SMOKELESS POWDER THAT HAS NOT ANY FLASH

BERNE, April 6.—It is stated that the British Government are in treaty for the purchase of a smokeless powder which is also flashless, invented by a Swiss chemist and successfully tested. To the military and naval services the importance of such an explosive will steadily appeal as the use of an explosive that gives no visible flash means impossibility of location of guns and ships during action.

TWO MEN SNOWED UP IN HIGH ALPINE PEAK

Hot Where They Seek Shelter Buried in Drift and They Have to Tunnel Out.
GENEVA, April 6.—An Englishman named Morgan and a German friend of his have had a terrible experience on the Safruh, a mountain 9266 feet high.
They left Schruns, on the frontier of Switzerland and Austria, last Sunday with the intention of ascending the mountain on skis, and they took no guides with them.
Nothing was heard of them, and at the end of three days a search party was organized. It found no trace of the missing men, and Mr. Morgan and his friend were given up for lost.
They crawled into Schruns yesterday, half dead from want of food and exhaustion.
When near the summit of the Safruh they were overtaken by a blinding snow storm, and after wandering about aimlessly for some time they discovered a hut, in which they took shelter.
Hour after hour the snow fell, until the hut was buried beneath it and they were close prisoners. Their only food for four days was two loaves of bread, and melted snow was their only drink.
Then Mr. Morgan, in desperation, burrowed through the drift round the hut, and forced a passage through the snow, which was waist-high in the open, followed by his German companion, who was even more exhausted than he was.
Both of them are reported today to be well on the road to recovery.

TRANSVAAL FARMERS BOTHERED BY LOCUSTS

Natives Manage to Catch the Creatures, and Then Eat Them.

JOHANNESBURG, April 6.—Clouds of locusts visited the Transvaal in the past season, and all the ingenuity of the farmers and government officials has been put into devising means of getting rid of the plague. The natives seem to have taken the thing much more quietly and philosophically. Mr. Hanning, the government veterinary officer in Basutoland interviewed concerning the native way of dealing with the locusts, said: "These destructive creatures do not seem to have done very much damage to the natives' crops during the past seasons and wherever they did put in their appearance the Basutos were not idle in seeing their opportunity of taking back a fair equivalent of the damage done by catching and drying large numbers of the insects. It meant exchanging bread for meat—in my opinion a most suitable and effective method of dealing with the locust plague, and well worth copying elsewhere. It is even practicable where the people themselves do not look upon locusts as fit articles for food, for the domestic animals from the fowl upward, and including the horse, are by no means fastidious in this respect. They can not only live but even thrive and fatten on them in times of scarcity of food. Ground up and mixed with bran they would form a most nourishing substance of considerable market value."

SCALE OF PRICES.
"How much do you charge for shaving?"
"That depends entirely on how many times I draw blood. Sticking plaster is now selling at about 30 cents a foot."

Six of the nine men who will endeavor to bring about the elimination of labor struggles from the industrial world are presented here. President Roosevelt founded this commission and turned over to it the \$20,000 awarded to him from the Nobel fund.

RUMOR THAT EMPEROR OF RUSSIA WILL ABDICATE IN FAVOR OF GRAND DUKE MICHAEL

LONDON, April 5.—The Daily Mirror claims to be in a position to announce upon the "highest authority" that the Emperor of Russia purposes to abdicate within a month and that Grand Duke Michael will be appointed regent during the infancy of the Czarvitch. For the past three or four weeks, the paper says, the events in this direction

The lower house of parliament is to be abolished and there will be former military dictatorship with the object of stamping out revolution and putting an end to anarchy in Russia.

CZARINA AND CZARVITCH.
The paper declares further that a marriage has been arranged between Grand Duke Michael and Princess Victoria of Schleswig Holstein, and that the Empress of Russia was chiefly for the purpose of negotiating this marriage.

BONILLA STILL TRYING TO KEEP UP THE FIGHT

Is Gathering His Scattered Forces and Will Occupy New Positions

PUEERTO BARRIOS, Guatemala, April 5.—After the battle of Namasique in which the forces of Honuluras were defeated by the Nicaraguans, President Bonilla's forces occupied Amapala which place is fortified and defended by a strong force of Honuluras. Tegucigalpa, the capital of Honuluras, was considerably weakened by forces being sent to Generals Barahona and Christmas, who were defeated after eight days fighting at Namasique, and a mutiny occurred in thearrison at the capital. President Bonilla sent instructions from Amapala, authorizing General Saturnino Medalla to evacuate Tegucigalpa if he were unable to defend it and save the city from bombardment and looting. The city was evacuated.
The forces of president Bonilla and General Medalla are now uniting with the army of President Figueroa, of Central America, on the frontier, where the combined armies are being massed for continuing the war.
General Solomon Ordenez, the Honduran minister of war, arrived at Puerto Cortez today and has taken command of the coast defenses. President Bonilla's forces occupy all the cities and towns on the north coast of Honduras, except Trujillo and the principal ports of the coast, San Mateo and Puerto Cortez. The Honduran forces also occupy the railroad and the departments west of Camaguey, containing the principal fighting population of Honduras.
President Bonilla's line of defence extends from Amapala to the frontier of Salvador, thence north to San Pedro Sula and Puerto Cortez. He will establish his new capital at Camaguey.

