Believed Here Bill at Fredericton Signed in Time To Apply

Common Clerk Sends to Capital For Certified Copy-Election

The adoption of the bill sent up by the city doing away with the dual election for Mayor and commissioners will mean that in that respect the city goes back to conditions which obtained before the commission from the Civic Government was adopted and only one contest will be held.

It is the assumption that the bill will be signed by Lieut. Governor Todd in time to permit it applying to the election of next month.

SENDS FOR COPY

SENDS FOR COPY

H. E. Wardroper, common clerk, said this morning that he had sent to Fredericton for a certified copy of the bill and when that was received he would know just what had been passed by the House. If the bill was adopted as it was sent up by the city, nomination day for Mayor and commissioners would be the first Monday in April and the election would be held one week later, the second Monday in April. The doing away with the second election meant quite a saving to the taxpayers as the explenses for the last cive election were over \$3,000. With one election this expense will practically be cut in half.

Acting Mayor Frink said this morning he did not know just what the next step by the council would be, but he was of the opinion that the council had nothing more to do in the matter except carry out the legislation passed, and this would be looked after by the Common Clerk, who was the returning officer for the city.

FREDERICTON, March 25—The
Provincial Government this morning
received a delegation representative of
the motion picture theatres and the
film exchanges. Moneton, Saint John
and Fredericton were represented.
The delegation registered objection
to any increase in the amusement tax
rate and expressed the opinion that
their rate should remain as it is. The
suggestion was made by the delegation that a general amusement tax
might be levied in place of that now
in force.

MOSCOW, March 25—Russia is developing an insatiable thirst for vodka.
Although the government within the
last six months, more than doubled
its output of vodka, it has been unable
to meet the demands of the population for the national drink.
According to figures announced today, the government will produce 500,000,000 quarts of vodka during the
coming year, which will yield the state
about \$250,000,000 of revenue, or ten
per cent. of the entire budget.
