HALIFAX.

Halifax, July 14.-After an acute illness of several months, following on physical prostration extending over years, W. B. McSweeny, barrister, died this morning. Deceased was a native of New Brunswick, son of the late Peter McSweeny, one of Westmorland county's best known business men. He was educated for the bar, and developed much erudition and intellect. He also engaged in newspaper work, in St. John principally. Then he came to reside in Halifax, and was enrolled in 1882 at the bar of this city and province. He was elected an alderman, and filled several other representative resitions at times with energy and ability. Mr McSweeny leaves a widow, a daughter of the late Hon. James Butler, and two children.

For years there has been a controversy between Captain Dixon of the 63rd Rifles and Col. Egan, commanding the regiment. The strife between these officers has been very bitter, the charges and counter charges being made and investigated. Dixon has come out best, according to advices just received. The fact was that Col. Egan refused to re-enroll Private Bickford, a man belonging to Captain Dixon's company, the reason understood, though not expressed, being that Pickford was personally distasteful to Egan and that he had said unpleasant things about the colonel. D. A. G. Maunsell came to Halifax last fall and held a regimental inquiry and the evi-dence taken was sent to the militia department at Ottawa. The legal question whether or not the colonel could properly refuse to re-enroll Pickford was referred by the militia to the department of justice for decision. The judgment of the minister of justice, Hon. Mr. Dickey, is that Captain Dixon's contention was right and that Colonel Egan's was wrong. The minister holds no commanding officer can legally refuse to re-enroll a man except for cause.

The Summer School of Theology opened today. Thirty ministers are in attendance from points outside the city, the whole number enrolled being between fifty and sixty. The New Brunswickers here are Rev. J. Sutherland, Sussex; Rev. J. M. McLeod, New Mills; Rev. G. Fisher, Dalhousie; Rev. Donald Fraser, Hampton; Rev. Dr. Neil McKay, Chatham; Rev. J. M. Robinson, Moncton; Rev. Dr. A. A. McKenzie, St. Stephen; Rev. Principal utes from wharf to wharf, and 1 hour Macrae, Quebec. The lectures today were delivered by Rev. Principal Pollock, Rev. H. McD. Scott, Chicago;

This he tied round his neck and jumped into found on the bottom. The poor fellow had been drinking for some time and must have been temporarily insane. Governor Daly will return to the the boat. city tomorrow and it is supposed Pre-

mier Fielding will resign. Peace is yet far from the local government. Halifax, N. S., July 19 .- Hon. W. S. Fielding resigned the premiership of Nova Scotia yesterday and proceeded to Ottawa to be sworn in as minister of finance. Governor Daly called upon government and Mr. Murray is now engaged in that duty. There has been a keen struggle for the premiership. Hon. J. W. Longley's friends boomed that gentleman very strongly for the position. Mr. Longley is the greatest fighter in the liberal party in Nova Scotia. He directed the liberal fight in Cape Breton against Sir Charles Tupper, and a few weeks ago he resigned his postion as attorney general and his seat in the legislature and made a bold effort to snatch the dominion seat for Annapolis from the conservatives. But in this he failed. He is not popular in his own party, hence Longley's perschal opponents, while acknowledging his services and fighting capacity threw their influence for Mr. Murray But the new premier will be compelled to enlist Longley's aid as attorney general. So that there will really be no change in the government other than that of the premiership. Hon. George H. Murray is a native of Cape Breton county and practices law at North Sydney. He is personally one of the most popular men in Nova Scotia. Though he has run seven times in Cape Breton for the provincial and federal parliaments he has never yet won an election, because Cape Breton county is normally overwhelmingly tory. But he has held a seat several years in the legislative council and in the government. There is a vacancy in Victoria county and Mr. Murray will try

PARRSBORO. Parrsboro, July 15.-Up to yesterday morning there were fifty-one pupils, exclusive of teachers and the large number of Parrsboro people who are attending Principal Cameron's literature class, and several others arrived last night. The fine new school house is the students' rendezvous. Here at 8 o'clock each morning the school opens with chorus singing and physical culture or military drill. Miss Read of Wolfville leads the singing and the calesthenics, and Principal Seaman of Charlottetown is the drill instructor. Last night the class had instructor. Last night the class had a rare treat, when Dr. Theodore H. Rand of McMaster University read several of his poems dealing with Parrsboro and vicinity. They were gems from either the literary or scientific point of view. Tomorrow there will be an excursion to Blomidon. On Saturday the students go to Swan Creek, and on Tuesday next to Wolfville. The faculty of the Summer School is as follows: Botany, Charles B. Robinson, County Academy, Pictou; John M. Duncan, Kent street school, Charlottetown; chemistry, W. H. Magee, Ph. D., High school, New Glasgow; elocution, Miss Mina Read. Acadia college, Wolfville; English literature, Principal Cameron, County academy, Yarmouth; geology and minerology, Prof. A. E. academy. Parrsboro, July 10.-The town is flecked with bunting, the occasion being the tenth annual session of the Summer School of Science, which opened last evening with a crowded public meeting in St. George's hall. A. E. MacLeod, secretary of the school board, acted as chairman. H. W. Mc Kenna read an address of welcome or behalf of the citizens of the town. T. C. McKay, principal of the Parrsbore schools, and local secretary of the School, gave a pleasing speech, describing the natural advantages of Parrsboro. Dr. Theodore H. Rand of McMaster University then gave a scholarly, poetical and practical address, strongly pressing the claims of Parrsboro as a permanent home for the School of Science. The place had shown itself to be wonderfully progressive during the last twenty years. He saw no necessity for a grand building for the Summer School. It would be more in keeping with the principles of the institution to have an inexpensive, rustic building. He recommended the expenditure of enough money to purchase a steam launch. Dr. Rand closed his speech with a charming poetical description of the beauties of this re-

boro for their warm welcome. A. H. Mackay, superintendent of education for Nova Scotia, gave an address which clearly exemplified the benefits of a summer science course.

