

The Evening Times and Star

The St. John Evening Times is printed at 27 and 29 Canterbury street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act. Telephone—Private exchange connecting all departments, Main 2417. Subscription prices—Delivered by carrier, \$4.00 per year; by mail, \$3.00 per year in advance. The Times has the largest circulation in the Maritime Provinces. Special Advertising Representatives—NEW YORK, Frank R. Northrup, 303 Fifth Ave.—CHICAGO, E. J. Power, Manager, Association Bldg. The Audit Bureau of Circulations audits the circulation of The Evening Times.

CABINET RUMORS.

The Standard has a batch of interesting rumors from Ottawa. They set forth what is apparently in the minds of the Conservatives in regard to cabinet reconstruction. According to this view Sir George Foster, Hon. Dr. Reid, Hon. Mr. Cochrane, Hon. Messrs. Burrell, Doherty and Carvell will follow Hon. Mr. Cress and Sir Thomas White out of the cabinet. Hon. Mr. McLeigh is suggested as the next finance minister, Hon. Mr. Calder minister of the interior, Hon. Mr. Rowell, immigration and health; Mr. Stevens of Vancouver; and Hon. J. D. Hagen, minister of justice, with the possibility of a number of other changes. That Sir Robert Borden will not have to throw anybody out into the cold world is indicated by this cheering paragraph: "Re-organization of the ministry will be followed by almost a score of notable appointments. These include a high commissioner in London (Sir George Perley is said to be anxious to retire), a Canadian commissioner at Washington; three commissioners for the Court of Commerce, a lieutenant-governor for Ontario, a deputy minister for the department of public health, a (possible) chief justice for New Brunswick, and a number of senators. Never has a prime minister had such an opportunity to shuffle his cabinet without throwing ministers out upon the charity of the world."

The Standard correspondent gives assurance that Sir Robert will at last get a French-Canadian colleague, and mentions Mr. George H. Boivin, the head of the Knights of Columbus in Quebec. The whole story is prefaced by the announcement that Sir Robert has practically completed his plan for cabinet reconstruction. It may be doubted if he took the Standard into his confidence before he went on his vacation, but that there is to be a radical change in the cabinet appears to be taken for granted. Locally the most interesting suggestion is that Sir Douglas Hagen may go back into harness.

LIBERTY AND LICENSE.

The industrial commission recommends the restoration of the fullest liberty of speech and press in Canada. At first thought this appears to be just, but it should be made clear that there is a difference between liberty and license. They have made that discovery in the United States, where the end of the war has been followed by a new German drive to preserve the German language and German kultur. There has been organized a German-American Citizens' League for that purpose. Note the name. In the opinion of this league the word German should have a capital letter and America a small one. The American constitution provides that Congress shall make no law abridging the freedom of speech, or of the press, or the right of the people peaceably to assemble, and to petition the government for a redress of grievances. These Germans take advantage of a law made to safeguard individual liberty and convert it into a license. They are setting out to do what the framers of the constitution did not regard as even a possibility in the United States. It is used to make safe the activities of real enemies of the republic. The Christian Science Monitor very justly says: "The disturbances being created in this country by un-American elements are, in their essence, just as truly war against the United States government as anything that Germany did to United States shipping on the high seas during the last three years, or as anything she did to the American soldiers at Chateau Thierry or in the Argonne. They are merely war in a subtler, less tangible form, and therefore more difficult to deal with, more worthy of a long and arduous preparedness. The nation got a taste of some such internal enemy as is now manifesting itself during the first two years of the recent war. In those days before the United States itself joined the belligerents, the people of this country discovered, for the first time in generations, what infinite capacity for mischief lurked in the activities of those individuals, groups, and organizations which, while professing never so friendly and loyal sentiments for the United States, even to the extent of loyal citizenship, bent the weight of their every sentence, whether spoken, written, or printed, to the aid and comfort of the cause of Germany. The United States then learned the difficulty of dealing fairly with those who would not or could not understand fair dealing."

