Keele-street.

Miss Annie Elizabeth Fudge, only daughter of Mrs. George Carberry, 370 Symington-avenue, Toronto, died this afternoon in the Western Hospital of typhoid-pneumonia. The funeral service will take place at her late residence on Wednesday evening at 8 o'clock. The remains will be taken by the C.E.R. on Thursday morning at 8.30 to Ingledew, where interment will take place.

Dr. Mastey, corner of May and Annette-street, has returned home tonight from the private hospital on Isabella-street, where he has been confined for several weeks suffering from typhoid fever.

"I move that this bylaw be not entertained at all," was Ald. Sheppard's opening remark in the council meeting to-night, when a communication was read from the Toronto-Niagara Power Company asking for a 25 year agreement with the City of West Toronto to supply light and power.

"I don't like the unscrupulous way in which the company's representatives tried to force this thing thru at the last council meeting," continued Ald. Sheppard. "Mr. Montgomery, on behalf of the company, stated then that he had been authorized by the firm of Heintzman & Co. to say that they were in favor of Niagara power, whereas Mr. Heintzman states emphatically that he has always favored the hydro-electric power commission."

Ald. Howell, the mayor, told me that the Niagara Power Company's representatives have at different times run him up over the telephone, urging an agreement with the company or they would advertise in the papers. "I don't know what this means," continued Ald. Howell, "but it is evidently meant for the company or they would advertise in the papers."

"You know what these companies are doing all over the country," said Ald. Sheppard. "Take, for example, the Niagara Power Company in Hamilton. Council will pay \$2000 for the site of the Carnegie library."

**NORTH TORONTO.**  
Auditor Hadn't Studied Up Time Schedule Very Well.

**NORTH TORONTO, July 20.**—Excavation of the new sewer is being carried on at 200 feet to his already existing conservatories on Kensington-avenue.

The funeral of the late Miss Grace Elise Holland, youngest daughter of Mr. and Mrs. W. H. Holland of Heath-street, Deer Park, whose tragic death from drowning took place last Thursday at Kirk's Ferry, Que., took place this afternoon to Christ church, Deer Park, thence to Prospect Cemetery, Rev. T. W. Peterson officiating.

Assistant Constable Longstreet summoned H. H. Ball and J. C. Child of Davisville to appear in the county court this afternoon for using the town's water on their lawns during prohibited hours. Both defendants amended waterworks hours. Magistrate's court this afternoon. Magistrate's court this afternoon. Magistrate's court this afternoon.

**READING THE RIOT ACT.**  
From The Dundee Advertiser.

The rioting of the last week, a phrase which has been used constantly by the select committee of the house of commons on the employment of military in cases of disturbances, is a convenient colloquialism but nothing more. As a matter of fact, no magistrate who is about to call upon the soldiers, I should think, ever attempts to read the Statute 1 George I, c. 5, commonly known as the Riot Act of 1715. What he does is to recite the proclamation contained in the act. It runs as follows: "Our Sovereign Lord the King chargeeth and commandeth all persons being assembled immediately to disperse themselves, and peacefully to depart to their habitations or to their lawful business, upon the pains contained in the act made in that behalf, under the great seal of Great Britain, bearing date the 2nd day of August 1715, in the first year of our said King's Majesty King George the Third, for preventing tumultuous and riotous assemblies. God save the King!"

**BREATHING FRUIT.**  
It seems that apples—or fruits of any kind—keep better in cold storage, because there they do not breathe so fast.

Parts of plants that have been cut from the main stem do not die at once, but retain life and continue to breathe for quite a while. This is true of flowers as well as of fruits. Some live much longer than others. An apple, after being picked, will breathe for many weeks.

Breeding in plants or animals causes destruction of matter through cells. Under ordinary conditions this loss is made good by food supplied in the act of eating. But if a plant has been picked is undergoing a process of progressive starvation. It still breathes, with nothing to compensate for the loss. Consequently, it steadily diminishes in weight.

**VIROLENT HAY FEVER.**  
Hay Fever promises this year to be very severe and many are already suffering. The most positive cure is "Catharhosone," which destroys the germ and gives immediate relief. It cures quickly. Sold by all dealers. \$1 for two months' treatment.

**AMERICAN CLOCKS HALF-PRICE**

**WANTLESS AND CO. 168 YONGE ST.**

## CLAREMONT

A Continuation Class Likely to Be Held in the School.

CLAREMONT, July 20.—A meeting of the ratepayers was held in the school here recently, at which the whole question of establishing the much-talked-of continuation class, was discussed. Mr. Hunt occupied the chair, while Inspector Waugh of Whitby was present and gave the facts necessary to the completion of the idea.

It is felt by many that the sending away of the boys and girls to the age when home influences should be strong militates against Claremont's advantages as a residential centre. Some discussion on the ways and means of the revenue took place, and the close majority were spoken in favor of the scheme. A motion commending the idea and instructing the trustees to get all the information possible for a public meeting of the ratepayers on the 29th inst. was unanimously passed.

