LECTURE ON CHRISTIAN SCIENCE.

Christian Scientists in this city cannot but feel satisfied with the interest taken in the lecture to be given by Willie S. Gross, C. S. B., in the Opera House Sunday, 22nd, at 8 o'clock. Those who do not know of Christian Science will have an opportunity of gaining information on the subject by one qualified to point out its many benefits to mankind. No doubt the Opera House will contain a large audience. WIND A MINUTE GALE AT EASTPORT

Boston, Nov. 20.—The first southern storm of the season to reach the New England coast, lashed itself to pieces off shore during the night, and by sunrise had apparently blown itself out. Shipping suffered considerably, and much damage along shore was caused by high tides.

At Eastport, Me., the wind blew a mile a minute for more than an hour, and at Cape Cod, Block Island and Nantucket velocities of more than fifty miles were recorded.

At Providence four fishing schooners were driven onto the mud flats, but only one was damaged.

Dawn disclosed a three-masted schooner in distress off Cape Porpoise, Me. Two of her crew attempted to reach land but were frozen, and returned to the vessel. A tug left Portland to aid the schooner.

THE FUNDS

A cheque for \$1,482.50, representing the contribution of the people of Sackville towards the maintenance of the families of the New Brunswick soldiers who have gone to fight the battles of their empire, was received this morning by the secretary of the Canadian Patriotic Fund.

Money donations.—R. K. Y. C., \$50.00; G. N. Estabrooks, \$5; Miss Lorna Kay, \$1; Mrs. J. Sidney Kay, \$1; Mrs. Woodford Smith, \$1. All donations from the province are to be in by Tuesday.

Several men have kindly offered to superintend the buying and packing of the tobacco, among whom are Messrs. Simcoe Jones, G. D. Ellis, Stephen Gerow and Harold McGuire. Many dealers offer to supply the tobacco at cost.

FORMER WAR MINISTER OF FRANCE PROMOTED ON FIELD OF BATTLE

Paris, Nov. 20.—Major Adolphe Messimy, at one time minister of war in the French cabinet, and who recently was decorated with the Legion of Honor for an act of bravery on the battlefield, has been promoted to the rank of lieutenant colonel. He went to the front at the outbreak of the war as a member of the general staff.

APPEAL TO BELGIANS

The Belgian government has just issued in the name of the king and the nation, a solemn appeal to all able bodied Belgians and chiefly those between the ages of eighteen and thirty in order that they join the army of volunteers for the duration of the war. All those who are able to pay their passage across, should immediately report themselves to the nearest Belgian consul who will give them instructions respecting the European centre they should reach. As to those who cannot pay their passage across, they are invited to tender their services by letter to the consul.

The government's proclamation reminds them the same duty of incumbent upon all Belgians living abroad—"Let them never forget the distant fatherland where relatives, friends, and fellow workers are suffering cruelly. Let them by their courage and their dignity, in these days of trial, strive to still increase the sympathetic feelings which all right minds and all generous hearts in the whole world are professing toward Belgium. Let their thoughts, their hopes and their acts constantly work towards this sacred object: liberation of their country."

The Belgians who are fit for military service are still numerous abroad. Spontaneously, thousands of volunteers have joined the army. It is important that all those who are in a position to do so should follow their example.

The government counts upon them all to do their duty. The proclamation ends with the following words:—"Victims of a crime which finds no equal in history, never was Belgium more entitled to claim the help of her children. Under the leadership of a king of whom we all are proud, let us do our utmost to hasten the hour when we shall find ourselves again united, independent and free, on the soil of that beloved fatherland, whose sufferings have made her still more dear to us."

The Best Quality at a Reasonable Price

It's Odd How Ideas Change

Only a few years ago glasses were considered an affliction—something worn to be "stylish"—or it was a calamity to have to wear them. Today we look on the wearing of glasses as an evidence of good, hard, common sense—consider glasses one of the greatest benefactors of mankind.

People have learned that glasses protect sight—that in a very large number of cases they are worn not so much to improve present sight, as to insure future sight. Many a person can see as well without their glasses as with them, but to go without glasses puts a strain on the eyes that causes headaches, nervousness and other troubles, and in time will cause the eye to break down so that sight is permanently impaired or totally lost.

There is only one way to take good care of your eyes—that is to have them examined every year by a competent eye specialist, and obey his instructions. If he says you need glasses, Sharpe's optometrists will take good care of your eyes. Consult them.
