## Allies Continue To Drive Germans Back

Gaining Additional Ground in Spite of Desperate Counter-Attacks — Well Across the

The drive of the French and American forces into the Soissons-Rheims salient between Soissons and the region of the Marne continues. The Germans at some points are counter-attacking desperately, but their efforts thus far have been futile in more than impeding the advance.

Further ground has been gained by the Allied forces south of Soissons,

in the centre of the line along the Ourcq river and north and east of Chateau Thierry. Additional large numbers of Germans have been made prisoners and numerous quantities of guns and war materials have been captured.

In the Marne region, the American troops on the northern bank of the stream are well on the heels of the fleeing enemy east of Chateau Thierry, between Charteves and Gland. At last reports their advance had been pushed virtually four miles from their old positions on the southern bank and they were pressing the enemy northward in the direction of Fere-En-Tardenois, possibly with the intention of endeavoring to link up with the French forces proceeding eastward along the Ource. For the reast along the Marne the French forces across the northern bank of the stream.

That the Germans now realize to the full that the Allies have the upper hand in the battle seems apparent from reports that they are burning villages behind them in their retreat and destroying large quantities of munitions and war material throughout the entire salient which they have found it impossible to move, owing to the rapid strides of the Allies across various lines of communications and the domination of others by the allied big guns. These guns are throwing shells far behind the lines, carching out the entire countryside, while airplanes are winging their way over the retreating columns and harrying the enemy with machine gun fire.

In France and Flanders the British continue to harass the German lines continue to harass the German lines with small attacks and raiding operations, while the Italians are keeping up their pressure against the Austrians both in the Italian theatre and in Albania. In the latter region considerable ground has been gained along the Devoli river.

### enced to one year's imprisonment with hard labor. "Bill," a favorite bear cub of the 1st Depot Battalion died yesterday morning, presumably from heart trouble. He was to go under the surgeon's knife and was administered an anaesthetic, but he failed to rally and death resulted. The cub was given to the battalion by Col. McAvity. The men would be pleased to secure another from some lumberman or farmer. BRIBERY AND GRAFT IN U. S. ARMY CONTRACTS

New York, July 28—Extensive conspiracies involving bribery and graft in connection with army contracts for rubber rain coats sent to soldiers in France were disclosed last night by department of justice officials simultaneously with the arrest of seventeen officers and employes of fifteen manufacturing companies in New York and Brooklyn on charges of bribery, fraud or conspiracy. Officers of the quartermasters corps involved in the graft now are under surveillance and probably will be arrested soon in Washington or other cities where their ductes as purchasing agents or inspectors take them.

Triends of Private Robb will regret to learn that he is seriously ill at the military Convalescent Hospital in Fredericton.

F. L. Potts, M.L.A., has received word that his son, Roy F. Potts, who has been ill at Seaford, England, with fever, had passed the danger point.

It was announced by local military headquarters yesterday that a fitter of artificial limbs would be in the city on Wednesday in the interests of all returned soldiers who have been so unfortunate as to lose limbs in the present war. The announcement will be received with satisfaction by those who are to be fitted with such artificial limbs

### Why Blame the Good for the Bad?

ECAUSE thin, skim milk will not nourish a baby; has nothing to do with milk fresh

BECAUSE some coffee develops a bitter tang—and is not satisfactory—has nothing

### SEAL BRAND COFFEE

"Seal Brand" is coffee that has been selected from the world's best plantations by coffee ex-perts, roasted and blended by those who have given a lifetime to the study of coffee. If you like a cup of GOOD Coffee, try "Seal Brand".

If you want to know the true secret of a delicious cup of coffee, write for our booklet, "PERFECT COFFEE —PERFECTLY MADE". 198

# ORGANIZED SOUTH END

IMPROVEMENT LEAGUE

The South End Improvement League was finally organized and the officers elected at a meeting held in the assembly hall of the King Edward school last night. Nearly a 100 membership tickets were issued and a good deal of enthusiasm was manifested. Rev. H. A. Cody, in view of the interest he has manifested in the movement for a playground for the boys of the south end of the city, was named honorary chairman of the league. C. M. Lingley was elected chairman; John M. Elmore, first vice-chairman; Miss Florence Allan, second vice chairman; Albert H. Ellis, secretary; and Alexander Wilson, treasurer. These officers, with five others, who were nominated at the meeting, form the executive. The five additional names are Engineer C. N. Hatfield, Rev. H. A. Cody, Thomas Killen, Miss Warren and Mrs. McCarthy. The new constitution called for the appointment of a number of committees to have charge of the various activities of the league, and Mr. Lingley was authorized on motion to arrange these and report later.

Following the reading of the minutes Mr. Lingley submitted the new constitution which had been drawn up by the committee appointed for the purpose. This was taken up section by section and after some discussion and one amendment was adopted as a whole.

DESERTING FROM

AUSTRIAN ARMY London, July 22—Reuter's Limited says it learns from a reliable Czech source that many Czecho-Slovaks and Jugo-Slavs are deserting from the Austrian army and forming armed bands in the interior called "Green Guards."

COCA-COLA CO.

Made in Canada

Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified cocoanut oil, for this is pure and entirely greaseless. It's very cheap, and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, tresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

### New, Positive Treatment to Remove Hair or Fuzz

(Beauty Notes.) Women are fast learning the value of the use of delatone for removing hair or fuzz from face, neck or arms. A paste is made with some powdered delatone and water and spread on the hairy surface. In 2 or 3 minutes it is rubbed off, the skin washed and every bit of hair has disappeared. No failure will result if you are careful to buy genuine delatone.

EASTERN ONTARIO CROPS

C. F. Bailey, assistant deputy minister of agriculture, who has returned after a motor run from Toronto to Kingston and up into Lanark, says grain crops in Eastern Ontario are ahead of those in the western part of the province. Grain in the district covered by Mr. Bailey promises better than an average yield. Hay he estimates as averaging about a ton per acre. Corn is bound to be below an average, but present weather conditions are making a great improvement in this crop. Roots are only fair, and agreage is limited. "The low condition of corn, limited acrease in processing Man: Canadian industry demands that you prepare to take your place in promoting the industrial development of your country. I. C. S. Training prepares for big positions. Ask or write for information. International Coorrespondence Schools, 8 Sydney St., St. John, N.B.

Will test your eyes by appointment at your home. Mrs. K. W. Epstein, Optometrist, 191 Union street, Main 3554.

English Linoleums in two, three and four yards width. Oilcloths in one and two yards wide.

### AMLAND BROS., LTD. 19 WATERLOO STREET

London, June 22.—(Correspondence of The Associated Press.)—Tricky German U-boat commanders have conceived a new plan designed to deceive crews of the allied submarine destroyers in the game of hide and seek in European waters. When a depth bomb is discharged and does not cripple or destroy the German undersea boat, as sometimes happens, a quantity of oil is released by some device on the submarine and quickly rises to the water's surface.

The hope of the German U-boat cap—

American and British commanders of destroyers and submarine chasers discovered the scheme of the German some time ago and since then have been dropping depth bombs in greater numbers than previously, using the oil as a guide to the general location of their target.

"Oil camouflage" the American and British commanders of destroyers and submarine chasers discovered the scheme of the Germans some time ago and since then have been dropping depth bombs in greater numbers than previously, using the oil as a guide to the general location of their target.
