Partial Service to be Restored So That Not Over 2,000 Men Will be Workless.

STRIKERS CLAIM ALL GOING WELL

Enormous Damage to Furnaces if Coal Cannot be Secured to Keep Fires up.

(Continued from page 1) Some idea of the damage to furnaces which would have been caused had not volunteers with some experience in railroading stepped into the breach may be gained from the statement of an official who said today that one of the furnaces threatened with disaster is valued at the sum of \$100,000.

The strikers' confident. The striking railwaymen, although they are watching closely things as they progress at the plant, look disinterestedly upon the partial resumption of operations and express themselves as of the opinion that either of the four locomotives run by "broken rails" will alter the situation little.

George K. Whark, representing the striking railwaymen said tonight: "I have reason to believe that a department of labor is going to take an active interest in the strike situation. We have declined to join the company in the appointment of a Board of Investigation because of the fact that a decision of such a board is not necessarily binding on either of the two parties to the dispute. We have notified the Minister of Labor that we are still willing as we have always been to submit the matter to the Canadian Railway Board of Adjustment in Montreal being satisfied, judging from past experience, that an equitable adjustment of matters would be made by that board."

CANADIAN FIGHTS RADICAL POLICY OF THE UNION CONGRESS

Norway and Italy Join Canada in Protest Against a German Delegate's Resolution.

London, Nov. 23.—During the discussion of the resolution on International policy moved by a German delegate at International Trades Union Congress today, H. J. Halford, of Hamilton, Canadian representative, protested against the revolutionary policy of the congress, and said he could not continue working with a body holding such doctrines.

J. H. Thomas, the president, replying, said that Canada need have no fear that the congress was a revolutionary body. On the contrary, he added, "it is the mildest mannered group of people that ever scuttled a ship."

Secretary Flimmen retorted that the congress had never done anything so revolutionary as the Canadian Labor Congress, which voted for the nationalization of mines and for an independent Ireland, Norway and Italy joined Canada in opposition, but the resolution carried.

PREDICTS GREAT FUTURE FOR PROVINCE

Guest Reviews Labor Conditions in England as He Saw Them During Visit.

(Continued from page 1) Particular reference was made to the transportation and coal situation in Britain at the present time and the speaker pointed out a warning to his country as to the method in which the relations between the capital and labor should be handled as it is of extreme importance to the future prosperity of Canada that no parallel situation to that existing in England today should be allowed to develop in this country. He also made reference to the future of Canada from a transportation and electrical power standpoint by stating that the big future of this country lies along those avenues. Enormous developments of electrical power are scheduled for the future by the various governments in the Dominion and it is felt everywhere that the possibilities which lie in these developments mean a wonderful future for the country if they are properly handled.

FOUND \$140 GEM IN CUP OF TEA

Halifax Man Gets a Fine Return for His Five Cent Investment.

Halifax, N. S., Nov. 23.—C. B. Johnson, is thanking his lucky stars that he ordered an extra cup of tea yesterday as when he was draining the last drop of the beverage, he discovered at the bottom of the cup, embodied in granulated sugar, a diamond. He at once went to a well known jeweller who informed him that the diamond was worth \$140, a sum any jeweller would gladly pay for the stone, but Johnson is undecided whether or not he will sell.

A.S. GOODEVE, RAILWAY COMMISSIONER, IS DEAD

Former M. P. for Kootenay Dies in the Hospital at Toronto After Brief Illness.

Toronto, Nov. 23.—Arthur Samuel Goodeve, member of the Dominion Board of Railway Commissioners died last night at the private pavilion of the Toronto General Hospital. Mr. Goodeve was taken ill on November 16 at the sitting of the board here and removed to the hospital. He was born in Guelph, Ont., 59 years ago, and graduated from the College of Pharmacy in Toronto. He went West some years ago and was elected to the British Columbia Legislature, becoming Provincial Secretary in 1903. In 1908 he was elected to the House of Commons from Kootenay, became Conservative whip and resigned his seat to join the Railway Commission, a few years later.

