## GERMAN SHIPYARDS BUSIER THAN EVER IN THEIR HISTORY

Mr. Farley Finds Confidence That Country Will Regain  
Place on Sea—War Penalties Called Advantage.

Washington, May 14.—The American  
merchant marine programme will meet  
with no hostility in either England or  
Germany, according to a report on the  
attitude of shipping interests in these  
two countries made to Albert D. La-  
ker, chairman of the Shipping Board,  
by Edward F. Farley, vice-president,  
in charge of ship sales, who has just  
returned from Europe.

In Germany, Mr. Farley reported no  
interest is taken by shipping concerns  
in either American or British merchant  
marine plans as the Germans feel they  
have an extraordinary advantage in  
their efforts to rebuild their merchant  
marine from the ground up. The very  
penalties imposed on Germany as a  
result of the war, influential German  
shipping men informed Mr. Farley, are  
now operating to make it certain, in  
their opinion, that ultimately Germany  
will regain her place on the sea. Ger-  
man shipyards are crowded with new

construction, and ports like Hamburg,  
Mr. Farley found, are busier today than  
ever in their history, with lines of  
foreign shipping at anchor begging a  
chance to be repaired in German yards.  
Mr. Farley was assured in England  
that British shipping interests recog-  
nized the right of the United States to  
establish a merchant marine with her  
war-built tonnage even though this  
would compel a revision of the operat-  
ing plans of the British Merchant Ma-  
rine. Farley told Mr. Laker that the  
British attitude was one of fair  
play toward the United States. In En-  
gland, Mr. Farley found that the ship-  
yards were very generally closed for  
lack of work.

Mr. Farley also found that the Ship-  
ping Board's price of \$30 a ton for its  
war-built fleet was a fair estimate of  
the world market price for shipping of  
the type that the United States has to  
dispose of.

## DRIVE TO RIGHT AFTER JANUARY 1

Nova Scotia and New Brun-  
swick to Change from Left  
Hand Drive.

Halifax, N. S., May 14.—During the  
session of the Nova Scotia Legislature  
just closed, an act was adopted pro-  
viding that after Jan. 1, 1923, all traffic  
on the highways and streets of the  
province should drive to the right. By  
an act adopted by the New Brunswick  
Legislature the change from the left  
practice of driving to the left will  
take place in that province at the same  
time.

With the abandonment of the drive  
to the left in the Maritimes, one  
more old world custom will disappear  
from this continent, a custom laid  
down from the days when the horse-  
men rode around in tin garments and  
kept fellow wayfarers in their right  
as to be better able to guard against  
surprises.

## THE POLICE COURT.

In the police court on Saturday  
morning, four juveniles appeared on  
the charge of being members of a dis-  
orderly crowd, and were allowed to  
go after being given a severe lecture.  
One man appeared on the charge of  
drunkenness, and was given the op-  
tion of paying \$8 or spending two  
months in jail.

## ECZEMA ON FACE AND HEAD FOR FIVE YEARS

ECZEMA, or skin rash, as it is often  
called, manifests itself in little round  
pimples which contain an extremely  
irritating fluid. These break and sub-  
sequently a crust or scale is formed  
and the intense burning itching and  
smarting, especially at night or when  
the part is exposed to a strong heat,  
is almost unbearable and relief is  
gladly welcomed.

There is only one way to get relief  
and no remedy like

BURDOCK BLOOD BITTERS

Take it internally and it gets at the  
root of the disease in the blood and  
drives it out of the system.

Apply it externally and it takes out  
the itching, stinging and burning, and  
promotes healthy healing.

Mr. J. Sore, 215 Princess Ave., Van-  
couver, B. C., writes: "Having suf-  
fered with eczema on the face and  
head, for the last five years, I con-  
sulted several doctors, and tried various  
kinds of ointments and lotions, but I  
derived no benefit from any of them. I  
did not know what to do until a friend  
advised me to try Burdock Blood Bit-  
ters, and after I had used two bottles  
I began to get better and now after  
taking eight bottles I have not even  
a blotch on my face. I feel that I cannot  
praise B. B. B. too highly. I hope you  
will make full use of this recommen-  
dation for the benefit of those who  
are suffering from this terrible com-  
plaint, eczema."

## China Becoming More Self-Assertive And Independent

Sees Signs of the Stirrings of  
a Chinese Public Opinion  
and National Sentiment.

