## Death of Miss E. J. Humphrey.

The death of Miss E. J. Humphrey occurred on March 14, in West Monroville, Deceased was 23 years of age, and a daughter of Albert Humphrey, of Norton (N. B.). Miss Humphrey was a member of the Dorchester Temple Baptist church, and possessed many amiable qualities. Her presence and cheering smile will be missed by a large circle of relatives and friends, and into the darkened home over which has fallen this cruel death of one so young and full of promise. She was the daughter of a family of old and true, suffering from, besides her father and mother, she leaves five sorrowing sisters, and four brothers to mourn their sad loss. The sisters are Mrs. James Felt, Mrs. Kenneth Ruffin, Mrs. John Robertson, Miss Annie, and Miss Nettie. The brothers are William E. Humphrey (at whose home she died), Thomas, James and Herbert.

The body reached Norton on Tuesday, accompanied by James Humphrey, Mr. Annie Humphrey and John Robertson. The funeral was held from her father's house on Wednesday, the 18th. About 40 at carriage followed the body to the last resting place. Burial took place at River Bank burying ground, after services were conducted by Rev. F. G. Francis. ## BYRON FREEZE DIES AT PENOBSCUIS.

A Respected Resident of the Parish of Cardwell, Whose Death Leaves a Gap in the Community.

Penobscuis, March 20—Byron Freeze, a prominent and respected resident of this place, died late last night after a long and severe illness. He was 57 years old. Mr. Freeze, who was one of the foremost men in the parish of Cardwell, will be greatly mourned here and throughout the county, by all who knew him.

The widow and relatives have the heartfelt sympathy of the community in their great bereavement. The family consisted of the widow, her daughter, Mrs. Robert Phogey, of Missoula (Montana), who was summoned home recently because of her father's illness; Edwin Freeze, who will be graduated this spring in medicine from McGill University, and Frank and Gladys.

The death of Mr. Freeze is a heavy blow for his aged mother, Mrs. Edna Freeze, and his sister, Mrs. Julia McLeod. Mr. Freeze was the eldest son of Edwin Freeze, a pioneer in this section of the country, and one of the most remarkable men the county ever produced. He was born here as a farmer and, by intelligence and wonderful industry, acquired a considerable property by middle age. He was one of the first men hereabouts to engage extensively in cheese making, and latterly his advice was of much value when the cheese factory was established.

Mr. Freeze had served the parish in the county council, and took a great interest in public affairs. Although a hard worker, he had read a great deal, and amassed a great store of information. His neighbors frequently asked his advice and found it of much practical benefit. While he was actually a very strong man, Mr. Freeze began to fail physically some time ago, and at Christmas time he was compelled to seek medical advice. He failed rapidly after Christmas, and finally was forced to remain in bed, and during the remaining weeks sank gradually and peacefully into the life beyond.

## LUMBER OPERATIONS.

Large Crews of Men Coming Out of the Woods—Stream-driving Promises to Be Good.

Large crews of men are daily arriving home from the woods. A crew who have returned from the St. John's river, on the Tobique, arrived in the city last night, they having finished operations. John McConnell has about a dozen of his men working on the Tobique and a number of his crews have been discharged. The ice is about all out of the streams and tributaries of the St. John's river, and the prospect for driving is most promising. Jacob Hazleton has also finished his season's work and his men have been paid off. Dr. J. E. Scott has a large complement of his lumbering operations on the Tobique and the crew of men arrived in the city on Saturday evening. They report a comparatively easy season, and the outlook is with good prospects for driving. The ice has all run out of the brooks and driving will commence before many days.

A. E. Scott has a large complement of men at work the past few days chopping logs out of the ice along the river front, so as to prevent them being carried out by the ice run. Mr. E. J. Scott has a large quantity of logs in the ice run last spring and he has been running the mill to its fullest capacity night and day. The ice has cut up. The remainder are being hauled up on the bank to a place of safety. It was found necessary to use considerable dynamite to break the ice—Frederick Gleason, March 21.
