

THE CITY COUNCIL

City Engineers Reports Rock Bay Bridge Ready for Ordinary Tramway Traffic.

Additional Rate Inserted in the Taxes By-Law—Anti-Chinese Resolutions.

Bridge matters again formed the principal subject for discussion at last evening's meeting of the city council. Every bridge in the city traversed by the tramway company's line was under consideration, and several reports were received from the engineer concerning the same.

The street committee recommended among other matters, that some rock be blasted out of Esquimalt street to make it passable. They also reported that the Terra Cotta Co. had offered to lay a sidewalk of vitrified brick around the Five Sisters' block free as an experiment.

Alderman Humphrey referred to the sidewalk around the Five Sisters' block. The city engineer should notify the owners of the property to build a proper sidewalk at once. The city had nothing to do with building the sidewalk, as the owners had already been compensated for building what should have been a good sidewalk.

The special committee to whom was referred the petition, re the building of a permanent bridge at Point Ellice, reported that as two distinct propositions were included in the petitions, the council can not embody both suggestions in the one by-law, and in this particular the council cannot comply with the request of the petitioners.

Alderman Cameron pointed out that there was a difference between the tax by-law as passed by the council and as introduced by the committee. Mayor Beaven stated that the by-law published in the Times was the same as that in the Gazette, and that was as it passed the council.

Alderman Cameron and Macmillan emphatically stated that no levy was made on improvements for board of health and school purposes.

The mayor as strongly stated that such a levy was passed. Alderman Glover, Marchant and Humphrey corroborated the statement of Alderman Cameron and Macmillan, but the mayor still maintained that the by-law was passed as published.

Alderman Macmillan could come to no other conclusion than that the mayor had added something to the by-law that had never been passed by the council.

Mayor Beaven said no alderman should make such a statement. Alderman Macmillan again pointed out that the Times in its report of the meeting distinctly stated that no such levy was made on improvements.

Alderman Humphrey stated that City Treasurer Kent had found out from some source that no levy on improvements for health and school purposes was made.

Alderman Macmillan remarked that if levies never passed by the council were to be embodied in by-laws the existence of a council was a farce.

The mayor again protested against such statements from Alderman Macmillan and the council adjourned without deciding the matter.

City Engineer Wilnot reported that the necessary strengthening of Rock Bay bridge had been completed. The bridge was now fit for ordinary tramcar traffic. The maximum safe weight for a loaded car is reckoned at 8 1/2 tons.

Mr. Johnson, secretary of the Anti-Mongolian Association, Vancouver, forwarded the series of resolutions passed at a meeting recently held in the Terminal city.

Alderman Wilson was in favor of the resolutions. He would like to see the "Heathen Chinese" debarred from entering the country altogether. The Chinese were going into every business and driving out the white man.

HARRIS VS. DUNSMUIR

Suit for Commission for Attempted Sale of the Wellington Collieries.

Twenty-Two Thousand Dollars is Claimed by the Defendants.

The trial of Lowenberg, Harris & Co. vs. Joan Olive Dunsmuir commenced this morning before Mr. Justice Walker and a special jury. Mr. E. V. Bodwell appeared as counsel for the plaintiffs and the Hon. A. N. Richards, Q. C., and Hon. C. E. Pooley, Q. C., for Mrs. Dunsmuir.

The plaintiffs sue for \$22,000 for expenses and loss of time in attempting to sell for defendant the Wellington collieries. In September, 1890, according to the statement of claim, the defendant appointed Mr. Dennis R. Harris her agent for the sale of the collieries and the price stated was \$2,000,000, and Mr. Harris was to get a commission of 5 per cent, which was to cover all his expenses. Mr. Harris then set out for New York where he arrived at the time a member of the firm of experts came out of Victoria to assist in the negotiations he employed a firm of experts to visit and report on the mines, and paid them \$675.

A member of the firm of experts came out of Victoria to assist in the negotiations he employed a firm of experts to visit and report on the mines, and paid them \$675. In February, 1891, Mr. Harris, in further pursuance of his appointment, went to England and communicated with capitalists on the subject of the sale and in order to assist in the negotiations he employed a firm of experts to visit and report on the mines, and paid them \$675.

In August, 1891, Mr. Harris again went to London, but on his arrival there found that the expert valued the mine at a figure considerably less than Mrs. Dunsmuir's price and Mrs. Dunsmuir refused to accept the price put down by the expert and Mr. Harris accordingly came home. Afterwards, in 1892, the defendant varied her former instructions, and authorized a sale of \$400,000 sterling, and Mr. Harris began negotiations in London with the object of selling the said property to a company or other financial organization to be promoted for the purpose of securing the same. Some changes were then suggested in the arrangement and Mr. Harris was authorized to sell the property for the defendant and her agents, and the delays occasioned by her withholding instructions.

The defence, like the claim, is very long, and deals with all the paragraphs of the statement of claim, and shows many variations in the facts stated in the letters of 18th January, 1891, except as to putting in two steamers along with the mines to be sold. She further says that all Mr. Harris' expenditure of money and loss of time were at his own instance in endeavoring to sell the property in order that he might earn a commission.