**HONORED FAMILY HAVE GREAT SOCIAL REUNION.**

NEWMARKET, July 20.—The centenary of the founding of the Dean family was celebrated on Saturday afternoon at the farm of Charles Dean, adjoining the Friends' meeting house on Yonge-street, a little south of Newmarket. The principal guest was Mr. C. E. Lundy, a great-grandson of the founder, Ebenezer Dean, was chairman. Principal Donnelly of the Wesleyan street school, traced the career and genealogy of the family from the beginning of the century to the present time. An excellent paper prepared by C. J. Lundy, a descendant of Ebenezer Dean, dealt with the early pioneers of the settlement. The address of all news pertaining to the early pioneers was read by Mr. Lundy. Sir Amelius Irving and Rev. Frank Cornell spoke briefly.

**DOWNVIEW.**  
DOWNVIEW, July 20.—During the heavy electrical storm of Saturday night, the house of Mr. J. J. Downey was struck by lightning and one end of the building torn out, but without setting fire to it.

The Downview Epworth League will hold a fruit festival on R. Phillips' lawn on Wednesday evening, July 23. The Downview choir and others will assist in the musical program.

**YORK TOWNSHIP COUNCIL.**  
Council Keep Sharp Watch on Boundaries—Engineer McDougall to Act.

**COUNCIL CHAMBER.** July 20.—While accepting in the main the terms of the proposed plan for the proposed annexation district, the members of the council to-day took exception to some of the details which it suggested by the city's plan to leave out. While taking no action with respect to the annexation, the council members are desirous that the boundaries shall be well rounded out, and as far as possible conform to the original plan.

The district which it is desirable to include in the St. Clair territory annexed to the city of Toronto, is situated westerly from the northerly boundary of the city, and easterly from the western limits of the city, and is bounded by the city limits and thence to place of beginning.

The resignation of Engineer Gibson, submitted during the last week, was referred to, but not formally accepted, and pending some definite action by the council, Mr. McDougall will meet in Toronto on Sept. 2nd and 3rd.

Council to-day resided a resolution granted at former meeting allowing Mrs. Stanley to establish a military hospital.

August 3rd is civic holiday and York township council will meet on August 3rd at 8 o'clock.

Reeve George Henry and Deputy Reeves Watson, Barker Nelson and Councillor Jackson were present.

**Mimico Teacher's Estate.**  
Ten shares in the Mimico Gas Co., worth \$1945 and No. 692 Brook-avenue, compose the estate of the late Mrs. Mary Ann Hall, teacher of Mimico. Her husband, John Hall, is the sole beneficiary and executor.

**FOREIGNERS IN UNITED STATES.**  
A Polish View of American Immigration and Institutions.

The following excerpt from a personal letter received by a member of staff of N. Y. Tribune from a professor in the "Politechnika," at Lemberg, Austria, Poland, is of special interest, presenting as it does a Polish view of immigration to America and its effect upon Poland:

We were afraid that the returning masses would cause some misery in our country, and suitable arrangements were made to secure their occupation in private and public works, and give to them wages we can afford. But the situation proved much better—one part of the emigrants had sufficient supply of money for settling again at home, the other part found help from their families, and they intend to go back to the United States later—the rest found employment in various enterprises owing to the official preparations made and to the good industrial conditions of Austria at the time.

The moral and political influence of the sojourn in the United States on our workmen cannot be denied. Every trip to foreign and highly civilized, or even to less developed, countries enlarges the mind and opinions of the people, makes them more provident and cautious, suggests many improvements, and makes them more patriotic of our country may be improved, others cannot be changed, because they are really adapted to our conditions.

Consequently, they become afterward better citizens, who understand the political and social problems, and who try to do something for the country to their own benefit, instead of being only dissatisfied people, not able to help themselves.

We all can learn a lot in the United States. I should wish to send all our young men, all our students and farmers and officers, to visit America,

and stay there at least one or more years. They would see there so many good qualities not developed in our European conditions, as the spirit of intense working, the incomparable spirit of enterprise in every line, the energy, the faculty of correct observation, the resourcefulness, the powerful moral sense, the wonderful executive ability, the American schools and so many other remarkable institutions.

On the other hand, regarding our Polish farmer who wants to try his luck in America and to remain there—we think he is not the worst sort of man you get from the old world—he would like better to keep him here in our native country.

**TRIBUTE.**  
I seen you at de show de other day, An' say you was de thirty-third degree, De bes' ting in dat show shop. I could see.

Dat's how I had it figured anyway. I seen you cryin' when dat dese Jay was zoin' to run de hero in de sea. I bet if you would cry dat way fer me, I'd lick de lobster if it spoiled de play. If you would be a steady pal of mine, There ain't a single thing I wouldn't do. If you would be my girl an' love me true, Den every other sike'd would be a shibe, —From Sour Sonnets of a Surehead, by James P. Haverson.