The same clause in the constitution gives other enemies an opportunity. The Internationalists and Bolsheviks also convert liberty into license. To quote again from the Monitor: "They seek the absolute rule of the world by the worker class, as Prussianism sought the absolute rule of the world by the Junker class. As Prussianism boasted of its will to conquer, so the proletarian army now active boasts its similar will and expectation. Listen to the words of Rose Pastor Stokes at the revolutionary meeting in New York last Friday night: 'Our slogan is one big union and it will continue to be our slogan until we have captured the hour-glass state. The opposition must yield or be crushed. I say to you that the day will come, and whether it shall be

days, or months, or years, depends on you.' Or this, from Dennis E. Batt of the Socialist Party: 'We must teach the American working classes to take charge of society and to establish a dictatorship of proletariat here in America. No one knows when the revolution will break, but it is only a question of time when the proletariat will control all Europe, and here in America, over the hills, the red sun is rising! The thing we must do first is to conquer our ruling classes in America! Or this, from C. E. Ruthenburg, also a Socialist: 'Here in America, if the working classes carry on our propaganda, we can sweep this government out of existence! Our work, our duty, is to plant the new idea in the minds of the working people.' If the fullest freedom of speech and of the press in Canada is to result in propaganda of this sort it should not be granted. It is, in effect, an invasion by an enemy, seeking to overthrow the institutions of the country, and should not be tolerated.

The school board has asked for the appointment of a vocational training board and has outlined a comprehensive course it would like to see introduced. This forward step by the board will be followed by action on the part of the city council. Next winter should see classes for working boys and girls, and the sooner a commercial course is added in the day schools the better.

When Mr. M. E. Agar was commissioner of public works the plan of pay streets and having the abutments pay half the cost was in operation and working out well. It would be working out well today, and we would have a much longer mileage of good streets, but for a change at city hall.

LOCAL NEWS

The decision to proceed with the erection of a modern club house was reached at a meeting of the West End Golf Association last evening. The Crawford farm has been leased for a golf course.

At an entertainment given in the Brindley street barracks last evening by the Girl Guides and Boy Scouts of that organization an excellent programme, including choruses, instrumental selections, several intricate drills and selections by the scout band.

Drew Pearson, of Swarthmore, Pa., who was in the city yesterday, will leave on August 1 for Siberia to assist in reconstruction work. He is here in connection with the coming Chautauque and will be assisted later by Frank Woods. Both have good records with the U. S. army.

It was decided at last night's meeting of the G. W. V. A. executive to hold a fair in the future for the purpose of raising funds. Ottawa is to be asked to loan war trophies to be exhibited. Rejoice in the dominion convention were read and endorsed. Particular interest was attached to that referring to the request for a bonus over and above the war gratuity to each returned soldier.

Quebec, July 16.—From the port of Quebec since the opening of navigation to July 16, the only exports have been wheat and flour. Since navigation opened twelve steamers loaded 2,242,705 bushels of wheat for overseas, and the shipments of flour consisted of 2,000 tons. The only steamer loading here at present is the Bayford, which is taking on about 235,000 bushels of wheat at the Quebec Harbor Commission's grain elevators. When this vessel leaves, there will remain in the Quebec elevators only about one-half million bushels of wheat, though their loading capacity is 60,000 bushels per hour.

LESS CHEESE THAN MADE A YEAR AGO
Kingston, July 16.—G. C. Pablow, in addressing the Frontenac Cheese Board, said that the make of cheese this year was less than that for the corresponding period a year ago. But he believed that the fall make would be better than that of last year because the farmers were doing all they could to keep up the milk flow, anticipating a new grain crop, and because of the high price of cheese now. He believed that the present high prices of cheese would continue for the rest of the season.

Richard O'Leary and his son, Harry, arrived in the city last night by automobile from Richibucto.