Mr. D. R. Harris has been on the witness stand all day, giving evidence and producing correspondence in support of his claim. In his evidence Mr. Harris said he had received a statement from B. Dunsmuir & Son which showed that the total profits for the Wellington mines, including steamships, for eight months in 1891, was \$347,162. Messrs. Dunsmuir & Son, however, had made a profit of \$25,000 in the sale of the mines, and Mr. Harris stated that the original sum of \$400,000 could not be obtained, and instructed Mr. Harris to offer Mrs. Dunsmuir \$400,000. Mr. Harris did so and received a reply from Alexander Dunsmuir on behalf of Mrs. Dunsmuir, in which he stated that no further concession would be made. Mr. Harris then wrote to Mrs. Dunsmuir, telling her that if his commission was any stumbling block in the way of a sale, he would forego the same excepting the actual cost of what he had done in the matter. Mrs. Harris then went to see Mrs. Dunsmuir, but she appeared to be displeased about something and would not discuss the matter. Mr. Harris then wrote to Mr. Pooley and also to Messrs. J. and A. Dunsmuir to see if satisfactory arrangements could not be made. Messrs. Dunsmuir replied that no further concessions would be made. Mr. Harris replied that their conduct was killing the chances for a sale and the responsibility would rest on them.

The trial of Harris v. Dunsmuir was continued to-day before Justice Walker and a special jury. The plaintiff, Mrs. Harris, testified that she had received a letter from Mr. Harris, dated in New York, in which he stated that he had received a commission of 5 per cent on the sale of the mines, and that he had received a reply from Mrs. Dunsmuir, in which she stated that she would not accept the price put down by the expert and Mr. Harris accordingly came home.

Another British company has been formed for the purpose of working British Columbia, Australian and New Zealand mines. This latest acquisition is the Alliance Exploring and Finance Corporation, Limited, of London. The registered capital is £200,000 in £1 shares, of which the present issue is 100,000 shares on which 10s. per share is to be paid up and the remaining 10s. as required. The directors are as follows: Messrs. H. Stanton, S. W. Coxon, H. E. Sparks, G. B. Pumphrett and H. McDowell all of London. All these gentlemen are connected with various Australian mining companies. The bankers are Messrs. Brown, Janson & Co.; the solicitors Messrs. Birchall, and the brokers, Messrs. Sydney Wilkins & Co. The corporation has been formed for the purpose of carrying on the business of a Parent Financial, Mining and Exploration Corporation, more particularly in connection with the British colonies of Western Australia, New Zealand and British Columbia. It is stated that the options have already been acquired by the corporation on five mining properties. Of these three are in Western Australia, Australia, New Zealand and one in British Columbia, of which the provincial government has thought so well that they have already advanced a considerable sum of money towards its development. There is a reserve of about 7000 tons of ore in sight, giving an assay average of about two ounces of gold per ton; whilst from stringers as high as 600 ounces per ton have been obtained. The property has been most favorably reported upon by Mr. G. A. Koch, Mr. William Craib, Mr. C. F. Marsh and Mr. W. Fellow Harvey.

A DARING ROBBERY. A Faro Bank "Hold Up" in a Cool and Skillful Manner. Cincinnati, July 29.—A bold and successful robbery of a faro bank was reported by the Newport, Ky., police this morning. At Huber's Garden, a summer resort, on an electric line back of Newport, in a very quiet place, a faro game of considerable proportions had been in progress nightly. Late last night, two men with revolvers drawn entered the room, and in spite of the superior numbers of the players and the proprietors, emptied the pockets of the players and the coffers of the proprietors and got away unharmed.

PRECIOUS METALS.

Imperial Privy Council Decides the Case Against Railway Co., With Costs.

The Long Standing Question Settled to the Satisfaction of the Public.

Mr. James Dunsmuir last evening received a cablegram announcing that the test case respecting the ownership of the precious metals on the lands within the Island railway belt had been decided in favor of the province, with costs. The question arose some years ago between the government and the Esquimalt & Nanaimo Railway Company, the company contending that both the base and precious metals passed to them with crown grant. The government, on the other hand, contended that the precious metals were not included unless they were mentioned in the grant. A test case was submitted to the Supreme Court of British Columbia who decided in favor of the province. The railway company appealed to the judicial committee of the Imperial Privy Council, whose decision upholds the judgment of the Supreme Court.

The decision will be particularly pleasing to the many miners who have taken up claims within the railway belt, as there is now no further question as to their rights to the precious metals.

LIST OF TEACHERS.

Those Who Were Successful at the Examination for Teachers' Certificates.

Number of Candidates' Names Are Missing From the List of Winners.

Below is given a list of successful candidates at the annual examination for certificates of qualification to teach in the public schools of British Columbia. While a number of experienced teachers have succeeded in securing higher grade certificates, others who wrote have been altogether unsuccessful and consequently will be unable to teach for the coming year. This is probably accounted for by the fact that one or two of the examination papers were exceptionally hard and out of keeping with the others. The examiners were Dr. Pope, superintendent of education, Ven. Archdeacon Scriev, M. A., Rev. W. D. Barber, M. A., Rev. Prof. Whittington, M. A., B. Sc., and Prof. Charles Hill, M. A. The list follows:

First Class Grade A Certificates. Ashton, John J. B. A., University of Queen's College, Kingston, 1896. Clark, Richard J., B. A., University of Queen's College, Kingston, 1896. Miller, Mary B., B. DEMOCRATIC BOLTERS.

Indianapolis, July 29.—Ex-Congressman Bynum, a member of the sub-committee of sound money Democrats which is arranging for a national convention to nominate a sound money ticket, said that fifteen states have already indicated that they will be represented at the meeting in this city on August 7. There are a few of the far Western states that will not be represented at the meeting of August 7, he says, because the time is too short. Bynum says Minnesota has already appointed delegates. Texas has organized and Kansas has sent word that the state will be organized immediately.
