

Every satisfaction given at W. W. WELLNER'S.

render this month a critical time for our foreign affairs, and fortunate shall we be if we escape actual warfare. There is reason to apprehend some serious trouble in Burmah or India, and news from Afghanistan will be very disquieting. The new moon of the 11th inst., promises a very busy time for the railways and post-office. The numerous aspects formed between the Sun and the superior planets between the 17th and 22nd will cause a peculiarly disturbed condition of the atmosphere and great political excitement. The happy trine (120°) aspect formed by Jupiter with Saturn, at 4h. 12m. in the morning of the 20th inst., will benefit France, Italy and Spain. Persons who were born when the Sun, Moon, or ascendant held the 2nd degree of *Sagittarius* will now be prosperous. The 10th will be a very busy birthday anniversary. Persons born on or near the 3rd of April or 6th of October, will find their health or affairs go wrong, and are warned to avoid quarrels and litigation.

JUNE.—On the first day of this month Venus is in conjunction with Neptune and in opposition with Jupiter, and Jupiter is in opposition with Neptune simultaneously, viz., at 8h. 50m. in the morning; this singular coincidence, however, although affecting the weather will have but little effect on mankind. At the moment of new moon Mercury is very near the cusp of the 9th house; and in square aspect with both Mars and Uranus, Saturn being in the same house; accordingly some rapid fluctuations and depression on the Stock Exchange will very quickly follow. This will be a trying period for persons born on or near the 5th of September. The Czar of Russia will be on thorns, especially about the 23rd inst. There will be shocks of earthquake felt in Russia, Austria, and the East, in the latter part of the month. The trine aspect formed by the Sun with Mars and Uranus is fortunate for all whose birthday anniversary falls on the 2nd or 3rd of this month, especially for engineers, surgeons, ironworkers and soldiers. The 21st is also a fortunate birthday. Saturn in transit over the lower meridian at the vernal ingress at Cabul, brings trouble, sickness, and earthquakes on Afghanistan. Mars and Uranus in the 7th house at the solstice will strain the relations of France and England.
