REPORT BY MISS MABEL PETERS

Playgrounds Work Throughout Dominion of Canada

GROWTH OF INTEREST.

Special Reference to What St. John Has Done and is Doing - An Interesting Presentation of Conditions Before Women's Council

Miss Mabel Peters, convenor of the playground committee of the National Council of Women, submitted her eleventh annual report at the annual meeting of the National Council in Montreal this week. She expressed gratification at the growth of interest in supervised play, recreation and social centres in the Council itself, and recommended that an evening be devoted to playgrounds at the next annual meeting. She expressed pleasure at the interest in playground work now shown by people of prominence in church and state throughout Canada. Miss Peters expressed the hope that a National Playground Association would soon be organized, as it was unanimously approved by all the associations with which she had communicated. She noted that the fact that three Women's Councils had during the year past been organized, indicated their desire to undertake playground work. Regret was expressed that the National Council had never yet provided any funds for publicity work. Last year she had suggested that the various provinces be requested to establish playgrounds in normal schools to train playground teachers, and this had been done, and the communication commission to provincial boards of education. Continuing Miss Peters says:

made to induce the London school board to take over the playground work in the school yards in order that the association may be free to extend the benefits of its work to young people employed in factories who now have no opportunity for legitimate recreation. (Hull) has a grant from the city of \$250 and a sum of \$1,250 raised by public subscription. In Amherst, N.S., the children of the various schools have all been organized into teams which hold interscholastic contests and give evening exhibitions in the school-houses for the entertainment of the parents. This is the nucleus of the social centre whose ideal is provision of united family amusement for all ages. The Playground Committee of St. John was instrumental in the formation of a Playground Association organized by its equipment valued at \$300. Association, but holds itself intact, although its members are officers in the new association, which at once affiliated with the local council of St. John. A grant of \$1,000 has this year been made to the association by the city for the neighborhood playground. Two thousand dollars or more will be expended on Rockwood Park playgrounds, which was dedicated August last by His Royal Highness, the Duke of Connaught, governor-general of Canada, with interesting ceremonies. The funds for the playgrounds were materially increased by the proceeds of a play "Alice in Wonderland," given under the auspices of the association; by a ball given by the ladies of the city at Easter, and by hand-concerts, teas, and personal contributions. Three new playgrounds will be opened this year. The association has engaged a play expert and has expressed the hope that a National playground-teacher-works, classes are also being held for employed girls, thus introducing the general feature of social centres. The first Memorial Playground in Canada was established in St. John last year by Walter C. Allison as a memorial to his wife. It is beautifully situated on the harbor front on land donated by the city, was equipped at a cost of \$40,000, and is the property of the St. John Playgrounds Association. Victoria spent \$22,000 last year in the maintenance and supervision of park playgrounds. The Mayor of Vancouver has appointed a playground commission for the control of city-owned playgrounds. Vancouver has just leased for 21 years 22 acres of land for athletic purposes. Winnipeg has this year appropriated \$18,000 for recreation purposes. There are and conference playgrounds with a staff of forty-five teachers besides caretakers. Winnipeg has a commissioner of recreation and has a special city supervisor for girls. To your convenor the most far-reaching and important playground development in Montreal is that McGill University included in its summer session, 1912, a special playground course for teachers. This is a valuable example to other educational institutions of the domain, and meets at once the greatest need of Canadian playground work. Co-operation of playground workers in Montreal with other associations having the interests of children at heart is shown by the success of the Child Welfare Exhibition held in Montreal the past winter. This exhibit also afforded an opportunity to teach the public the educational value of child's play, the association preparing a miniature model playground which was a popular feature of the exhibit, near which were descriptive screens and a display of playground literature for distribution. In submitting this report your convenor desires to again impress upon the council members that the basic principle upon which this committee is founded is that of prevention. Its work is formative as opposed to reformative. It seeks to eventually dispense with the curfew, the juvenile court, the jail and the reform school for the young of our land. Education is now agreed that the public supervised playground and recreational social centres stimulates and guides a child's life in a way which no other factor of modern living can do. Your committee would surround children with conditions which will prevent their being robbed of their childhood. It would give youth and adult opportunity for social enjoyment, and it welcomes to its assistance all who believe in dealing with causes and not with consequences.

The attendance in the playgrounds of Hamilton last year was 40,000, of which 25 per cent were foreigners. Canadian flags were presented to each group by the Canadian Club, Daughters of the Empire and other citizens. Port Arthur has formed a playground committee and the convenor has been given authority by the city to visit other cities and ascertain the latest developments in playground circles and to advise the authorities concerning Port Arthur's playground needs. It is already decided that land for playgrounds shall at once be purchased in three sections of the city. One playground is in use and skating rinks were in vogue last winter. Port Arthur has one supervised playground. London has this year featured open air rinks of which has several. The association has induced the water board commissioners to flood a large open area in one of the big parks which the board maintains in winter and keeps free of snow for winter sports. An effort is now being

made to induce the London school board to take over the playground work in the school yards in order that the association may be free to extend the benefits of its work to young people employed in factories who now have no opportunity for legitimate recreation.
