

319887

Father We are Indians, & worthy of compassion when we are sick. There is no Surgeon to attend us. We would wish to have one to visit us occasionally. Yellow Head could not come to this place being disabled from the effects of the severe wounds which he received in the course of the last war.

Father Take courage. There are but a few of us here, but we are all of the same opinion, that is the reason why we acquiesce to what you require. When we receive the goods in return we will receive them in a body.

Father Take courage. Do not allow us to be ill used by the People who are to be settled on the lands which we sell you.

Father. I make known to you the manner in which those persons who are on Lake Huron use us - when we go among them they take our Fish from us without paying us.

Father We would wish to have some articles distributed among those who now come here at your request.