TRIBUTE TO COMMISSIONER

Ottawa, Nov. 23.—At the meeting of the Railway Commission today Chairman Carvell and others paid a tribute to the memory of the late Commissioner Goodeve, who died in Toronto yesterday. Mr. Goodeve had been a member of the Board of Railway Commissioners for eight years. For a number of years previous to the general election of 1911 he was a member of the House of Commons for Kootenay, B. C. When the Borden administration was formed in 1911 it was thought that Mr. Goodeve would be chosen as the representative of British Columbia in the cabinet. But the choice fell on Hon. Martin Burrell.

CANADIAN BACON OF BETTER CLASS THAN UNITED STATES

Rate of Exchange Makes it Dearer in England Than the Danish Product.

London, Nov. 23.—Laird House of Commons tonight Alfred Hodge, Labor leader, asked the food controller whether the food ministry had decided to offer a subsidy on the Canadian bacon industry by giving Canadian curers twenty shillings on the hundredweight. The food controller replied that prices for Canadian bacon were substantially the same as for that from the United States, but that the Canadian was of better quality. The higher price of Canadian bacon in comparison with Danish was mainly due to the difference in the rates of exchange, as the pound sterling was approximately worth only fifteen shillings in Canada against 25 shillings in Denmark.

HEADACHES Make Life Miserable.

Headaches are one of the most aggravating troubles one can have, and it is hard to struggle along with a head that aches and pains all the time.

Headaches seem to be habitual with many people; some are seldom, if ever, free from them, suffering continually from the dull throbbings, the intense pains; sometimes in one part, sometimes in another, and then, again, over the whole head.

There is only one way to get relief from these persistent headaches, and that is by going direct to the seat of the trouble, for unless the cause is removed, the headaches will still continue to exist.

The fact that Burdock Blood Bitters keeps the stomach, liver and bowels toned up is proof enough to show that it will eliminate the cause of the headaches.

Mrs. Harold Lanath, Owen Sound, Ont., writes: "My system was run down and my blood out of order. I suffered a great deal from severe pains in my head, which made me feel very miserable. After having tried other remedies I purchased a bottle of Burdock Blood Bitters, and was very glad to notice a decided improvement in my health, so I took another and am glad to say that it has done me an enormous amount of good. I have recommended it to my friends, who were in a similar condition, and they say it is a wonderful remedy."

One of Four Millions

(A Photograph Direct from the War-Stricken Area)

\$1 per Month Preserves the Life of One Child

Millions of war orphans in Central Europe are growing up undernourished and stunted. Thousands of them are dying of typhus, tuberculosis and small-pox.

There is almost a complete lack of the nourishing foods growing children need, of clothing, of doctors, nurses and medical supplies. The condition of the children is pitiable in the extreme.

Upon this coming generation depends largely whether these nations will be healthy and right-minded or a hot-bed of anarchy and degeneracy—a menace to the world.

It has been found by experience that the cost of caring for a waif child is approximately three dollars per month; that of the supplies that are required by imports about one dollar is needed; and therefore the dollar that we provide, together with the local support of local governments, local municipalities, local charities and local services practically preserves the life of one child.

The British Empire War Relief Fund will be administered in Europe by the British Red Cross in co-operation with the League of Red Cross Societies. Send your contribution care of:

COAL IMPORTERS HIT THE HARD

Winnipeg Grain Exchange Lays the Complaint Starts the Hearing.

Ottawa, Nov. 23.—Hearing was held late this afternoon by the Board of the complications arising out of the payment of tolls on international traffic present adverse exchange on the matter has been before the in one way or another for months past and there have been forecasts with the railways on foot without any solution of the being arrived at.

The situation on the C. standpoint has been accentuated the commencement of the grain movement, because of the that the bulk of western grain ing shipped to the United States.

The Point at Issue As the railways collect tolls point of destination, this means on a heavy movement of grain and flour, which is hauler or distances in Canada than United States, payment is de by the railways in American co- led to an application made to H. J. Symington, on behalf Winnipeg grain exchange for force of an order by the board would in some way correct conditions.

An International Problem During the course of the today, Chief Commissioner of the year members of the board that some action is necessary, phrased the legal difficulties because of the international of the problem, and the con lack of jurisdiction.

Mr. Carvell noted that up present time the board had received more complaints from importers than from those on shipping products to Canadian importers of coal were par hard hit.