One pleasant feature of the present tourist season, so far as Digby is concerned, is that the great majority of the visitors who put up at the hotels each day remain some time, instead of rushing right off by the next train or poat after luncheon. So favorably impressed are some of them with Digby as a watering place, after once getting here, that they stay the entire season and this is what delights the heart of the hotel proprietor. The boats and trains today brought a no small number of tourists, most of them Americans. The Royal has among others Mr. and Mrs. A. Hanson, A. E. Han son, Mr. and Mrs. B. P. E. ISLAND NEWS.

Charlotteown, July 16.-The Orange tea last Saturday is an annual affair which always calls out a crowd on P. E. I., but went beyond all computation this year, when a person informed your correspondent that while the local papers estimated an attendance of 5,000, a gentleman from Hunter Riv-er had given it as his opinion there were not much less than 7,000 present, and somewhere about \$1,200 was re-

alized from the tea. The twelfth was duly celebrated in this city by a parade to the First Methodist church, where the Rev. Silas James preached a very aproporiate

The weather has been extremely hot of late, and on Monday afternoon a little son of John T. McKenzle was taken suddenly ill in the park, and was removed to his home insensible. It was thought to be a case of sun-

One death, that of Philip Gaudet of Miscouche, is very sad indeed, he leaving a widow and ten or eleven children. He was 45 years of age.

On Monday morning, Bernard Murphy, William Doyle and William Weatherbe were arriagned on a charge of burglarizing the premises of John Wheatley on Tuesday night of last week. Murphy and Doyle have been sent up to the supreme court, and Weatherbe was remanded for one week. He was put on the stand and told how the robbery was committed. He told that they had made a previous attempt to enter Beer & Goff's store, Queen street, before going to Wheatley's, but could not get in.

J. H. Bell of Charlottetown, P. G. M. of P. E. I., was presented at the Orange tea on Saturday with an address and a handsome gold watch by the grand lodge of P. E. I.

The C. W. A. road race on Monday was an exciting affair. The run was from Houston's hotel, Brackley Point, to the P. E. I. hospital, St. Peter's road. There were nine started in the race, but by accidents and mishaps they did not all complete the run. L. Unsworth, H. Morris and L. A. Haszard were the successful winners of the three prizes, viz., a valuable bicycle lantern, given by the president, J. Pitblado; a pair of opera glasses, valued at \$4, given by Isaac Carter, the vicepresident, and a cyclometer and bicycle bell, given by the members of the

Smith of Hiram, Ohio. The committees appointed to make

arrangements for the Maritime Union C. E. convention, to be held in this city on the 1st. 2nd and 3rd of September, are getting under way. The executive met last week and appointed the Rev. D. Sutherland permanent chairman, and the Rev. W. J. Kirby secretary of the committee of management. Chairmen of committees were then apopinted as follows: Entertainment committee, W. C. Turner; music committee, J. T. McKenzie; locating committee; G. F. Beers; reception committee, Mathew Stevenson; stewards' committee, Dr. J. F. Ayres; decoration committee, Mrs. Arthur Johnson; finance committee, A. W. Stearns; printing committee, Duncan Marshall; registration committee, G. F. Hutcheson. It was decided to hold the ses sion in the First Methodist church, and the addresses of welcome the first night are to be delivered in behalf of the city by Mayor Dawson, on behalf of the churches by Rev. D. Sutherland, and on behalf of the local union by Duncan Marshall.

Last evening a meeting was held to consider the question of a permanent location for the school. A plebicite was taken, eminently favorable to a permanent summer school at Parrsboro. Dr. Hall of the Normal school and Supervisor McKay of Halifax were very enthusiastic in regard to the grounds across the Parrsboro river, about a mile and a half from the town, where the 93rd Battalion was in camp last year, as the most suitable site for a summer school. Supervisor McKay then gave his ideas in regard to such a school, which included those of a large building with class rooms, dining room and kitchen, several small cottages, many tents, a caterer etc. His ideas were cordially endorsed. A vote was taken in regard to the advisability of having a three weeks' course instead of a two weeks' one, in the event of the school's coming to Parrsboro, the only additional expense to be that of board. The proposition was favored by a large majority.

It was intended to go to Cape Blomidon on Thursday, but the morning not being very fine the plan was delayed. The school went to Two Islands on Thursday afternoon and gathered more valuable specimens. This morning they leave on the steamer Evangeline for

A pleasing event took place at the "round table talk" on psychology, led by Dr. Theodore H. Rand and Dr. Dearborn on Thursday evening. One of the speakers had somewhat deprecated the study of psychology, when a stranger of commanding presence mysteriously intimated that none of those ent had ever seen him would ever see him again, and, after taking the former speaker to task for his remarks, made a very eloquent and pleasing speech, which was loudly applauded. The former speaker asked his opponent, on behalf of the ladies, to give his name, and the president of the summer school, also on behalf of the ladies, asked the eloquent stranger to take the platform. The stranger was Rev. Howard Wilbur Ennis, a prominent Washington clergyman and lecturer, who is collecting material for an illustrated lecture on Canada. to be entitled "The Queen's Threshold."
