We do this annually, simply to clear out every Spring and Summer Suit. No matter what we lose, we don't want to carry over from one season to another. Hundreds of people have been benefited by the cheap sale we had last year, and hundreds of people are waiting to do the same this year.

To get your choice you must come early, as we anticipate a Big Rush, and we have only got a few sizes of each kind.

ACCURACY

Absolute accuracy in dispensing your Physician's Prescription is of the first importance.

We appreciate this fully and consequently a duly qualified and experienced Chemist is always in charge of our dispensing department. No prescription leaves our store without being thoroughly checked by him. Likewise the drugs prescribed are always of the best, in fact of standard quality and purity. Greater care, better drugs, more skilled knowledge could not possibly be employed.

This, no doubt, accounts for the large increase in our Prescription Department, and the confidence which the public place in us.

Two Brockville citizens spent a day at the lake and report a good time, having been very successful in catching a number of black bass.

There is no need of making any mention of the crops, only to say that the prospect is great for the season so far. The last week has given the corn a fair start, and if we have continued warm weather that it will have a chance to grow yet. Some have commenced to use new potatoes, and one man said that he dug potatoes as big as his fists, and if they had been any larger he would have said so.

Permanent Muscular Strength

There is this to be borne in mind in these days when so many young men are giving so much attention to physical development, in gymnastic and athletic exercises, that there cannot be permanent muscular strength where there is not blood strength. Hood's Sarsaparilla gives blood strength, promotes digestion and assimilation, and builds up the whole system.