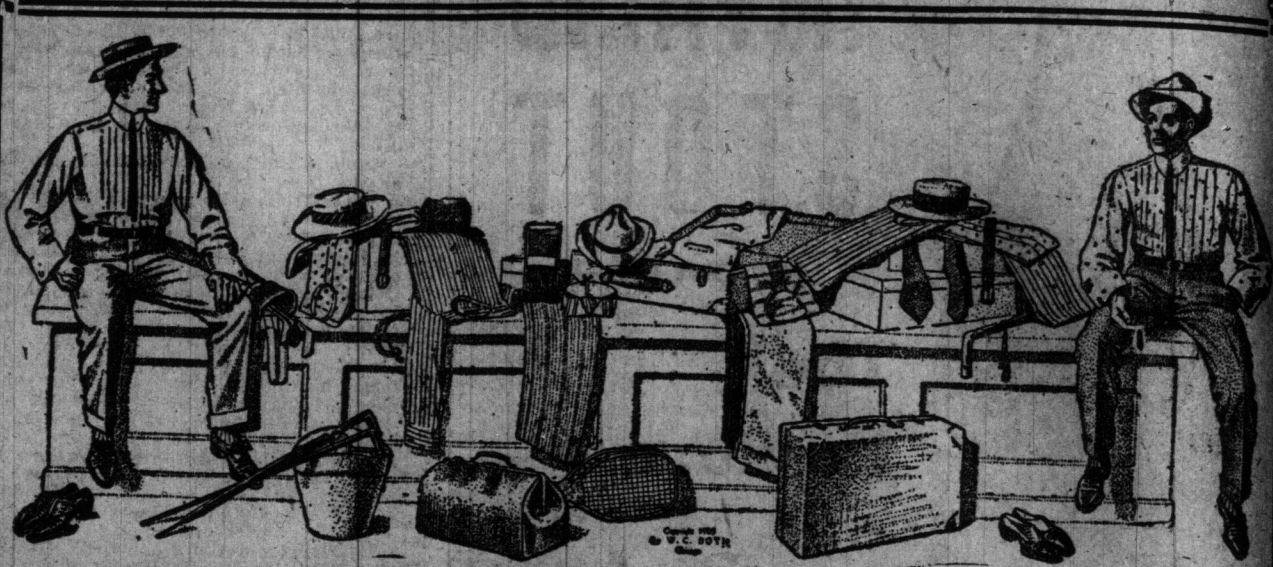

**BREVITIES.**  
Charles March, painter, of Toronto, died in Montreal. He left to wife and daughter, Mary, petitions to administer his estate of \$700 cash. She and her son Carl are the only next of kin.

The Brotherhood of Engineers are holding a national convention at Montreal.

J. M. Poole, alleged false pretences, was yesterday remanded for a week without bail.

The proprietor St. Joseph arrived in port yesterday from Oswego with 500 tons of hard coal for Dickson and Eddy.

# THE ROBERT SIMPSON COMPANY, LIMITED

H. H. Fudger, President; J. Wood, Manager. Tuesday, July 21st.

## Trunks, Suit Cases, Club Bags, \$3.95

The Old Price But New Values WE hold just one Traveling Goods Sale before stocktaking—and that will dispose of everything we have to sell at a reduced price; because this reduced price will create a small sensation in itself. Threety-nine-five is a well known figure in this department, but the oldest inhabitants can't remember it being tacked onto such expensive goods—absolutely new—no weak points—built to stand punishment.

70 Steamer Trunks—regulation steamer sizes—32, 34 and 36-inch; canvas-covered, hardwood slats, brass bumpers, clamps and lock, sheet iron bottom, two outside heavy straps, with inside tray. Regular values \$4.95 to \$8.00. **\$3.95** Wednesday.

50 Tourist Trunks, sizes 32, 34 and 36-inch; hardwood slats, with inside tray and hat box; brass bumpers, clamps and lock, sheet iron bottom, two heavy leather straps outside. Regular values up to \$5.50. **\$3.95** Wednesday.

50 Suit Cases, made of genuine cow hide leather on English steel frame; brass lock and two brass handles, easy to handle, four inside straps, strong linen lined; sizes 24 and 26-inch; colors brown and russet. Regular values up to \$5.50. **\$3.95** Wednesday.

A few, size 22-inch, of this quality **\$3.45**

35 Club Bags, made of cow hide leather and leather-lined, brass fittings and easy handle; sizes 14 and 16-inch. Regular values \$4.25. **\$3.95** Wednesday.

Phone orders filled up to 8.30—See Yonge Street Window—8 o'clock Sharp—Top Floor.

## Look As Closely As You Like

THE closer you inspect these, the more satisfaction you'll give us. There's no quibbling about these regular prices. We have sold suits exactly like these for five, six, seven and eight dollars more than we're asking you to pay to-morrow and you save this amount of actual money. Is there any more worthy way of saving it than by improving your appearance and making everyone glad to greet you?

75 Men's Outing or Summer Suits, the finest grades, in light-weight English flannels; also tropical-weight worsteds and tweeds, light and medium greys, and some tan and brown shades; made in the latest three and two-buttoned single-breasted sack style; 1-4 and some 1-2 lined with mohair; nicely tailored and perfect fitting; among the lot are a few line American suits which are marvels in ready-to-wear garments; sizes 34 to 44. Regular \$15.00, \$16.00, \$17.00, \$18.00. To clear Wednesday at..... \$10.00
