PIRATES INCREASE LEAD IN NATIONAL

Washington Look Like Winners in The American League Battle.

NEW YORK, Sept. 2.—World series drama beckoned more plainly to Washington and Pittsburgh today. With the Pirates ploughing steadily ahead in the National League, to an advantage of eight full games over the Giants, the Washington Senators paralleled the pace yesterday by striking a body blow at the tumbling Athletics in the American League 7 to 3.

The hard-throwing confident Senators were supported by steady pitching of the veteran Walter Johnson. Although he gave the visitors ten hits, he was almost invincible at crucial periods.

The victory, Washington's fourth in a row, placed the Athletics in a half game in the lead, and added a seventh straight defeat to Philadelphia's losing streak.

Pittsburgh posted its fifth straight victory, beating the Phillies, 10 to 3, with a landslide of 17 hits. Aldridge and Moore made huggers.

After pissing away for several weeks at the door from the cellar, the Boston Braves bounced out with a loud explosion, which carried them all the way to the sixth landing. The victory was a slab triumph for Benton over Alexander, of the Cubs, in a 2 to 0 shutout. Meanwhile the Yankees nosed but the Red Sox in an American League pitching duel between Shawkey and Ehmke, 2 to 1.

NATIONAL LEAGUE

PHILADELPHIA, Sept. 1.—Pittsburgh made it five straight from Philadelphia today, winning the final game of the series 10 to 3. The victory increased the Pirates' lead to eight full games and at the same time sent the Phillies tumbling into the National League cellar. Score: R.H.E. WHAT procedure do umpires now follow in regard to game that are halted by rain? Is there any set rule as to the time a game can be held up when rain or darkness temporarily halts play?

For years there was a time limit of 90 minutes on rainfall. That is, if the umpire suspended play because of rain and at the expiration of 90 minutes the game was still falling, it was up to the umpire to call off the game. Such action was mandatory.

Now the matter of whether play can be continued or not is entirely up to the judgment of the umpire. He is the sole judge as to whether or not resumption of play will be possible.

If at the end of 90 minutes the condition of the grounds is such that he believes further play will be impossible and the rain is still falling, it is within his power to terminate the game.

However, if the ground is well covered, and at the end of 90 minutes the rain is still falling hard, the umpire can delay his judgment as long as he desires, if he believes there is an excellent chance to continue play should the rain subside.

This new rule is an improvement over the set time limitation that for years was in force. Perhaps its best feature is that it makes possible the playing of a game before big crowds, when a strict interpretation of the old rule would force the cancelling of the game.

Since the rule was put into effect I have finished scores of games and saved thousands of dollars that would have otherwise gone into the discard had the game been called off simply because a slight drizzle was falling at the expiration of 90 minutes.

BILLY GROFF WON

Gets a Knockout at Plaster Rock Bout Last Night.

PLASTER ROCK, N. B., Sept. 1.—Billy Groff, of Winnipeg, knocked out Peter St. Pierre, of Van Buren, in the sixth round of a scheduled ten-round bout staged here last night. The fight was full of action all the way.

Three rounds went to Groff and two were declared even. The knockout came about the middle of the sixth round. St. Pierre forced the fighting in the opening round but Groff came back strong and St. Pierre deserves great credit for the punishment he assimilated. The men weighed about a hundred and fifty and St. Pierre one hundred and eighty-five. In a preliminary bout Preston Green defeated Bob Armstrong in four hard rounds. The bouts were witnessed by about two hundred well satisfied fans. The referee was Roy Lewis, of Plaster Rock, while the judges were M. E. Anderson and Mr. Richardson. Leo Dionne officiated as time keeper.

RAIN AND THIRTY-TWO MILE WIND—August Weather Record. Saint John was visited by a thunder and lightning storm last night about 11 o'clock during which .22 of an inch of rain fell. The lightning was very vivid and the thunder rolls prolonged. It was said this morning at the Observatory that the storm seemed to be centred some distance from here as the thunder was not very heavy. At the height of the storm the wind was blowing from the northwest at 32 miles an hour. The weather during August has received much flattering comment from Saint John citizens and the weather bureau statistics furnished last night by D. L. Hutchison, director of the Douglas avenue observatory bore out the general opinion regarding the August weather. It was warmer than the normal and had a lower rainfall. The highest temperature during August was recorded on the 26th, when the mercury shot up to 83.5 degrees. The coldest temperature recorded during August was 47 degrees, on August 28. The mean temperature of the month was 62 degrees which is one degree higher than the normal. The total of rainfall during the month was 2.72 inches, and that precipitation was 1.14 inches below the normal. Yesterday seemed warmer than the

A Stunner!

This Exhibition

MONEY will do just about everything. A mint of money—away up in the six figures—is being wisely poured out to make this year's Saint John Exhibition not only BIG but ENORMOUS.

You could live years in idleness on what was bid for the Vaudeville Acts alone. Digest that fact and get an idea of the class and volume of entertainment coming to the folks who hit the pike for Saint John, Sept. 5-12.

On that one thing—FUN—no Maritime Exhibition ever came up to this record. A glittering program of Music, Thrills and Laughs.

Expansion!

A WHOLE series of new Departments has sprung up. Old successes enlarged and extended. A great Drive put on to push Maritime prosperity up where it belongs by nature.

In solemn judgment this Exhibition is a Great Education, a Great Sight-seeing affair, a Great Amusement World. A Great Good Time.

You won't find better or nearly as good. Enough people to populate a province are coming to Saint John, arriving from Saturday onward. And the Saint John Exhibition directors are determined to attract everybody and everybody's friends to this Superior type of Annual Vacation.