Chicago, May 1.—China is becoming  
more self-assertive and self-dependent  
since the early days of the Washing-  
ton conference, says Bishop Francis J.  
McConnell, resident Bishop of Prince  
George's Bay, in the Methodist Episcopal  
Church, who has been visiting in China  
recently.

Bishop McConnell is a member of  
the Educational Commission of the  
Missions Board of America and Great  
Britain who were sent to China six  
months ago. His statement was made  
public by a committee on Conserva-  
tion and Advance of the Methodist  
Church here.

"There are sure signs of the stir-  
rings of a Chinese public opinion and  
of Chinese national sentiment in ad-  
vance of anything yet observed there,"  
the Bishop said.

Speaking of the relations of the Ja-  
panese and Chinese, Bishop McConnell  
said: "The Japanese have made one  
notable failure and that is they have  
failed to make a friend of China. One  
does not have to be in a Chinese city  
long to note the intensity of the en-  
mity of the Chinese toward the Ja-  
panese. He is utterly blind who rates  
this enmity as of no practical conse-  
quence in view of Japanese superiority  
in arms."

"The Chinese have found in the bor-  
cote a powerful weapon. With consum-  
mate genius for non-co-operation and  
passive resistance, China can free her-  
self from all outside influence which  
she chooses to ban when the time  
comes. And the time is coming soon  
in the years just ahead when China  
will inevitably come to a self-assertive,  
self-respecting independence of  
foreign nations. This is a plain-as-day  
fact that a stroller on Chinese streets  
cannot miss."

"I do not think there is danger of  
another Boxer uprising. At least if  
there is such a rising the weapons  
used will not be swords and guns."

Bishop McConnell said that the pres-  
ence of an ever growing liberal senti-  
ment—not necessarily a liberal party  
—in Japan is not a mystery. "If Japan  
does not embark upon a career of im-  
perialistic conquest of China in the  
next ten years it is not likely that she  
ever will," he declared. "By 1923 the  
democratic forces will probably be, if  
not irresistible, at least so effective as  
to make it impossible for war plans to  
be carried through in the old high-  
handed fashion."

## Trout Pools Nipigon Park

Nature has dealt most bountifully with Canada in providing her with beau-  
tiful, immense and varied playgrounds. Large areas, covered with virgin forest,  
interlaced with lakes, rivers and streams, have been set aside by the Govern-  
ment, where the tourist, traveller and sportsman may find recreation and where  
game fish are abundant and wild life roams unmolested.

Such is Nipigon Park, one of Ontario's great forest reserves. It has an  
area of 7,300 square miles. No national playground in Canada offers such  
sport to nimble and novice alike, for these cold green waters of the north are  
alive with the gamiest of trout. Trout have been taken from these waters  
up to a record weight of 14 1/2 pounds.

A trophy is awarded annually by the Canadian National Railways to the  
Winnipeg line of the Canadian National Railways, is the gateway to this fish-  
erman's paradise. At Orient Bay, Nipigon Lodge—a rustic hunting and fishing  
lodge de luxe—is set among the pines and cedars. From here, all the Nipigon  
trips may be made either by motor-boat or canoe. Prince Arthur of Con-  
naught, while touring Canada—and, later, the Prince of Wales—fished in these  
waters and caught their limit of Nipigon trout.

A trophy is awarded annually by the Canadian National Railways to the  
fisherman catching the largest Nipigon speckled trout. Last season twenty-  
five contenders secured fish weighing five pounds and over. The specimen  
that won the prize tipped the scale at seven pounds.

## Fishermen And Sailors Keen Over Duff Motion

His Plea for \$5,000 to En-  
courage Sailing Races Held  
With Favor in Maritimes.

Halifax, N. S., May 14.—When Wm.  
Duff, M. P. for Lunenburg, N. S., arose  
in Parliament and requested a grant  
of \$5,000 to encourage sailing races be-  
tween the deep sea fishing vessels of  
Canada and those of other nations, he  
raised a question which has become a  
matter of big debate among sailors  
and fishermen of the Maritimes. The  
question is:—

Should the Government encourage  
an international contest which may be  
delaying the march of progress in one  
respect, because it is encouraging sail  
in its last stand against the encroach-  
ments of mechanical power?

Mr. Duff told the House that two sail-