DRUG FIENDS IN TOMBS TRY TO KILL THEMSELVES

Craving For Drug Drives Them to Desperation—Four Attempt Suicide in Day.

London, July 14.—Warden John Handley, of the Tombs prison, admitted today that four prisoners had attempted suicide yesterday, one of them successfully, and declared that there were almost daily attempts at self-destruction among prisoners who were drug addicts. Victims of drug habits, he said, became desperate when they were unable to gratify their cravings. About fifty of the prisoners in the

tombs are drug addicts, the warden said. The men are given small doses of the drug to which they have fallen victims and are separated from the other inmates.

BRITISH MAY "TREAT" NOW.

Liquor Control Board Has Revoked Its Wartime Restrictions.

London, July 8.—(Correspondence of the Associated Press)—It is no longer against the law in England to buy a round of drinks, the Liquor Control Board having revoked the "no treating" order, a war measure. It points out that the order wiped out the practice of treating and it expresses the hope that "the good sense of the community should suffice to prevent its revival, with the wasteful and excessive drinking to which it leads."

WORKMEN'S COMPENSATION ACT, 1918

Notice to Employers of Labor

WHEREAS on the 17th day of April A.D. 1919, His Honor the Lieutenant-Governor and Council did by Order-in-Council bring within the scope of Part I of the "WORKMEN'S COMPENSATION ACT, 1918," from and after August 1st, 1919, the following industries, viz.:

"Persons employed in the woods in logging, cutting of timber, pulp-wood, fire-wood, railroad ties or sleepers, river driving, rafting, booming, or the transportation of logs, timber, pulp-wood, fire-wood or railroad ties or sleepers."

NOTICE IS HEREBY GIVEN that all persons engaged in any of the above mentioned industries are required to file a statement of their estimated payroll from August 1st, 1919, to December 31st, 1919, inclusive, with the said board, on or before the 1st day of August, 1919.

AND FURTHER NOTICE that any employer neglecting or refusing to furnish such estimate or information is liable to a penalty not exceeding \$20.00 per day for each day of such default, and is further liable for damages, as provided by Part two of said Act, in respect of any injury to any workman in his employ during the period of such default.

NOTE—Forms for furnishing such information will be supplied on application.

Also please take note of the following regulation passed by the board, and coming into force on the 1st day of August, 1919:

FIRST AID KIT

In an industry where ten or more persons are employed, it shall be the duty of the employer to provide a suitable FIRST AID KIT approved of by the board and in charge of a suitable person.

Certified, passed May 1st, 1919.

WORKMEN'S COMPENSATION BOARD,

J. A. Sinclair, Chairman.

The greatest saver of time, money, mistakes and energy on all kinds of figure work in any office or factory.

Filling the Gaps in Your Office Force

A GREAT many firms tell us that not only is it next to impossible to get clerical help, but many of those who do get are untrained and therefore inaccurate in their work. Fortunately this situation can be greatly relieved by the use of the Monroe Calculating Machine.

One girl and a Monroe can do the work formerly requiring two or three men. She doesn't need to be an expert. With a few minutes' instruction and practice, she can place your figure load on the

MONROE

and you can be assured the work is absolutely accurate because the MONROE Mechanical Check puts a ban on operating mistakes. No rechecking is required. Look at any one of the problems listed at the left and compare the time required by the Monroe to solve it with the old pencil-and-paper method. The Monroe has a range of utility that embraces any figure problem in any business.

Mr. Manager, it is a difficult matter for you to determine the efficiency of the Monroe Machine by your telling us about it. Let us send a representative to demonstrate what it will actually accomplish in your own office.

You can then make your own tests and compare it with any other machine you may have in service. All of which means we have perfect confidence in the ability of the Monroe Machine to "make good." To bring the matter to a head simply mail the attached coupon. No obligation involved.

Office Specialty and Supply Company