PHOTO OF DOWAGER EMPRESS OF RUSSIA

LONDON, April 5.—This portrait of the Dowager Empress of Russia was taken here during her visit to her sister, Queen Alexandra.
The Czar's mother, who is now sixty years old, has not been in England for a quarter of a century, but has remained most of the time in Russia, where she exercised a strong influence over her son, Czar Nicholas. She is now in favor of a free constitution for Russia.

CYCLONE IN SOUTHERN STATES CAUSED MUCH DAMAGE

Houses Blown Down, and Several Lives Lost in Yesterday's Storm

MONTGOMERY, Ala., April 6.—Specimens from the Southern and Western parts of Alabama tell of death and devastation from the cyclone which swept through the southern and eastern portions of the state yesterday. At Bradley's home of Hugh Farrier, a prominent planter, was blown down, instantly killing Mr. Farrier and his six year old son, and fatally injuring Mrs. Farrier. The storm tore up the tracks of the Atlantic Coast line for several miles. Probable loss of life is reported from North Ferris, where on the plantation of J. G. Moore, a banker of Marion, a row of houses was blown down. During a storm last evening lightning struck the jail at Salama, knocking down a part of the wall of the prison and terrifying the prisoners.
A magistrate and several policemen visited the cave, and on penetrating to the interior found a man with long, matted hair and beard, who said his name was Andre Faure.
The cave contained an electric generator and was brilliantly illuminated. Faure was fitting up shelves to accommodate some thousands of volumes which were stacked in the cave.

ELECTRIC BEAMS LIGHT HERMIT'S CAVE

Mystery That Held Peasantry in Superstitious Awe is Solved by Magistrate.

PARIS, April 6.—A strange hermit has been arrested in a cave called "The Devil's Grotto," near Beauvoir on the Rhone.
The cave was not known to be inhabited, and the residents of the neighborhood held it in superstitious awe. Lately they were terrified by reports of mysterious lights having been seen in the cave after nightfall, and police assistance was sought.
A magistrate and several policemen visited the cave, and on penetrating to the interior found a man with long, matted hair and beard, who said his name was Andre Faure.
The cave contained an electric generator and was brilliantly illuminated. Faure was fitting up shelves to accommodate some thousands of volumes which were stacked in the cave.

The first of a series of discussions on the duties of boards of health took place last evening before Pioneer Lodge, L. O. E. F. The discussion was opened by Hon. C. N. Skinner. Others who took part in it were Dr. Jas. Christie, Dr. A. D. Smith, H. E. Coaker and Charles Fowler. The address took the form of preliminary discussion on the subject of the enforcement of sanitary laws. The conditions prevailing in the city and others were mentioned and the efforts of boards of health to better the conditions commented on. Premier Pugsley's suggestion that a sanitarium be established was also alluded to, but as the prevention and not the treatment of disease was the subject before the meeting the matter was not gone into fully. The discussion will be continued next Friday night.

WENT WITHOUT HER BAGGAGE.
A Prince Edward Island woman who sailed on the Empress of Britain yesterday, was obliged to leave for England without her baggage, through the misunderstanding of a U. S. Immigration Official. Yesterday morning the lady arrived in the city enroute to Boston where she was to take passage for England on a steamer. She was detained here for several hours by an immigration official and missed the train to Boston. The steamer was to sail on the arrival of the train, so she knew that she could not make connections. Being anxious to leave for the old country at once, the woman engaged passage on the Empress of Britain. Her baggage proceeded to Boston and will be taken to England on the steamer she had intended taking.

There passed away yesterday morning at 1.30 o'clock at his home, 556 Main street, James Tyzik, one of the old landmarks of the North End. Mr. Tyzik was a man of high trade, and was also his father. He spent a good deal of his time in inventing, and like most all inventors, he was very exacting, and also failed to gather any recompense by the different articles he is said to have worked out. Among his inventions, it is said, was an improved engine wheel, also a mail puller. Mr. Tyzik was about 70 years old, and was never married.

F. L. McLEAN.
THE RANGE, QUEEN'S CO., N. B.—There died at the Range Queens Co., N. B., March 29, of consumption, Frank L. McLean, aged 35 years. For some time he was engaged in the mercantile business. He was much respected as a straight-forward man—a man well informed in many questions. He leaves a father and five brothers and one sister. His brothers are: Manning and John, of the Range, Q. C.; Leant of St. John, N. B.; and Captain Harb of St. John, N. B., and Adlie of the Range. His funeral was held at the Range Baptist Church on the 31st ult., conducted by the Pastor, J. H. Puddington. It was one of the largest funerals ever seen in these parts.

MRS. CHARLES BARTON.
CHIPPAN, QUEEN'S CO., N. B., April 5.—Mrs. Charles Barton of Chippan Bay died March 29th, aged 79. After the stroke which came on March 21st, she never to any extent recognized anyone. Mrs. Barton will be much missed, as she was active in church work. She is survived by two sons and three daughters. Her funeral was held at the Range on the 31st ult. and was conducted by Pastor J. H. Puddington.

MRS. CATHERINE CONWAY.
The death occurred at Boston on Saturday last of Mrs. Catherine Conway, formerly Miss McKeever, of this city. She leaves to mourn two sons, two sisters, Mrs. Jane Mullin and Mrs. Matilda Gallagher of North End, and two brothers, Bernard McKeever of Moncton, and John McKeever of Roxbury, Mass.
