CLEANLINESS IN DENTISTRY

If people knew the frightful risk they run of infection from unclean dentistry they would better realize the awful chances they take and what a mighty important factor cleanliness is.

No one has ever disputed the fact that there are no cleaner offices in Canada than ours. This is worthy of consideration.

NEW GERMAIN STREET LINES MAKE TROUBLE

Distance Between Houses and Curb Wider on One Side Than the Other

Residents on the west side of Germain street are indignant in the manner in which the lines of the improved street have been laid out by Engineer Murdoch. An arbitrary line for the curb has been run from Princess to Queen street without taking into account a deflection in Germain street near Duke. The result is that there is for a considerable distance a difference of three to five feet in the width of the space between the curb and the houses on the east side compared with the west side. The west side people argue that they are entitled to as great a width from the curb to the line of the houses as those of the east side, and they could have had it but for the engineer's insistence on an arbitrary line from Princess to Queen. They assume that if the line had made it necessary to move their houses back, or take them front out, the engineer would have heaved to the line.

It is said to be explained that, by adopting the arbitrary line, the street will be laid out that a person standing at the Stone church will have a clear vista down Germain street to the harbor. This assumes that persons who like vistas are the only ones to be considered. At any rate, there is a vigorous protest, but as the harbor country, the around which the line was laid this morning at the very place where the protest is made, it is evident that the Harasan company do not profess to lose any time while the matter is being argued with the engineer.

LAD HAD REVOLVER AND CARTRIDGE BELT

Thus Armed He Braved the North End at 1.30 This Morning

Two waitresses a boy and a woman, charged with wandering about the streets without accounting for themselves satisfactorily, were in the police court this morning, and were remanded. The boy is aged about sixteen years, Benjamin Waterworth, of New Bedford, Mass. He was arrested in Main street about 1.30 o'clock this morning. He evidently had the idea that the North End was a wild and baronous country, as around his waist he wore a hunter's belt, swarmed with cartridges, and in a pouch attached to it was a long barreled revolver, every chamber loaded. The woman was Rebecca Blakeney, who told the court this morning that although she had lived for about three years in the city she did not know her way to her home when found in Water street at an early hour today. The police say they guided her correctly, but she would not go home.

POLICE COURT TODAY

King Comes Back on Several Charges—Trouble in a Workshop

On Tuesday last promising to take the pledge, Robert King, aged 24, was allowed to go in the police court where he was charged with drunkenness. Apparently, he did not bind himself to the pledge, as he was again in court today, charged by his mother with being drunk, disorderly, and fighting in her home in Brook street last night. The mother said that her son had come home and fought with his brother, and made things unpleasant for the others in the family. King was remanded. Michael Cogwell was fined \$4 on a charge of drunkenness.

The case against Ellsworth Tufts, charged with assaulting Rankine Grant, aged 16, was dismissed. The charge was laid in the store of Peter Campbell, where each was employed, was dismissed this morning. But D. Mulh, K. C. counsel for the plaintiff, said that he would appeal on the charge of assault. E. S. Ritchie appeared for Tufts.

The lad said that when he had been working in the place for four days, Tufts had called him insulting names, and had abused him by laying hands on him. The defendant denied that he assaulted the boy. The court found him not guilty of abusive language, but guilty of a technical assault, but because of its nature no fine was struck.

TRUANTS TO BE DEALT WITH SEVERELY

Before Judge Ritchie this morning a session of the juvenile court was held and the cases of three boys charged with truancy were dealt with. They are James Stackhouse, Herbert Pitt, and Walter Kelley. Young Pitt was allowed to go as he promised to attend school hereafter. Kelley was not in court, his mother appearing to say that she could do nothing with him, as he refused to go to school, or to obey her.

The Stackhouse boy was sent below to a cell by himself, while His Honor said he would consider whether or not he would give him a term in the Boys' Industrial Home. In future, said the judge, boys brought to court for truancy would not get off easily. It was told in court that Stackhouse slept last night in a barn.

FRESH FISH SCARC

The local fresh fish market is about cleaned out and to use the words of a prominent wholesale fish merchant "people who want to eat fish will have to eat salt fish."

The recent heavy gales are given as the cause of the present situation as fishing has been greatly interfered with and hitherto rendered impossible. Pinched conditions commenced to be felt about two weeks ago, and the supply shortened till there are practically no fresh fish to be had. "We haven't seen a halibut for a week and while there are a few halibut and mackerel, they're not far enough," said a disconsolate wholesale merchant. It is hoped however, that matters will improve.
