ST. JOHN STAR.

ST. JOHN, N. B., MAY 19, 1908.

The opening of the series of base ball games by the amateur league last evening on the Victoria grounds was more auspicious than even the friends of the league had expected. Mayor White very knidly consented to throw the first ball across the plate, and he did it so well that a strike was called on the man at the bat. With his wor ship in the box and the president of the Y. M. C. A. as a member of one of the teams, the league series was certainly opened under favorable auspices. The fact that Mr. Frank White, president of the Y. M. C. A. has been playing ball for about twenty years ago is a very good effective last evening as he was nearly twenty-five years ago is a very good argument in favor of muscular Christianity. There was a very large attendance at the opening game,

are at liberty to attend, and all that is needed is good sport, free from steadily increasing number of enthusiastic spectators. The Star trusts that such will be the case, and that that such will be the case, and that the league at the close of the season will be able to look back with pleasure and satisfaction to what it will have

OVER HALF A MILLION JEWS.

NEW HAVEN, Conn.. May 18.—The convention of District No. 1, Independant Order of Brail Brith which convened yesterday, had another session today at which the recommendations contained in the president's report were considered. One of these recommendations was the continuance of the distribution of the New York Ghetto, It was stated that between half a million and 600,600 Jews are now in New York and that in some cases as many as three or four families are huddled in one small tenement.

Water Commissioner Rothnosky of Boston, one of the delegates from that city, made an earnest and eloquent appeal for the continuance of the work of relieving this congestion.

is to Mr. Chamberlain's lasting honor that he interpreted aright the feelings of the people of the colonies, foresaw their coming greatness, and kept in touch with them. He now gives notice of another important move in the direction of imperial development and a still closer drawing together of the lines uniting mother land and colonies. That he will meet opposition goes without saying, but he will, perhaps, remember it was Gladstone who said that difficulty is the condition of success.

BRITAIN AND RUSSIA.

LONDON, May 12.—With regard to the statement published in the United States that Great Britain is planning a military expedition into Thibet and that it is intended as a menace to Russia, the only foundation for the report appears to be the fact that the Indian mail brings advices that a small body of Indian sappers and ploneers had been sent to rebuild the road along the Feest railway to the frontier and that there is some speculative talk in the Indian papers regarding the possibility of pushing on the railway the Bolan territory. There is no suggestion of any menace to Russia.

Fire destroyed the residence of C. E. Morton at Milton, Queens Co., N. S., on Friday evening, also damaged to a large extent the house of James A. Hunt. It is claimed to be the work of an incendary. The steam engine and fire company were sent from Liverpool to assist the Milton brigade.

The fire at Dominion No. 1 colliery. Cape Breton, is yet far from extinguished. Last Tuesday an investigation of the drain shaft was made and it was found that the fire was still burning. The officials held a consultation and decided to resume flooding at once. It was thought that the fire was completely out and all preparations had been made for pumping out the water. It now looks as if it would be many months before Dominion No. 1 will be in operation again.

The Cape Breton Electric Co. expects to have the construction work on the North Sydney—Sydney Mines line sufficiently far advanced to begin the running of cars between the two towns on Wednesday next.

The P. W. A. of Sydney Mines, are having plans prepared for a opera house which they propose to erect in that town. The building will cost about \$15,000. The lower floor will be used as an opera house, and the second floor will be donated to the uses of the so-ciety.
